COMMONWEALTH OF KENTUCKY

BEFORE THE PUBLIC SERVICE COMMISSION

IN THE MATTER OF:

THE APPLICATION OF THE GRAYSON COUNTY WATER DISTRICT FOR APPROVAL OF A PROPOSED INCREASE IN RATES FOR WATER SERVICE, TO INCREASE NON-RECURRING CHARGES AND TO REVISE IT'S TARIFF

) CASE NO. 2008-00057

STATEMENT OF NOTICE

Grayson County Water District ("Grayson County"), hereby petitions the Commission for approval of a proposed increase in its water rates and charges. In support of its application, Grayson County respectfully states as follows:

1. Grayson County is a non-profit water district. Grayson County's principal office place of business and mailing address is 113 South Lee Avenue, PO Box 217, Leitchfield, KY 42755.

2. Grayson County is engaged in the distribution and sale of water. It currently provides water service to approximately 6,120 retail customers. Grayson County also provides water to the <u>City of Caneyville</u>.

3. The proposed increase in rates and charges is necessary for Grayson County to meet its operating expenses, to maintain financial viability, to cover its debt service, and to continue to provide adequate service.

4. For the purpose of justifying the reasonableness of the proposed increase, Grayson County has utilized a historical test period consisting of twelve (12) consecutive calendar months ending <u>December 31, 2007</u>.

5. Grayson County's annual reports, including the annual report for <u>2007</u>, are on file with the Public Service Commission as required by 807 KAR 5:006, Section 3(1).

6. Grayson County hereby gives notice to the Public Service Commission of the adjustment of its rates to those rates set forth in Exhibit No. 1 in the filing requirements. The proposed rates will become effective upon Commission approval, and should result in an increase in annual revenues to \$2,810,994.18, which is an increase of

<u>\$183,897.00</u> or <u>seven (7)</u> percent over normalized revenues from water sales of \$2,627,097.00.

7. Grayson County has revised the portion of its tariff that reflects water rates to residential and commercial customers only. The proposed tariff (Exhibit No. 1) is shown in comparative form on the same sheets, side-by-side, and those comparative sheets are identified as Exhibit No. 2 in the filing requirements.

8. Grayson County has complied with 807 KAR 5:001, Section 9,(2) and 807 KAR 5:001, Section 10,(3) and (4) by delivering to newspapers of general circulation in its service area a copy of the Notice identified as Exhibit 3 in the filing requirements, for publishing once a week for three consecutive weeks in a prominent manner, the first of said publications to be made no later than seven (7) days after the date of application is filed with the Public Service Commission.

9. A copy of this filing has been mailed to the Utility Intervention and Rate Division of the Attorney General's Office of the Commonwealth of Kentucky.

10. As required by 807 KAR 5:001, Section 10, (4), (f) Grayson County will post a copy of its Customer Notice at its place of business on the same day the application is filed with the Public Service Commission, and it will remain posted until the Public Service Commission has determined Grayson County's rates.

11. The list of the documents filed in support of Grayson County's application for approval of the proposed adjustment of rates or the explanation for their absence is contained in the Filing Requirement Index.

WHEREFORE, the Applicant, Grayson County Water District requests that the Public Service Commission of Kentucky grant to the Applicant its proposal to increase its rates and charges as set forth in this Petition.

Dated at Leitchfield, Kentucky this Hprul 4, 3108.

All Over 250,000 gallons	5.00 per 1,000 gallons	5.35 per 1,000 gallons

The rates contained in this notice are the rates proposed by Grayson County Water District. However, the Public Service Commission may order rates to be charged that are higher or lower than the rates proposed in this notice.

Any corporation, association, body politic, or person may request leave to intervene; by motion with thirty (30) days after notice of the proposed rate change is given. A motion to intervene shall be in writing, shall be submitted to the Executive Director, Public Service Commission, Post Office Box 615, Frankfort, KY 40602, and shall set forth the grounds for the motion, including the status and interest of the party movant. Copies of the application may be obtained at no charge from the Grayson County Water District at 113 South Lee Avenue, Leitchfield, KY 42755. Upon request from an intervenor, the District shall furnish to the intervenor a copy of the application and supporting documents.

INDEPENDENT AUDITORS' REPORT

Board of Commissioners Grayson County Water District Leitchfield, KY 42754

We have audited the accompanying financial statements of the business-type activities of the Grayson County Water District as of and for the years ended December 31, 2007 and 2006, which comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States and the provisions of <u>U.S. Office of Management and Budget Circular A-133</u>, Audits of States, Local Governments, and Non-Profit Organizations. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Grayson County Water District, as of December 31, 2007 and 2006, and the respective changes in financial position and cash flows, thereof, for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with <u>Government Auditing Standards</u> and <u>OMB Circular A-133</u>, we have issued our report dated March 19, 2008, on our consideration of the Grayson County Water District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing, of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> and <u>OMB Circular A-133</u> and important for assessing the results of our audit.

The Grayson County Water District has not presented the Management's Discussion and Analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be part of, the basic financial statements.

Our audits were conducted for the purpose of forming an opinion on the business-type activities financial statements that comprise the Grayson County Water District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required for U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the basic financial statements of the Grayson County Water District. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Respectfully submitted,

Buckles, Travis & Sloan Certified Public Accountants March 19, 2008

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Grayson County Water District is a tax-exempt division of county government organized under KRS 74.010. The District provides a municipal water system to citizens located in the geographic area of the system. The District has contracted with Warren Rural Electric Cooperative Corporation the following services: billings, collections, office rental, equipment rental, and related staff expenditures.

The accounting policies of the District conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant policies:

1. The Reporting Entity

The District's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. The more significant accounting policies established by GAAP and used by the District are discussed below.

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approved Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments. The District elected to implement the general provisions in the year beginning January 1, 2003.

2. Basic Financial Statements – Proprietary Fund Financial Statements

The District's basic financial statements include only proprietary fund financial statements because the District engages only in a single business-type activity.

The focus of proprietary fund measurement is upon determination of operating income, changes in net assets, financial position, and cash flows. The generally accepted accounting principles applicable are similar to those businesses in the private sector. Amounts recorded as operating revenues are those revenues generated from general water service operations, all other revenues are recorded as non-operating revenues or capital contributions. The District first applies unrestricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

3. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accrual

The proprietary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

4. Cash and Cash Equivalents

The District has defined cash and cash equivalents to include all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents. All investments of the District are certificates of deposit.

5. Inventory

Inventory of materials consist of expendable supplies held for use and are stated at the lower of cost or market using the FIFO (first-in, first-out) method.

6. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

7. Capital Assets

Capital assets purchased or acquired with an original cost of \$500 or more are reported at historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the estimated useful life of the asset. An estimated useful life of fifty years is used for substantially all plant assets. Estimated useful lives for other machinery and equipment ranges from five to ten years. Upon retirement, the cost of the asset, less any proceeds, is charged to accumulated depreciation.

The District capitalizes construction period interest on loans that were obtained to finance construction.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONCLUDED)

The District has an ongoing activity of assessing the feasibility of installing additional lines to new service areas. Once an extension is considered feasible, there are additional engineering studies, applications to various funding agencies, and project administrative costs. The District defers the ongoing activity and capitalizes these costs upon completion of the project. These procedures are based on the reasonable expectation that the Public Service Commission of the Commonwealth of Kentucky will allow recovery of these costs through their inclusion in future rate increases.

8. Nonexchange Transactions

The recognition of assets and revenues resulting in nonexchange transactions of the District are as follows:

a. Voluntary nonexchange transactions – The District receives various grants from federal and state agencies. Eligibility requirements have been met at the time the funds are received; therefore, the asset/revenue is recognized when it is received.

NOTE B – <u>CASH AND CASH EQUIVALENTS</u>

At year-end, the carrying amount of the District's cash and investments was \$1,074,769 and the bank balance was \$1,170,220. Of the total bank balance, \$300,000 was covered by federal depository insurance, \$235,721 was invested in 100% federally guaranteed securities and the remaining balance of \$634,499 was considered uncollateralized. As of December 31, 2007, \$1,370,110 was pledged with securities held by the pledging banks' trust departments but not in the name of the District.

Kentucky Revised Statute 66.480 provides for investment of governmental funds into certain investment types including obligations of the U.S. Treasury and U.S. agencies, repurchase agreements, obligations of the Commonwealth of Kentucky and its agencies, insured savings and loans, or interest bearing deposits of insured national or state banks. The deposits in excess of insurance coverage must be fully collateralized.

NOTE C – <u>RESTRICTED CASH</u>

The sinking fund is restricted to the payment of principal and interest on long-term debt.

The depreciation fund is restricted to payment for improvements and approved repairs.

The special project fund is restricted to construction to expand service to additional customers or facilities improvement. The subscribers' payments plus interest at five percent annually must be refunded should they not be reached with water service or the project not be constructed. Interest earned on these funds is credited against the Construction in Progress account.

NOTE D - CONTRIBUTIONS IN AID OF CONSTRUCTION

These revenue amounts were obtained from placement of meters at previously unsubscribed locations and from governmental grants.

NOTE E - LONG-TERM DEBT

The following bonds and loans were issued through USDA, Rural Development (RD):

Original		Series	Interest	Balance as	of Dec. 31,
Amount	Funding Agency	Of	Rate	2007	2006
\$1,998,000	RD	1995	4.5%	\$1,709,000	\$1,709,000
1,500,000	RD	1 997	4.5%	1,331,000	1,331,000
1,000,000	RD	2000	4.5%	931,000	931,000
1,350,000	RD	2005	4.125%	1,350,000	0
567,000	RD Loan	2002	4.25%	548,500	548,500

These bonds are secured by an exclusive pledge of a fixed portion of the income and revenues derived from the operation of the District's water distribution system and each has principal and interest sinking fund requirements.

On September 25, 2002 the District received a loan from the Kentucky Rural Water Finance Corporation in the amount of \$364,000. This loan was received as part of a 2001D series multimodal public project revenue bond. This loan bears interest at a declining rate with an average of 4.3% and is secured by the revenues of the water system. This loan also has principal and interest sinking fund requirements. As of December 31, 2007 the loan balance was \$231,000.

During 2002, the District had received approval for a Kentucky Infrastructure Authority (KIA) Project Loan not to exceed \$4,000,000. As of December 31, 2007, total draws of \$3,930,850 had been accumulated. This loan bears interest at a rate of 1.8% and is secured by the revenues of the water system. The balance outstanding on this loan as of year end was \$3,076,015. An annual deposit of \$49,000 is required to be deposited into a reserve account. The annual deposits are to be made until the balance reaches \$490,000. As of December 31, 2007 the reserve balance was \$209,223.

During 2004, the District received a loan from Kentucky Rural Water Finance Corporation in the amount of \$3,136,000. This loan was received as part of a 2004B series revenue bond. This loan bears interest at an increasing rate with an average of 3.7% and is secured by revenues of the water system. This loan also has principal and interest sinking fund requirements. The proceeds of this loan were used to satisfy amounts outstanding on previously issued RD bonds. As of December 31, 2007 the loan balance was \$2,779,000.

- .

NOTE E – LONG-TERM DEBT (CONTINUED)

During 2005, the District received approval for an interim loan from Kentucky Rural Water Finance Corporation not to exceed \$1,350,000. This interim loan will convert to permanent financing through RD upon project completion. This loan bears interest at a variable rate and is secured by revenues of the water system. As of December 31, 2006, total draws of \$1,350,000 had been accumulated. The 2005 series bond was issued through RD in February 2007. Total amounts outstanding at year end were \$1,350,000.

During 2005, the District received a loan from Leitchfield Deposit Bank. This loan requires monthly payments of \$1,229.85, bears interest at a rate of 4.1%, is secured by equipment, and matures in April, 2010.

Current year long-term debt activity is as follows:

Description	Beginning Balance	Increases	Decreases	Ending Balance
Rural Development Bond, 1995	\$ 1,709,000	\$ 0	\$ 0	\$ 1,709,000
Rural Development Bond, 1997	1,331,000	0	0	1,331,000
Rural Development Bond, 2000	931,000	0	0	931,000
Rural Development Loan, 2002	548,500	0	0	548,500
Rural Development Bond, 2005	0 .	1,350,000	0	1,350,000
Kentucky Infrastructure Authority Loan	3,253,163	0	177,148	3,076,015
Kentucky Rural Water Loan	265,000	0	34,000	231,000
Kentucky Rural Water Loan	2,899,000	0	120,000	2,779,000
Kentucky Rural Water Loan - Interim	1,416,903	0	1,416,903	0
Leitchfield Deposit Bank Loan	44,804	0	12,049	32,755
	\$12,398,370	\$1,350,000	\$1,760,100	\$11,988,270

Principal of various amounts are due at least annually in each of the years through 2045. The principal due for each of the next five years and thereafter is as follows:

Year	Amount
2008	\$ 444,521
2009	455,853
2010	463,279
2011	473,812
2012	486,754
2013-2017	2,380,100
2018-2022	2,573,952
2023-2027	1,703,000
2028-2032	1,204,500
2033-2037	1,065,000
2038-2042	531,000
2043-2045	206,499
	\$11,988,270

NOTE E - LONG-TERM DEBT (CONCLUDED)

Principal and interest requirements for the next five years are as follows:

Year	Amount
2008	\$ 928,734
2009	926,918
2010	920,427
2011	916,247
2012	913,434
2013-2017	4,272,150
2018-2022	4,054,477
2023-2027	2,752,539
2028-2032	1,900,317
2033-2037	1,445,907
2038-2042	697,674
2043-2045	232,408
	\$19,961,232

NOTE F – <u>CONCENTRATIONS OF CREDIT RISK</u>

The District extends credit to all citizens who live within the geographic location of the District and who utilize the utility system. Credit losses may be minimal and are generally within management's expectations.

NOTE G – <u>ACCOUNTS RECEIVABLE</u>

Customer accounts receivable are shown net of an allowance for uncollectible accounts. At December 31, 2007 and 2006 total customer accounts receivable was \$163,834 and \$142,223, respectively. Allowance for uncollectible accounts was \$73,267 and \$68,074, respectively as of December 31, 2007 and 2006.

Customer accounts receivable amounts arise from monthly water usage. Based on District policy, water meters are read monthly, with billings occurring five to ten days subsequent to the reading. Once billed the customer has fourteen days to pay the amount due. If payment is made after the due date a late fee of 10% is assessed to water charges. A twenty-four hour grace period is allowed and if amounts remain unpaid, delinquent notices are sent out. Customers are given fourteen days from the date of the delinquent notice to render payment. The day following expiration of the delinquent period, collection trips are made for all bills in excess of forty dollars. If collection does not occur the meter is shut off. The customer will remain active for seven additional days, if at the expiration of the seven days payment has not been made, the account will become inactive and the customer deposit held will be applied to amounts owed. If collection is considered unlikely the balances are charged off as bad debt expense in the period in which they were deemed uncollectible.

NOTE G – <u>ACCOUNTS RECEIVABLE (CONCLUDED)</u>

Management's periodic evaluation of the adequacy of the allowance for uncollectible accounts is based on past loss experience, known and other risks inherent to the specific account, adverse situations that may affect the customer's ability to render payment and current economic conditions. Management considers many factors in determining whether a receivable is impaired, such as payment history and changes in employment.

NOTE H - CAPITAL ASSETS

	Beginning	Increases	Decreases	Ending
Capital assets not being depreciated Land and land rights	\$ 189,436	\$ 42,199	\$0	\$ 231,635
Construction in progress	2,757,365	0	2,110,591	646,774
Total capital assets not being depreciated	2,946,801	42,199	2,110,591	878,409
Other capital assets				
Utility plant and lines	22,594,148	2,538,981	0	25,133,129
Utility equipment and other	516,436	74,336	0	590,772
Total other capital assets at		·····		·····
historical cost	23,110,584	2,613,317	0	25,723,901
Less: Accumulated depreciation	(4,862,176)	(532,089)	0	(5,394,265)
Capital assets, net	\$ 21,195,209	\$ 2,123,427	\$ 2,110,591	\$21,208,045

NOTE I - <u>RELATED PARTIES</u>

The District contracts with Warren Rural Electric Cooperative Corporation (WRECC) for the following services: billing, collections, office rental, equipment rental, and staff related expenditures. The following related party amounts are reflected in the financial statements for December 31, 2007 and 2006.

	DECEMBER 31,			
		2007	2006	
Amounts paid to WRECC for general operations	\$	891,270	\$	811,892
Amounts paid to WRECC for purchased power		20,971		18,510
Amounts included in accounts payable at year end		135,314		135,378
Amounts included in accounts receivable - WRECC at year end		43,475		41,115

The service agreement between WRECC and the District originated on August 16, 2004 and has a term of thirty years. Due to the variations in services rendered and actual costs at that date a minimal payment amount cannot be reasonably determined.

NOTE J – RISKS OF LOSS

The District's risk of loss are addressed by the purchase of commercial insurance. These areas include employee dishonesty bonds, property coverage, vehicle coverage, and a public entity liability policy which includes errors and omission. Coverage is reviewed for adequacy by management and agents on an annual basis.

NOTE K – NOTE RECEIVABLE – CITY OF LEITCHFIELD

During 2006, the District sold water lines and appurtenances to the Leitchfield Utilities Commission. The balance outstanding of \$83,266 is shown as a note receivable on the balance sheet. The note bears interest at a rate of 4.5% per annum and shall be paid to the District over a period of fifteen years in annual installments of \$8,139. The note will mature in July, 2021.

SUPPLEMENTARY INFORMATION

GRAYSON COUNTY WATER DISTRICT SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED DECEMBER 31, 2007 (SEE INDEPENDENT AUDITORS' REPORT)

Federal Grantor/Pass-through <u>Grantor/Program Title</u>	Federal CFDA Number	Agency or Pass-through Number	Federal Expenditures
United States Department of Agriculture Water and Waste Disposal Systems for Rural			
Communities	10.760	N/A	<u>\$ 1,479,995</u>
TOTAL			\$ 1,479,995

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

1) The Grayson County Water District has the following loan balances at December 31, 2007. These loan balances outstanding are also included in the federal expenditures presented in the schedule.

Rural Development (10.760)		1,350,000
TOTAL	¢	1 250 000
IOIAL	ъ Ъ	1,350,000

2) This schedule includes the federal awards activity of the December 31, 2007 and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

3) No awards were provided to sub-recipients.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH <u>GOVERNMENT AUDITING STANDARDS</u>

Board of Commissioners Grayson County Water District Leitchfield, KY 42754

We have audited the financial statements of the business-type activities of Grayson County Water District, as of and for the year ended December 31, 2007, which comprise the Grayson County Water District's basic financial statements and have issued our report thereon dated March 19, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Grayson County Water District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Grayson County Water District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Grayson County Water District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects Grayson County Water District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by Grayson County Water District's internal control. We consider the deficiency described as item 07-1 in the accompanying schedule of findings and questioned costs to be a significant deficiency in internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by Grayson County Water District's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, we consider the significant deficiency identified as item 07-1 to be a material weakness.

The District is required to prepare financial statements in accordance with generally accepted accounting principles. Accounting personnel responsible for the accounting and reporting function lacks the professional training and professional experience to apply generally accepted accounting principles in preparing the District's financial statements.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Grayson County Water District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under <u>Government Auditing Standards</u>.

This report is intended solely for the information and use of the audit committee, management, others within the organization, Commissioners, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

Buckles, Travis & Sloan Certified Public Accountants March 19, 2008

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH <u>OMB CIRCULAR A-133</u>

Board of Commissioners Grayson County Water District Leitchfield, KY 42754

Compliance

We have audited the compliance of the Grayson County Water District, with the types of compliance requirements described in the <u>U.S. Office of Management and Budget (OMB)</u> <u>Circular A-133 Compliance Supplement</u> that are applicable to each of its major federal programs for the year ended December 31, 2007. The Grayson County Water District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the Grayson County Water District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States; and <u>OMB Circular A-133</u>, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and <u>OMB Circular A-133</u> require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Grayson County Water District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Grayson County Water District's compliance with those requirements.

In our opinion, Grayson County Water District, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended December 31, 2007.

Internal Control Over Compliance

The management of the Grayson County Water District, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Grayson County Water District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of Grayson County Water District's internal control over compliance.

A control deficiency in the entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Grayson County Water District's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit Grayson County Water District's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the audit committee, management, others within the organization, Commissioners, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

Buckles, Travis & Sloan Certified Public Accountants March 19, 2008

GRAYSON COUNTY WATER DISTRICT SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED DECEMBER 31, 2007

A. SUMMARY OF AUDIT RESULTS

- 1. The auditors' report expresses an unqualified opinion on the financial statements of the Grayson County Water District.
- 2. A significant deficiency in internal control over financial reporting was reported.
- 3. No instances of noncompliance material to the financial statements of the Grayson County Water District were disclosed during our audit.
- 4. No significant deficiencies relating to the audit of the major federal award programs are reported in the Report on Compliance with Requirements Applicable to Each Major Program and Internal Control Over Compliance in Accordance with OMB Circular A-133.
- 5. The auditors' report on compliance for the major federal award programs for the Grayson County Water District expresses an unqualified opinion.
- 6. The audit did not disclose findings required to be reported by OMB Circular A-133.
- 7. The programs tested as major programs include:

	CFDA
Program	No.
United States Department of Agriculture	
Water and Waste Disposal Systems for Rural Communities	10.760

- 8. The threshold for distinguishing Types A and B programs was \$300,000.
- 9. The Grayson County Water District was determined to be a low-risk auditee.
