RE: Case No. 2008-00034
Case Dismissal

On January 30, 2008, the Commission sent a deficiency letter in the above named case. That letter, however, received no response and on February 19, 2008 the Commission issued a second letter requesting the needed information to be filed. Again that letter received no response.

The information requested is required by the Commission to process your application and it is important that the information relied upon be current. Since some of the information the Commission will review was compiled for your January filing, there is concern that it may no longer be valid. Therefore, unless the information is filed within 10 days of the date of this letter the application will be dismissed.

If you are unable to file the requested information at this time and prefer not to have the application dismissed, you may request that the application be withdrawn. In either event, you will be able to file a new application at any future time that is convenient for you.

Sincerely,

A handwritten signature in black ink that reads "Michael F. Burford".

Michael F. Burford
Director
Division of Filings
