RE: PSC case number 2008-00079

On April 16, 2008, Mr. Lee Hill called our home. Mr. Hill identified himself as the wireless project manager for Bluegrass Cellular. Mr. Hill asked about our objection to the proposed cell tower. We told him that we feel it would be too close to Highway 1464 and the Taylor County RECC power lines. He also told us, when asked, that there would probably be microwave added to the tower. We told him that we would strongly object to microwave emissions that close to our home. This is even more of a problem for the people across the road with two young children who are 500 – 550 feet from the tower's proposed location.

We told Mr. Hill that there is higher ground 100 – 200 yards back from the road and away from the power lines. This would also be a positive move to increase the distance from both homes to the microwave emissions. He said that he would call the next week for an appointment to meet with us. He never called.

On May 22, we called Mr. Hill and he said that he had been ill and unable to meet with us. He said that he would call the next week for an appointment to meet with us. He never called.

Our objection still stands since Bluegrass Cellular has made no attempt to discuss the matter.

Sincerely,

Henry and Anna Vermillion
