**Re: Informal Date Correction per Owen Electric Tariff 6.124A.Original,
6.124B.Original, and 6.124C.Original – Re. Case No. 2008-00161**

Dear Ms. Stumbo:

During a recent case filing, Owen Electric Cooperative (“OEC”) displayed a “date effective” incorrectly on three of its tariffs. Per the Commission’s request, OEC has corrected this error. Enclosed are an original and six (6) copies.

Please return a stamped copy of these tariffs to the president/CEO of Owen Electric Cooperative.

If you have any questions concerning this request, please feel free to contact me at 502-563-3549.

Very truly yours,
OWEN ELECTRIC COOPERATIVE, INC.

Robert A. Hood
President & CEO

Direct Load Control of Water Heaters Program

Direct Load Control of Air-Conditioners Program

Purpose

The Direct Load Control of Water Heaters and Air Conditioners will encourage the reduction in growth of peak demand, enabling the Company to utilize its system more efficiently and defer the construction of new generation.

Availability

Both the Direct Load Control of Water Heaters Program and the Direct Load Control of Air Conditioners Program are available to residential customers in the service territories of Owen Electric Cooperative. Availability may be denied where, in the judgment of the Owen Electric Cooperative, installation of the load control equipment is impractical.

Eligibility

To qualify for these Programs, the participant must be located in the service territory of Owen Electric Cooperative and have central air conditioning or heat pump units and/or 40-gallon (minimum) electric water heating units. The above appliances may be electrically cycled or interrupted in accordance with the rules of this Tariff.

Incentive - Direct Load Control of Water Heaters Program

Owen Electric Cooperative will provide an incentive to the participants in this program. Owen Electric Cooperative will credit the residential power bill of the participant \$10.00 per water heater each year. The participant will receive this credit regardless of whether the water heater is cycled during the month.

Incentive - Direct Load Control of Air-Conditioners Program

Owen Electric Cooperative will provide an incentive to the participants in this program. The customer may select one of two alternatives. One, Owen Electric Cooperative will credit the residential power bill of the participant \$20.00 per air conditioner (\$5 per summer months, June, July, August, and September). Two, alternatively, EKPC, on behalf of Owen Electric Cooperative, will provide and install at no cost a digital thermostat for the participant. The participant will receive one of these incentives regardless of whether the air conditioner or heat pump is controlled during the month.

Time Period for the Direct Load Control of Water Heaters Program

A load control switch will be placed on the water heater and may be electrically interrupted for a maximum time period of four hours.

East Kentucky Power Cooperative ("EKPC") will cycle the water heaters only during the hours listed below.

<u>Months</u>	<u>Hours Applicable for Demand Billing - EST</u>
October through April	6:00 a.m. to 12:00 noon 4:00 p.m. to 10:00 p.m.
May through September	10:00 a.m. to 10:00 p.m.

Time Period for the Direct Load Control of Air Conditioners

A load control device (switch or thermostat) will be placed on each central air conditioning unit or heat pump that will allow the operating characteristics of the unit to be modified (by cycling the unit off for periods of time up to 7.5 minutes of each 15-minute interval, or by adjusting the temperature setting on the thermostat up to two degrees) to reduce demand on the system.

EKPC will control the air conditioning units and heat pumps only during its summer on-peak billing hours listed below.

<u>Months</u>	<u>Hours Applicable for Demand Billing - EST</u>
May through September	10:00 a.m. to 10:00 p.m.

Terms and Conditions

1. If a participant decides to withdraw from the program(s) or change to another load control option, Owen Electric Cooperative will endeavor to implement the change as soon as possible.
2. Prior to the installation of load control devices, Owen Electric Cooperative may inspect the participant's electrical equipment to insure good repair and working condition, but Owen Electric Cooperative shall not be responsible for the repair or maintenance of the electrical equipment.
3. EKPC, on behalf of Owen Electric Cooperative will install, own, and maintain the load management devices controlling the participant's air conditioner or water heater. The participant must allow Owen Electric Cooperative reasonable access to install, maintain, inspect, test and remove load control devices. Inability of Owen Electric Cooperative to gain access to the load management device to perform any of the above activities for a period exceeding 30 days may, at Owen Electric Cooperative's option, result in discontinuance of credits under this tariff until such time as Owen Electric Cooperative is able to gain the required access.
