**Re: *Development of Guidelines for Interconnection and Net Metering
for Certain Generators with Capacity up to Thirty Kilowatts***

PSC Case No. 2008-00169

Dear Mr. Derouen:

By Order issued on January 8, 2009, the Kentucky Public Service Commission directed all jurisdictional electric utilities who are parties to the above styled action, to file net metering and application forms to comply with the "Interconnection and net Metering Guidelines-Kentucky." It was directed that the filing occur within ninety (90) days.

Please be advised that on this date, Jackson Purchase Energy Corporation has complied with the referenced Order by filing the requisite documents with the Kentucky Public Service Commission.

Sincerely,

W. David Denton

RATES AND CHARGES
SCHEDULE R – RESIDENTIAL

Delivery Point

The delivery point shall be the connection between conductors furnished and installed by JPEC and the conductors furnished and installed by the Member. Normally, JPEC will furnish a meter base to the Member which shall be installed by the Member in the Member's service entrance facilities. All wiring and other equipment (except metering equipment) located on the load side of the delivery point shall be owned and maintained by the Member.

Condition of Service

Service will be furnished under JPEC's Rules and Regulations applicable hereto.

Compensating starting equipment may be required for all motors rated fifteen (15) horsepower or greater and for smaller motors when specified by JPEC because of power line characteristics.

Payment Terms

The above rates are net, the gross rates being five percent (5%) higher. In the event the current bill is not paid on or before the due date as shown on the bill, the gross rates shall apply to any unpaid portion.

Adjustment Clauses

The bill amount computed at the rates specified above shall be increased or decreased in accordance with:

RATES AND CHARGES
SCHEDULE C-1 – SMALL COMMERCIAL SINGLE PHASE

Applicability

Entire service territory.

Availability of Service

To general lighting and small power commercial loads served at single phase available voltage levels.

Service under this schedule will be limited to maximum loads not exceeding 25 kW. Service to existing Members with a maximum load exceeding 25 kW is restricted to those Members being billed under the rate schedule as of its effective date of June 25, 2008. New Members, upon demonstrating an average demand of 25 kW or greater, will be served under the appropriate rate schedule, other than this schedule.

Type of Service

Single phase, 60 cycle at available voltages.

Rates

Facilities Charge:	Per month	\$10.00
All Energy:	Per kWh per month	\$0.06312

Payment Terms

The above rates are net, the gross rates being five percent (5%) higher. In the event the current bill is not paid on or before the due date as shown on the bill, the gross rates shall apply to any unpaid portion.

RATES AND CHARGES
SCHEDULE 01 – OUTDOOR LIGHTING

Upon initial request for lighting, Member shall agree to a minimum service period of two (2) years. If Member disconnects the lighting service before the end of the two year period any remaining balance will be billed to the Member. This term shall apply to a new lighting installation or when an on-site trip is required to energize a previously existing light.

Conditions of Service

Service will be furnished under JPEC’s Rules and Regulations applicable hereto.

JPEC will furnish and install one complete lighting unit consisting of the light fixture, arm, ballast, photo cell and lamp. Service may be installed on any existing facility owned by JPEC other than a meter pole. In the event that facilities other than the preceding items (i.e., added cost ornamental lighting and/or poles) are required, the member shall pay a non-refundable contribution-in-aid of construction equal to the total additional cost incurred by JPEC for the additional facilities. Such cost shall include all added material, labor and applicable overhead costs. The contribution-in-aid of construction shall be deposited by the Member or Members based on the estimated cost of the additional facilities. When construction is completed, the Member shall be billed for the actual cost of construction, and credit for advance payment shall be given.

Should the Member require that the lighting be placed in a location other than on an existing facility, the Member shall agree to pay the entire cost of any required facility (less light fixture, ballast, photo cell and lamp) over a twenty-four (24) month period. Member shall agree that should they disconnect the light service before the completion of the twenty-four (24) month period they shall be immediately billed any remaining balance unless any succeeding Member shall agree to continue that obligation. It will be incumbent on the existing member to arrange responsibility with the succeeding member.

Illumination shall be furnished from dusk until dawn using JPEC’s best efforts. Outages or malfunctions of the light should be reported as promptly as possible by the Member.

Lamp, ballast, standard globe, standard shade and photo cell replacements will be made by JPEC without cost during normal work hours. Any maintenance outside of the lamp, ballast, standard globe, standard shade or photo cell, including replacement of any existing facility used solely to provide light shall be paid for by the

Member. The Member is responsible for painting of any ornamental fixtures or will reimburse JPEC for any painting requested by the Member. JPEC may require pre-payment before painting and/or replacement is performed.

Any damage to the lamps, luminaries and other equipment resulting from actions other than those performed by JPEC personnel may be charged to the Member at cost, on a separate invoice, if not reimbursed to JPEC by a third party.

The above rate is predicated on JPEC furnishing the basic lamp facility including fixture, arm, ballast, photo cell and lamp and the Member providing (or reimbursing JPEC for) any material or pole needed to mount the fixture in a location other than on existing JPEC facilities. JPEC will not mount light fixtures on a meter pole.

RATES AND CHARGES
SCHEDULE D – COMMERCIAL AND INDUSTRIAL DEMAND LESS THAN 3,000 kW

The monthly billing shall be the sum of the Facilities Charge, Demand Charge, Energy Charge, any applicable Adjustment Clause, and applicable taxes.

Determination of Billing Demand

The billing demand shall be the maximum integrated thirty (30) minute demand of the Member at the Member’s delivery point as indicated or recorded by a demand meter. Member shall maintain a power factor at the delivery point as nearly practical to unity (100%). Power factor during normal operation may range from unity to ninety percent (90%). If Member’s power factor is less than ninety percent (90%) at time of maximum load, JPEC reserves the right to adjust the maximum monthly metered demand for billing purposes in accordance with the following formula:

$$\text{Monthly Billing Demand (kW)} = \frac{\text{Maximum Actual Measured Demand (kW)} \times 90\%}{\text{Power Factor (\%)}}$$

Minimum Monthly Demand

The minimum monthly demand under this schedule shall be determined from the greater of (1), (2), (3) or (4):

1. The maximum demand registered in the current billing period.
2. The maximum power factor adjusted demand registered in the current billing period.
3. Sixty percent (60%) of the highest monthly maximum billing demand in the preceding twelve (12) billing periods.
4. Sixty percent (60%) of the agreement or contract capacity, based on the expected maximum kW demand upon the system.

Terms and Conditions

Service will be furnished under JPEC’s Rules and Regulations applicable hereto.

SCHEDULE D – COMMERCIAL AND INDUSTRIAL DEMAND LESS THAN 3,000 kW

Compensating starting equipment may be required for all motors rated fifteen (15) horsepower or greater, and for smaller motors when specified by JPEC because of power line characteristics. All wiring, pole lines and other electrical equipment (except metering equipment), starters, switches and fuses beyond the delivery point will be considered the distribution system of the Member and shall be furnished and maintained by the Member.

Delivery Point

The point of delivery of electric power and energy shall be the connection between conductors furnished and installed by JPEC and the conductors furnished and/or installed by the Member. JPEC may furnish a meter base to the Member, which shall be installed by the Member in the Member's service entrance facilities. The Member's conductors may be terminated by JPEC at a location as determined by JPEC.

Primary Service

A two and one-half percent (2 ½%) primary discount will be applied to rates in the bill, including minimum charge, of any primary delivery Member who has a demand of 100 kW or more during the billing period. For those Members with demand less than 100 kW, two and one-half percent (2 ½%) primary discount shall not be applicable in order to offset the additional equipment costs of the primary metering installation. Primary service under this rate schedule is restricted to those Members being billed under the rate schedule as of its effective date of June 25, 2008. Primary metering installations shall be evaluated on an individual basis.

Adjustment Clauses

1. Member shall be served under this rate schedule as of the effective date of this schedule, June 25, 2008.
2. Member's service characteristics shall meet the qualifications for service specified in the Big Rivers Large Industrial Customer Tariff.
3. It shall be the responsibility of the Member to coordinate through JPEC or its authorized agent all transactions that JPEC must take on behalf of the Member pursuant to the Big Rivers Large Industrial Tariff.

Monthly Charges

Service Charge:	Per month	\$300.00
Demand Charge:	First 3,000 kW of billing demand per month	\$34,500.00
	All additional kW per kW per month	\$11.50
All Energy:	Per kWh per month	\$0.01735

Minimum Monthly Charge

The minimum monthly charges under this rate shall be the sum of the monthly Service Charge (\$300.00) and \$34,500.00 where 3,000 kVA or less of transformer capacity is required. For Members requiring more than 3,000 kVA of transformer capacity, the minimum monthly charge shall be increased by \$1.00 for each kVA or fraction thereof required above 3,000 kVA. Where it is necessary to extend or reinforce facilities in excess of standard service facilities, the minimum monthly charge may be increased to assure adequate compensation for the added facilities of one and one-half percent (1 1/2%) per month of the total cost of the excess facilities as a facilities charge for which no power and energy would be delivered. Any applicable Adjustment Clause, and applicable taxes shall be in addition to the charges above.

Determination of Billing Demand

The billing demand, in kilowatts (kW), shall be the Member's maximum integrated thirty (30) minute demand at such delivery point during each billing period as determined by JPEC provided meter(s) which record at the end

of each thirty (30) minute period the integrated kilowatt demand during the preceding thirty (30) minutes. Demand charges will be adjusted to correct for power factor lower than ninety percent (90%) when JPEC deems necessary. The monthly billing demand shall be adjusted when necessary in accordance with the following formula:

$$\text{Monthly Billing Demand (kW)} = \frac{\text{Maximum Actual Measured Demand (kW)} \times 90\%}{\text{Power Factor (\%)}}$$

Delivery Point

Unless otherwise specified in the service agreement, the delivery point shall be the connection between conductors furnished and installed by JPEC and the conductors furnished and installed by the Member. All wiring, pole lines, and other equipment (except metering equipment) located on the load side of the delivery point shall be owned and maintained by the Member.

Facilities Charge

JPEC will provide investment in facilities up to \$11.00 per kW times the estimated or known average twelve (12) month billing demand. A monthly facilities charge, determined at time of execution of agreement between parties, shall be applied to any investment in excess of the base amount.

Terms and Conditions

Service will be furnished under JPEC’s Rules and Regulations applicable hereto.

Compensating starting equipment may be required for all motors rated fifteen (15) horsepower or greater, and for smaller motors when specified by JPEC because of power line characteristics.

BY AUTHORITY OF ORDER OF THE PUBLIC SERVICE COMMISSION

IN CASE NO. 2007-00116 DATED June 17, 2008

Jackson Purchase Energy Corp.
 FOR Entire Territory Served
 Community, Town or City

P.S.C. KY NO. 2

SHEET NO. 21

CANCELLING P.S.C. KY NO. Original

SHEET NO. _____

RATES AND CHARGES
SCHEDULE L – LARGE COMMERCIAL AND INDUSTRIAL 3,000-5,000 kW

Applicability

Entire service territory.

Availability of Service

To new Members or Members changing rate class after the effective date of this rate schedule, June 25, 2008. Service under this schedule shall be for Members demonstrating a maximum load of at least 3,000 kW and less than 5,000 kW.

The Member will execute a service agreement or contract with JPEC as approved by JPEC’s Board of Directors and the Kentucky Public Service Commission.

Service under this schedule will be limited to maximum loads not exceeding 5,000 kW. Members with new load requirements that exceed 5,000 kW or existing Members with increased load requirements that exceed 5,000 kW above the historical load level will have a rate developed as referenced in Schedule L-E.

Type of Service

Three phase, 60 cycle served at primary or transmission voltage.

Conditions of Service

Service will be furnished under JPEC’s Rules and Regulations applicable hereto.

It is the responsibility of the Member to keep JPEC fully informed of any change or expected change in operations which will affect the Member’s qualification to be served on this rate.

Service hereunder shall be subject to the following conditions:

DATE OF ISSUE July 2, 2008

SHEET NO.

RATES AND CHARGES
SCHEDULE L – LARGE COMMERCIAL AND INDUSTRIAL 3,000-5,000 kW

1. Member shall be served under this rate schedule as of the effective date of this schedule, June 25, 2008.
2. It shall be the responsibility of the Member to coordinate through JPEC or its authorized agent all transactions that JPEC must take on behalf of the Member pursuant to the Big Rivers Large Industrial Tariff.

Monthly Charges

Service Charge:	Per month	\$300.00
Demand Charge:	Per kW per month	\$11.30
All Energy:	Per kWh per month	\$0.01735

The monthly billing shall be the sum of the Service Charge, Demand Charge, Energy Charge, Facilities Charge (if any), any applicable Adjustment Clause, and applicable taxes.

Determination of Billing Demand

The billing demand, in kilowatts (kW), shall be the Member's maximum integrated thirty (30) minute demand at such delivery point during each billing period as determined by JPEC provided meter(s) which record at the end of each thirty (30) minute period the integrated kilowatt demand during the preceding thirty (30) minutes. Demand charges will be adjusted to correct for power factor lower than ninety percent (90%) when JPEC deems necessary. The monthly billing demand shall be adjusted when necessary in accordance with the following formula:

$$\text{Monthly Billing Demand (kW)} = \frac{\text{Maximum Actual Measured Demand (kW)} \times 90\%}{\text{Power Factor (\%)}}$$

RATES AND CHARGES
SCHEDULE L – LARGE COMMERCIAL AND INDUSTRIAL 3,000-5,000 kW

Delivery Point

Unless otherwise specified in the service agreement, the delivery point shall be the connection between conductors furnished and installed by JPEC and the conductors furnished and installed by the Member. All wiring, pole lines, and other equipment (except metering equipment) located on the load side of the delivery point shall be owned and maintained by the Member.

Facilities Charge

JPEC may provide facilities to fulfill the estimated or known average twelve (12) month billing demand of the Member. A monthly facilities charge, determined at time of execution of agreement between parties, shall be applied to any investment. The Member may elect to provide its own facilities and JPEC will not bill for any facilities charges.

Terms and Conditions

Service will be furnished under JPEC's Rules and Regulations applicable hereto.

Compensating starting equipment may be required for all motors rated fifteen (15) horsepower or greater, and for smaller motors when specified by JPEC because of power line characteristics.

Adjustment Clauses

The bill amount computed at the rates specified above shall be increased or decreased in accordance with:

SCHEDULE L-E – LARGE INDUSTRIAL MEMBER EXPANSION

Applicability

This rate shall apply to those power requirements of any Member with load subject to service under terms and conditions set forth in the Large Industrial Customer Expansion Rate of Big Rivers Electric Corporation. This rate shall cease to be available should Big Rivers Large Industrial Expansion Rate be discontinued.

Conditions of Service

Service hereunder shall be subject to the following conditions:

1. The Member must execute a written agreement or contract for electric service or amend an existing agreement or contract; and
2. The Member's service characteristics must qualify all or some portion of the Member's load for service under the Big Rivers Large Industrial Customer Expansion Tariff; and
3. It shall be the responsibility of the Member to coordinate through JPEC or its authorized agent all transactions that JPEC must take on behalf of the Member pursuant to the Big Rivers Large Industrial Customer Expansion Tariff.

Monthly Rate

- A. Wholesale Power Cost:
An annual amount equal to all monthly charges levied by Big Rivers pursuant to the Big Rivers Large Industrial Customer Expansion Rates for wholesale electric service (including transmission service) hereunder.
- B. Retail Adders:
Retail Adders shall be determined on a case-by-case basis for that portion of each Member's load served under this tariff.

SCHEDULE NM – NET METERING

Applicable D

To entire territory served. D

Available D

To all Members who own and operate an eligible electric generating facility that is located on the Member's premises, for the primary purpose of supplying all or part of the Member's own electricity requirements. "Eligible electric generating facility" means an electric generating facility that: (a) is connected in parallel with JPEC's electric distribution system; (b) generates electricity using solar energy; and (c) has a rated capacity of not greater than fifteen (15) kilowatts (kW). D

Notification; Inspection D

1. The Member shall submit a completed Net Metering Program Notification Form (Attachment 1) to JPEC at least 60 days prior to the date the Member desires to interconnect an eligible electric generating facility to JPEC's facilities. The Member shall have all equipment necessary to complete the interconnection installed prior to such notification. The notification shall be delivered to JPEC or mailed by certified mail, return receipt requested. Member may interconnect on the date stated in the form unless JPEC notifies Member in writing of noncompliance prior to said date. D
2. JPEC may require an on-site inspection and may impose a fee on the Member of not more than fifty dollars (\$50.00) for such inspection. If JPEC conducts an on-site inspection and determines that Member is not in compliance with the tariff, Member shall be so notified and shall bring the electric generating facility into compliance within thirty (30) days or shall be required to file a new completed Net Metering Program Notification Form. D

Metering D

JPEC shall utilize a standard kilowatt-hour meter capable of registering (but not necessarily displaying) the flow of electricity in two (2) directions. Any additional meter, meters or distribution upgrades needed to monitor the flow D

~~in each direction shall be installed at the Member's expense. If additional meters are installed, the net metering calculation shall yield the same result as when a single meter is used. "Kilowatt hour" means a measure of electricity defined as a unit of work of energy, measured as one (1) kilowatt of power expended for one (1) hour. "Net metering" means measuring the difference between the electricity supplied by the electric grid and the electricity generated by the Member that is fed back to the electric grid over a billing period.~~

Billing

- ~~1. The amount of electricity billed to the Member shall be calculated by taking the difference between the electricity supplied by JPEC to the Member and the electricity generated and fed back by the Member. If time of day or time of use metering is used, the electricity fed back to the electric grid by the Member shall be net metered and accounted for at the specific time it is fed back to the electric grid in accordance with the time of day or time of use billing agreement with the Member then currently in place.~~
- ~~2. If the electricity supplied by JPEC exceeds the electricity generated and fed back to JPEC during the billing period, the Member shall be billed for the net electricity supplied. If the electricity fed back to JPEC by the Member exceeds the electricity supplied by JPEC during a billing period, the Member shall be credited for the excess kilowatt hours, and this electricity credit shall appear on the Member's next bill.~~
- ~~3. The energy rates, rate structure, and monthly charges shall be identical to those in the contract or tariff to which the Member would be assigned if the Member were not receiving service under this tariff.~~
- ~~4. Excess electricity credits are not transferable between Members or locations.~~
- ~~5. No cash refund for residual generation related credits shall be paid if an account under this tariff is closed.~~

Net Metering Service Interconnection Guidelines

The Member shall operate the eligible electric generating facility in parallel with JPEC's system under the following conditions and any other conditions that may be required by JPEC where unusual conditions arise that are not covered herein:

1. The electric generating facility shall include, but not be limited to, necessary control equipment to synchronize frequency, voltage, etc. between Member's and JPEC's systems as well as adequate protective equipment between the two (2) systems. Member's voltage at the point of interconnection will be the same as JPEC's system voltage.
2. Member shall be responsible for operating all facilities owned by Member, except as specified hereinafter. Member shall maintain its system in synchronization with JPEC's system.
3. Member will be responsible for any damage to JPEC's equipment due to failure of Member's control, safety or other equipment.
4. JPEC at its discretion may require a suitable lockable, JPEC accessible, load breaking manual disconnect switch or similar equipment, as specified by JPEC, to be furnished by Member at a location designated by JPEC to enable the separation or disconnection of the two (2) electrical systems. The load breaking manual disconnect switch must be accessible to JPEC at all times.
5. After initial installation, Member shall not make any changes to the electric generating facility without the written consent of JPEC.
6. JPEC shall have the right from time to time to inspect Member's generating facility and conduct any test necessary to determine that such facility is installed and operating properly. However, JPEC will have no obligation to inspect, witness tests, or in any manner be responsible for Member's facility or operation.
7. The Member assumes all responsibility for electric service on the Member's premises at and from the point of delivery of electricity from JPEC.

Conditions of Interconnection

A Member may begin operation of an electric generating facility on an interconnected basis when all of the following have been satisfied:

1. The Member has properly notified JPEC of intent to interconnect by submission of a completed Net Metering Program Notification Form and the Member has met all of the provisions of this tariff.
2. The Member has installed a lockable, JPEC accessible, load breaking manual disconnect switch, if required by JPEC.
3. A licensed, qualified electrician has signed the Net Metering Program Notification Form certifying that the required load breaking manual disconnect switch has been installed properly and that the generator has been installed in accordance with the manufacturer's specifications, as well as all applicable provisions of the National Electrical Code.
4. The vendor of the generating facility has signed the Net Metering Program Notification Form certifying that the Member's generator is in compliance with the requirements established by Underwriters Laboratories, or any other accredited testing laboratory.

Additional Controls and Tests

JPEC may install additional controls, meters, or distribution upgrades needed to monitor the flow of electricity in each direction, or may conduct additional tests as it may deem necessary, at Member's expense.

Liability Insurance; Indemnification

1. Member shall at all times maintain general liability insurance in an amount of at least \$300,000.00 per occurrence insuring the Member against loss arising out of or in connection with the use and operation of Member's electric generating facility, or otherwise caused by actions of the Member under this tariff. JPEC shall be named as an additional insured under this coverage and a certificate evidencing such coverage shall be provided to JPEC.

Applicable

To entire territory served.

Available

Net Metering is available to eligible Member-generators in Jackson Purchase Energy Corporation's (JPEC's) service territory, upon request, and on a first-come, first-served basis up to a cumulative capacity of one percent (1%) of JPEC's single hour peak load in Kentucky during the previous year. If the cumulative generating capacity of net metering systems reaches 1% of JPEC's single hour peak load during the previous year, upon Commission approval, JPEC's obligation to offer net metering to a new Member-generator may be limited. An eligible Member-generator shall mean a retail electric Member of JPEC with a generating facility that:

- 1. Generates electricity using solar energy, wind energy, biomass or biogas energy, or hydro energy; T
- 2. Has a rated capacity of not greater than thirty (30) kilowatts; T
- 3. Is located on the Member's premises; T
- 4. Is owned and operated by the Member; T
- 5. Is connected in parallel with JPEC's electric distribution system; and T
- 6. Has the primary purpose of supplying all or part of the Member's own electricity requirements. T

At its sole discretion, JPEC may provide Net Metering to other Member-generators not meeting all the conditions listed above on a case-by-case basis. T

The term "Member" hereinafter shall refer to any Member requesting or receiving Net Metering services under this tariff. T

SCHEDULE NM – NET METERING

Metering

JPEC shall provide net metering services, without any cost to the Member for metering equipment, through a standard kilowatt-hour metering system capable of measuring the flow of electricity in two (2) directions. This provision does not relieve Member of his or her responsibility to pay metering costs embedded in JPEC's Commission-approved base rates.

Any additional meter, meters, or distribution upgrades needed to monitor the flow in each direction shall be installed at the Member's expense.

Billing

1. The amount of electricity billed to the Member shall be calculated by taking the difference between the electricity supplied by JPEC to the Member and the electricity generated and fed back by the Member. If time-of-day or time-of-use metering is used, the electricity fed back to the electric grid by the Member shall be net-metered and accounted for at the specific time it is fed back to the electric grid in accordance with the time-of-day or time-of-use billing agreement with the Member then currently in place.
2. If the electricity supplied by JPEC exceeds the electricity generated and fed back to JPEC during the billing period, the Member shall be billed for the net electricity supplied. If the electricity fed back to JPEC by the Member exceeds the electricity supplied by JPEC during a billing period, the Member shall be credited for the excess kilowatt-hours, and this electricity credit shall appear on the Member's next bill. Credits shall carry forward for the life of the Member-generator's account.
3. The energy rates, rate structure, and monthly charges shall be identical to those in the contract or tariff to which the Member would be assigned if the Member were not receiving service under this tariff.
4. Excess electricity credits are not transferable between Members or locations.
5. No cash refund for residual generation-related credits shall be paid if an account under this tariff is closed.

APPLICATION AND APPROVAL PROCESS

The Member shall submit an Application for Interconnection and Net Metering ("Application") and receive approval from JPEC prior to connecting the generator facility to JPEC's system.

Applications will be submitted by the Member and reviewed and processed by JPEC according to either Level 1 or Level 2 processes defined below.

JPEC may reject an Application for violations of any code, standard, or regulation related to reliability or safety; however, JPEC will work with the Member to resolve those issues to the extent practicable.

Members may contact JPEC to check on status of an Application or with questions prior to submitting an Application. JPEC contact information can be found on the Application form. The Application may be submitted by mail to, or in person at, the address found on the Application form.

LEVEL 1

A Level 1 Application shall be used if the generating facility is inverter-based and is certified by a nationally recognized testing laboratory to meet the requirements of Underwriters Laboratories Standard 1741 "Inverters, Converters, Controllers and Interconnection System Equipment for Use With Distributed Energy Resources" (UL 1741).

JPEC will approve the Level 1 Application if the generating facility also meets all of the following conditions:

- 1. For interconnection to a radial distribution circuit, the aggregated generation on the circuit, including the proposed generating facility, will not exceed 15% of the Line Section's most recent annual one hour peak load. A line section is the smallest part of the primary distribution system the generating facility could remain connected to after operation of any sectionalizing devices.

2. If the proposed generating facility is to be interconnected on a single-phase shared secondary, the aggregate generation capacity on the shared secondary, including the proposed generating facility, will not exceed the smaller of 20 kVA or the nameplate rating of the transformer. T
T
T
3. If the proposed generating facility is single-phase and is to be interconnected on a center tap neutral of a 240 volt service, its addition shall not create an imbalance between the two sides of the 240 volt service of more than 20% of the nameplate rating of the service transformer. T
T
T
4. If the generating facility is to be connected to three-phase, three wire primary JPEC distribution lines, the generator shall appear as a phase-to-phase connection at the primary JPEC distribution line. T
T
5. If the generating facility is to be connected to three-phase, four wire primary JPEC distribution lines, the generator shall appear to the primary JPEC distribution line as an effectively grounded source. T
T
6. The interconnection will not be on an area or spot network. Area and spot networks are systems in which multiple transformers are interconnected on the secondary side and multiple primary voltage circuits are used to feed the transformers. A spot network is typically used to serve a single building and all the transformers are in one location. An area network typically serves multiple Members with secondary conductors covering multiple city blocks and with transformers at various locations. T
T
T
T
T
T
7. JPEC does not identify any violations of any applicable provisions of Institute of Electrical and Electronics Engineers Standard 1547 (IEEE 1547), "Standard for Interconnecting Distributed Resources with Electric Power Systems." T
T
T
8. No construction of facilities by JPEC on its own system will be required to accommodate the generating facility. T
T

If the generating facility does not meet all of the above listed criteria, JPEC, in its sole discretion, may either: 1) approve the generating facility under the Level 1 Application if JPEC determines that the generating facility can be safely and reliably connected to JPEC's system; or 2) deny the Application as submitted under the Level 1 Application. SHEET NO. 31

RATES AND CHARGES
SCHEDULE NM – NET METERING

JPEC shall notify the Member within 20 business days whether the Application is approved or denied, based on the criteria provided in this section. T T

If the Application lacks complete information, JPEC shall notify the Member that additional information is required, including a list of such additional information. The time between notification and receipt of required additional information will add to the time to process the Application. T T T

When approved, JPEC will indicate by signing the approval line on the Level 1 Application Form and returning it to the Member. The approval will be subject to successful completion of an initial installation inspection and witness test. The Member shall notify JPEC within 3 business days of completion of the generating facility installation and schedule an inspection and witness test with JPEC to occur within 10 business days of completion of the generator facility installation or as otherwise agreed to by JPEC and the Member. The Member may not operate the generating facility until successful completion of such inspection and witness test, unless JPEC expressly permits operational testing not to exceed two hours. If the installation fails the inspection or witness test due to noncompliance with any provision in the Application and JPEC approval, the Member shall not operate the generating facility until any and all noncompliance is corrected and re-inspected by JPEC. T T T T T T T T T T

If the Application is denied, JPEC will supply the Member with reasons for denial. The Member may resubmit under Level 2 if appropriate. T T

LEVEL 2 T

A Level 2 Application is required under any of the following: T

- 1. The generating facility is not inverter based; T
- 2. The generating facility uses equipment that is not certified by a nationally recognized testing laboratory to meet the requirements of UL 1741; or T
- 3. The generating facility does not meet one or more of the additional conditions under Level 1. T

JPEC will approve the Level 2 Application if the generating facility meets JPEC's technical interconnection requirements, which are based on IEEE 1547. JPEC shall make its technical interconnection requirements available online and upon request.

T
T
T

JPEC will process the Level 2 Application within 30 business days of receipt of a complete Application. Within that time JPEC will respond in one of the following ways:

T
T

1. The Application is approved and JPEC will provide the Member with an Interconnection Agreement to sign.
2. If construction or other changes to JPEC's distribution system are required, the cost will be the responsibility of the Member. JPEC will give notice to the Member and offer to meet to discuss estimated costs and construction timeframe. Should the Member agree to pay for costs and proceed, JPEC will provide the Member with an Interconnection Agreement to sign within a reasonable time.
3. The Application is denied. JPEC will supply the Member with reasons for denial and offer to meet to discuss possible changes that would result in JPEC approval. Member may resubmit Application with changes.

T
T
T
T
T
T
T

If the Application lacks complete information, JPEC shall notify the Member that additional information is required, including a list of such additional information. The time between notification and receipt of required additional information will add to the 30-business-day target to process the Application.

T
T
T

The Interconnection Agreement will contain all the terms and conditions for interconnection consistent with those specified in this tariff, inspection and witness test requirements, description of and cost of construction or other changes to JPEC's distribution system required to accommodate the generating facility, and detailed documentation of the generating facilities which may include single line diagrams, relay settings, and a description of operation.

T
T
T
T
T

The Member may not operate the generating facility until an Interconnection Agreement is signed by the Member and JPEC and all necessary conditions stipulated in the agreement are met.

APPLICATION, INSPECTION AND PROCESSING FEES

No application fees, or other review, study, or inspection or witness test fees are charged for Level 1 Applications.

For Level 2 Applications, each Member must submit, along with the Application, a non-refundable application, inspection and processing fee of \$100. In the event JPEC determines an impact study is necessary with respect to a Level 2 Application, the Member shall be responsible for any reasonable costs up to \$1,000 for the initial impact study. JPEC shall provide documentation of the actual cost of the impact study. Any other studies requested by the Member shall be at the Member's sole expense.

TERMS AND CONDITIONS FOR INTERCONNECTION

To interconnect to JPEC's distribution system, the Member's generating facility shall comply with the following terms and conditions:

- JPEC shall provide the Member net metering services, without charge for standard metering equipment, through a standard kilowatt-hour metering system capable of measuring the flow of electricity in two (2) directions. If the Member requests any additional meter or meters or distribution upgrades are needed to monitor the flow in each direction, such installations shall be at the Member's expense.
- The Member shall install, operate, and maintain, at Member's sole cost and expense, any control, protective, or other equipment on the Member's system required by JPEC's technical interconnection requirements based on IEEE 1547, the NEC, accredited testing laboratories such as Underwriters Laboratories, and the manufacturer's suggested practices for safe, efficient and reliable operation of the generating facility in parallel with JPEC's electric system. Member shall bear full responsibility for the installation, maintenance and safe operation of the generating facility. Upon reasonable request from JPEC, the Member shall demonstrate generating facility compliance.
- The generating facility shall comply with, and the Member shall represent and warrant its compliance with: (a) any applicable safety and power quality standards established by IEEE and accredited testing laboratories such as Underwriters Laboratories; (b) the NEC as may be revised from time to time; (c)

JPEC's rules, regulations, and JPEC's Service Regulations as contained in JPEC's Retail Electric Tariff as may be revised from time to time with the approval of the Kentucky Public Service Commission (Commission); (d) the rules and regulations of the Commission, as such rules and regulations may be revised from time to time by the Commission; and (e) all other applicable local, state, and federal codes and laws, as the same may be in effect from time to time. Where required by law, Member shall pass an electrical inspection of the generating facility by a local authority having jurisdiction over the installation.

4. Any changes or additions to JPEC's system required to accommodate the generating facility shall be considered excess facilities. Member shall agree to pay JPEC for actual costs incurred for all such excess facilities prior to construction.
5. Member shall operate the generating facility in such a manner as not to cause undue fluctuations in voltage, intermittent load characteristics or otherwise interfere with the operation of JPEC's electric system. At all times when the generating facility is being operated in parallel with JPEC's electric system, Member shall so operate the generating facility in such a manner that no adverse impacts will be produced thereby to the service quality rendered by JPEC to any of its other Members or to any electric system interconnected with JPEC's electric system. Member shall agree that the interconnection and operation of the generating facility is secondary to, and shall not interfere with, JPEC's ability to meet its primary responsibility of furnishing reasonably adequate service to its Members.
6. Member shall be responsible for protecting, at Member's sole cost and expense, the generating facility from any condition or disturbance on JPEC's electric system, including, but not limited to, voltage sags or swells, system faults, outages, loss of a single phase of supply, equipment failures, and lightning or switching surges, except that JPEC shall be responsible for repair of damage caused to the generating facility resulting solely from the negligence or willful misconduct on the part of JPEC.
7. After initial installation, JPEC shall have the right to inspect and/or witness commissioning tests, as specified in the Level 1 or Level 2 Application and approval process. Following the initial testing and inspection of the generating facility and upon reasonable advance notice to Member, JPEC shall have access at reasonable times to the generating facility to perform reasonable on-site inspections to verify that the installation, maintenance, and operation of the generating facility comply with the requirements of this tariff.

8. For Level 1 and 2 generating facilities, where required by JPEC, an eligible Member shall furnish and install on Member's side of the point of common coupling a safety disconnect switch which shall be capable of fully disconnecting the Member's energy generating equipment from JPEC's electric service under the full rated conditions of the Member's generating facility. The external disconnect switch (EDS) shall be located adjacent to JPEC's meters or the location of the EDS shall be noted by placing a sticker on the meter, and shall be of the visible break type in a metal enclosure which can be secured by a padlock. If the EDS is not located directly adjacent to the meter, the Member shall be responsible for ensuring that the location of the EDS is properly and legibly identified for so long as the generating facility is operational. The disconnect switch shall be accessible to JPEC personnel at all times. JPEC may waive the requirement for an EDS for a generating facility at its sole discretion, and on a case-by-case basis, upon review of the generating facility operating parameters and if permitted under JPEC's safety and operating protocols.

JPEC shall establish a training protocol for line workers on the location and use of the EDS, and shall require that the EDS be used when appropriate, and that the switch be turned back on once the disconnection is no longer necessary.

9. JPEC shall have the right and authority at JPEC's sole discretion to isolate the generating facility or require the Member to discontinue operation of the generating facility if JPEC believes that: (a) continued interconnection and parallel operation of the generating facility with JPEC's electric system creates or contributes (or may create or contribute) to a system emergency on either JPEC's or Member's electric system; (b) the generating facility is not in compliance with the requirements of this tariff, and the noncompliance adversely affects the safety, reliability, or power quality of JPEC's electric system; or (c) the generating facility interferes with the operation of JPEC's electric system. In non-emergency situations, JPEC shall give Member notice of noncompliance including a description of the specific noncompliance condition and allow Member a reasonable time to cure the noncompliance prior to isolating the generating facilities. In emergency situations, when JPEC is unable to immediately isolate or cause the Member to isolate only the generating facility, JPEC may isolate the Member's entire facility.

10. Member shall agree that, without the prior written permission from JPEC, no changes shall be made to the generating facility as initially approved. Increases in generating facility capacity will require a new

"Application for Interconnection and Net Metering" which will be evaluated on the same basis as any other new application. Repair and replacement of existing generating facility components with like components that meet UL 1741 certification requirements for Level 1 facilities and not resulting in increases in generating facility capacity is allowed without approval.

- 11. To the extent permitted by law, the Member shall protect, indemnify, and hold harmless JPEC and its directors, officers, employees, agents, representatives and contractors against and from all loss, claims, actions or suits, including costs and attorneys fees, for or on account of any injury or death of persons or damage to property caused by the Member or the Member's employees, agents, representatives and contractors in tampering with, repairing, maintaining, or operating the Member's generating facility or any related equipment or any facilities owned by JPEC except where such injury, death or damage was caused or contributed to by the fault or negligence of JPEC or its employees, agents, representatives, or contractors.

The liability of JPEC to the Member for injury to person and property shall be governed by the tariff(s) for the class of service under which the Member is taking service.

- 12. The Member shall maintain general liability insurance coverage (through a standard homeowner's, commercial, or other policy) for both Level 1 and Level 2 generating facilities. Member shall, upon request, provide JPEC with proof of such insurance at the time that application is made for net metering.

- 13. By entering into an Interconnection Agreement, or by inspection, if any, or by non-rejection, or by approval, or in any other way, JPEC does not give any warranty, express or implied, as to the adequacy, safety, compliance with applicable codes or requirements, or as to any other characteristics, of the generating facility equipment, controls, and protective relays and equipment.

- 14. A Member's generating facility is transferable to other persons or service locations only after notification to JPEC has been made and verification that the installation is in compliance with this tariff. Upon written notification that an approved generating facility is being transferred to another person, Member, or location, JPEC will verify that the installation is in compliance with this tariff and provide written notification to the Member(s) within 20 business days. SHEET NO. 44

RATES AND CHARGES
SCHEDULE NM – NET METERING

I hereby certify that, to the best of my knowledge, all of the information provided in this Application is true, and I agree to abide by all the Terms and Conditions included in this Application for Interconnection and Net Metering and JPEC's Net Metering Tariff.

Member Signature _____ Date _____

_____ Title

JPEC APPROVAL SECTION

When signed below by a JPEC representative, Application for Interconnection and Net Metering is approved subject to the provisions contained in this Application and as indicated below.

JPEC inspection and witness test: Required Waived

If JPEC inspection and witness test is required, Member shall notify JPEC within 3 business days of completion of the generating facility installation and schedule an inspection and witness test with JPEC to occur within 10 business days of completion of the generating facility installation or as otherwise agreed to by JPEC and the Member. Unless indicated below, the Member may not operate the generating facility until such inspection and witness test is successfully completed. Additionally, the Member may not operate the generating facility until all other terms and conditions in the Application have been met.

Call _____ to schedule an inspection and witness test.

Pre-Inspection operational testing not to exceed two hours: Allowed Not Allowed

If JPEC inspection and witness test is waived, operation of the generating facility may begin when installation is complete, and all other terms and conditions in the Application have been met.

Total Generating Capacity of Generating Facility: _____ T

Type of Generator: Inverter-Based Synchronous Induction T

Power Source: Solar Wind Hydro Biogas Biomass T

Adequate documentation and information must be submitted with this application to be considered complete. Typically this should include the following: T

1. Single-line diagram of the Member's system showing all electrical equipment from the generator to the point of interconnection with JPEC's distribution system, including generators, transformers, switchgear, switches, breakers, fuses, voltage transformers, current transformers, wire sizes, equipment ratings, and transformer connections. T
2. Control drawings for relays and breakers. T
3. Site Plans showing the physical location of major equipment. T
4. Relevant ratings of equipment. Transformer information should include capacity ratings, voltage ratings, winding arrangements, and impedance. T
5. If protective relays are used, settings applicable to the interconnection protection. If programmable relays are used, a description of how the relay is programmed to operate as applicable to interconnection protection. T
6. A description of how the generator system will be operated including all modes of operation. T
7. For inverters, the manufacturer name, model number, and AC power rating. For certified inverters, attach documentation showing that inverter is certified by a nationally recognized testing laboratory to meet the requirements of UL 1741. T

LEVEL 2
INTERCONNECTION AGREEMENT

THIS INTERCONNECTION AGREEMENT (Agreement) is made and entered into this ____ day of _____, 20____, by and between _____ (JPEC), and _____ (Member). JPEC and Member are hereinafter sometimes referred to individually as "Party" or collectively as "Parties".

WITNESSETH:

WHEREAS, Member is installing, or has installed, generating equipment, controls, and protective relays and equipment (Generating Facility) used to interconnect and operate in parallel with JPEC's electric system, which Generating Facility is more fully described in Exhibit A, attached hereto and incorporated herein by this Agreement, and as follows:

Location: _____

Generator Size and Type: _____

NOW, THEREFORE, in consideration thereof, Member and JPEC agree as follows:

JPEC agrees to allow Member to interconnect and operate the Generating Facility in parallel with JPEC's electric system and Member agrees to abide by JPEC's Net Metering Tariff and all the Terms and Conditions listed in this Agreement including any additional conditions listed in Exhibit A.

Terms and Conditions:

To interconnect to JPEC's distribution system, the Member's generating facility shall comply with the following terms and conditions:

SCHEDULE NM – NET METERING

1. JPEC shall provide Member net metering services, without charge for standard metering equipment, through a standard kilowatt-hour metering system capable of measuring the flow of electricity in two (2) directions. If the Member requests any additional meter or meters or distribution upgrades are needed to monitor the flow in each direction, such installations shall be at the Member's expense. T
T
T
T
2. Member shall install, operate, and maintain, at Member's sole cost and expense, any control, protective, or other equipment on the Member's system required by JPEC's technical interconnection requirements based on IEEE 1547, the NEC, accredited testing laboratories such as Underwriters Laboratories, and the manufacturer's suggested practices for safe, efficient, and reliable operation of the generating facility in parallel with JPEC's electric system. Member shall bear full responsibility for the installation, maintenance, and safe operation of the generating facility. Upon reasonable request from JPEC, Member shall demonstrate generating facility compliance. T
T
T
T
T
T
T
3. The generating facility shall comply with, and Member shall represent and warrant its compliance with: T
(a) any applicable safety and power quality standards established by the Institute of Electrical and T
Electronics Engineers (IEEE) and accredited testing laboratories such as Underwriters Laboratories (UL); T
(b) the National Electrical Code (NEC) as may be revised from time to time; (c) JPEC's rules, regulations, T
and JPEC's Service Regulations as contained in JPEC's Retail Electric Tariff as may be revised from time to T
time with the approval of the Kentucky Public Service Commission (Commission); (d) the rules and T
regulations of the Commission, as such rules and regulations may be revised from time to time by the T
Commission; and (e) all other applicable local, state, and federal codes and laws, as the same may be in T
effect from time to time. Where required by law, Member shall pass an electrical inspection of the T
generating facility by a local authority having jurisdiction over the installation. T
4. Any changes or additions to JPEC's system required to accommodate the generating facility shall be T
considered excess facilities. Member shall agree to pay JPEC for actual costs incurred for all such excess T
facilities prior to construction. T
5. Member shall operate the generating facility in such a manner as not to cause undue fluctuations in T
voltage, intermittent load characteristics or otherwise interfere with the operation of JPEC's electric T
system. At all times when the generating facility is being operated in parallel with JPEC's electric system, T

Member shall so operate the generating facility in such a manner that no adverse impacts will be produced thereby to the service quality rendered by JPEC to any of its other Members or to any electric system interconnected with JPEC's electric system. Member shall agree that the interconnection and operation of the generating facility is secondary to, and shall not interfere with, JPEC's ability to meet its primary responsibility of furnishing reasonably adequate service to its Members. T
T
T
T
T

6. Member shall be responsible for protecting, at Member's sole cost and expense, the generating facility from any condition or disturbance on JPEC's electric system, including, but not limited to, voltage sags or swells, system faults, outages, loss of a single phase of supply, equipment failures, and lightning or switching surges, except that JPEC shall be responsible for repair of damage caused to the generating facility resulting solely from the negligence or willful misconduct on the part of JPEC. T
T
T
T
T

7. After initial installation, JPEC shall have the right to inspect and/or witness commissioning tests, as specified in the Level 1 or Level 2 Application and approval process. Following the initial testing and inspection of the generating facility and upon reasonable advance notice to Member, JPEC shall have access at reasonable times to the generating facility to perform reasonable on-site inspections to verify that the installation, maintenance and operation of the generating facility comply with the requirements of this tariff. T
T
T
T
T
T

8. For Level 2 generating facilities, where required by JPEC, an eligible Member shall furnish and install on Member's side of the point of common coupling a safety disconnect switch which shall be capable of fully disconnecting the Member's energy generating equipment from JPEC's electric service under the full rated conditions of the Member's generating facility. The external disconnect switch (EDS) shall be located adjacent to JPEC's meters or the location of the EDS shall be noted by placing a sticker on the meter and shall be of the visible break type in a metal enclosure which can be secured by a padlock. If the EDS is not located directly adjacent to the meter, the Member shall be responsible for ensuring the location of the EDS is properly and legibly identified for so long as the generating facility is operational. The disconnect switch shall be accessible to JPEC personnel at all times. JPEC may waive the requirement for an EDS for a generating facility at its sole discretion, and on a case-by-case basis, upon review of the generating facility operating parameters and if permitted under JPEC's safety and operating protocols. JPEC shall establish a training protocol for line workers on the location and use of the EDS, and shall require that the EDS be used when appropriate, and that the switch be turned back on once the disconnection is no longer necessary.

9. JPEC shall have the right and authority at JPEC's sole discretion to isolate the generating facility or require the Member to discontinue operation of the generating facility if JPEC believes that: (a) continued interconnection and parallel operation of the generating facility with JPEC's electric system creates or contributes (or may create or contribute) to a system emergency on either JPEC's or Member's electric system; (b) the generating facility is not in compliance with the requirements of this tariff, and the noncompliance adversely affects the safety, reliability or power quality of JPEC's electric system; or (c) the generating facility interferes with the operation of JPEC's electric system. In non-emergency situations, JPEC shall give Member notice of noncompliance including a description of the specific noncompliance condition and allow Member a reasonable time to cure the noncompliance prior to isolating the Generating Facilities. In emergency situations, where JPEC is unable to immediately isolate or cause the Member to isolate only the generating facility, JPEC may isolate the Member's entire facility.
10. Member shall agree that, without the prior written permission from JPEC, no changes shall be made to the generating facility as initially approved. Increases in generating facility capacity will require a new "Application for Interconnection and Net Metering" which will be evaluated on the same basis as any other new application. Repair and replacement of existing generating facility components not resulting in increases in generating facility capacity is allowed without approval.
11. To the extent permitted by law, the Member shall protect, indemnify, and hold harmless JPEC and its directors, officers, employees, agents, representatives and contractors against and from all loss, claims, actions or suits, including costs and attorneys fees, for or on account of any injury or death of persons or damage to property caused by the Member or the Member's employees, agents, representatives and contractors in tampering with, repairing, maintaining, or operating the Member's generating facility or any related equipment or any facilities owned by JPEC except where such injury, death or damage was caused or contributed to by the fault or negligence of JPEC or its employees, agents, representatives, or contractors.

Availability of Service

Available only to qualifying small power production or cogeneration facilities, above 100 kW, which have executed an "Agreement for Purchase of Electric Energy" (a sample of which is attached hereto as an exhibit for reference) with JPEC. Rates below are to be used as the basis for negotiating a final purchase rate and are not to be taken as a firm rate for any facilities.

Rate Schedule

A. Capacity (if applicable)

- When connected to electric distribution lines of 15 kV or below:
A payment of \$4.12 per kilowatt per month, provided capacity is delivered for a minimum of 520 hours during the month. Payment will be based upon the average capacity delivered each month as determined by dividing the metered kWh delivered by the number of hours in the billing period. Deliveries for less than 520 hours will receive the energy payment only.
- When connected to electric transmission lines above 25 kV:
A payment of \$4.04 per kilowatt per month provided capacity is delivered for a minimum of 520 hours during the month. Payment will be based upon the average capacity delivered each month as determined by dividing the metered kWh delivered by the number of hours in the billing period. Deliveries for less than 520 hours will receive the energy payment only.

3.1 JPEC shall take and purchase all of the power and energy produced by the seller that is delivered to the point at which the QF is interconnected with JPEC's distribution system. The power and energy delivered by the seller and purchased by JPEC shall be metered and paid for in accordance with the terms of this agreement. Electric power and energy to be purchased under this agreement shall be alternating current, single or three-phase, 60 Hertz. The parties will agree upon the delivery voltage and capacity prior to the commencement of purchase under this agreement.

3.2 The QF shall at all times operate in such manner as to maintain a power factor of not less than 90% leading or lagging.

3.3 The capacity delivered in kilowatts shall be the QF's average hourly output which is delivered for the required minimum number of hours during each billing period, as determined by dividing the kWh delivered during the billing period by the actual number of hours in the billing period. For purposes of this agreement each calendar month during the term of this agreement shall be a separate billing period.

SAMPLE AGREEMENT FOR PURCHASE OF ELECTRIC ENERGY

3.4 JPEC shall read meters monthly. Electric power and energy furnished under this agreement shall be paid for within fifteen (15) days after the meters are read and the bill is issued.

3.5 Electric power and energy purchased by the seller shall be purchased from JPEC under arrangements separate from this agreement, and shall be metered and accounted for separately from the power and energy delivered and sold by the seller to JPEC.

ARTICLE IV

Rates and Charges

4.1 JPEC shall pay for the power and energy purchased from the seller upon the terms and conditions contained in its tariff, rate schedule SPC, which is attached to this agreement and incorporated herein by reference, subject to any revisions in that rate schedule that may from time to time be approved by the Kentucky Public Service Commission (hereinafter called "PSC")

Protection of System Owned by JPEC

5.1 The seller shall be responsible for operating and maintaining the QF in a safe manner and for providing the protective equipment needed to prevent damage to the system owned by JPEC, injury to the personnel of JPEC, or interference with JPEC's consumers. JPEC shall have the right to review the seller's proposed protection system, operating procedures and system characteristics in order to determine whether the seller's operation of the QF will have an adverse impact on the system owned by JPEC. The following areas, among others, may be reviewed for possible adverse effects:

1. Fault protection.
2. Voltage regulation and balance.
3. Grounding.
4. Synchronizing systems.
5. Disconnecting and isolating systems.
6. Flicker.
7. Harmonics.

RATES AND CHARGES
CABLE TELEVISION ATTACHMENT TARIFF (CTAT)

Applicability

In all territory served by JPEC on poles owned and used by JPEC for their electric plant.

Availability of Service

To all qualified CATV operators having the right to receive service.

Rental Charge

The yearly rental charges shall be as follows:

Two-party pole attachment	\$4.84
Three-party pole attachment	\$4.09
Two-party anchor attachment	\$5.88
Three-party anchor attachment	(not available)
Two-party ground attachment	\$0.24
Three-party ground attachment	\$0.16

Billing

Rental charges shall be billed yearly based on the number of pole attachments. The rental charges are net, the gross rate being five percent (5%) higher. In the event the current bill is not paid on or before the date shown on the bill, the gross rates shall apply. Failure of the CATV operator to receive a bill or a correctly calculated bill shall not relieve the CATV operator of its obligation to pay for the service it has received.

Specifications

- 1. The attachment to poles covered by this tariff shall at all times conform to the requirements of the National Electrical Safety Code, latest edition, and subsequent revisions thereof, except where the lawful requirements of public authorities may be more stringent, in which case the latter will govern.
- 2. The strength of poles covered by this agreement shall be sufficient to withstand the transverse and vertical load imposed upon them under the storm loading of the National Electrical Safety Code assumed for the area in which they are located. JPEC shall be notified in advance of any proposed modifications to be made to existing CATV operator attachments so that JPEC may determine the suitability of the strength of poles to be used for these attachments.

Establishing Pole Use

- 1. Before the CATV operator shall make use of any of the poles of JPEC or modify existing attachments under this tariff, they shall notify JPEC of their intent in writing and shall comply with the procedures established by JPEC. The CATV operator shall furnish JPEC detailed construction plans and drawings for each pole line, together with necessary maps, indicating specifically the poles of JPEC, with the number and character of the attachments to be placed on such poles, and rearrangements of JPEC's fixtures and equipment necessary for the attachment, any relocation or replacements of existing poles, and any additional poles that the CATV operator intends to install.

JPEC shall, on the basis of such detailed construction plans and drawings, submit to the CATV operator a cost estimate (including overhead and less salvage value of materials) of all changes that may be required in each such pole line. Upon written notice by the CATV operator to JPEC that the cost estimate is approved, JPEC shall proceed with the necessary changes in pole lines covered by the cost estimate. Upon completion of all changes, the CATV operator shall have the right hereunder to make attachments in accordance with the terms of the application of this

- tariff. The CATV operator shall, at its own expense, make attachments in such manner as not to interfere with the service of JPEC.
2. Upon completion of all changes, the CATV operator shall pay to JPEC the actual cost (including overhead and less salvage value of materials) of making such changes. The obligations of the CATV operator hereunder shall not be limited to amounts shown on estimates made by JPEC hereunder. An itemized statement of the actual cost of all such changes shall be submitted by JPEC to the CATV operator, in a form mutually agreed upon.
 3. Any reclearing of existing rights-of-way and any tree trimming necessary for the establishment of pole line attachments hereunder shall be performed by the CATV operator.
 4. All poles to which attachments have been made under this tariff shall remain the property of JPEC, and any payments made by the CATV operator for changes in pole lines under this tariff shall not entitle the CATV operator to the ownership of any of said poles.
 5. Any charges necessary for correction of substandard installation made by the CATV operator, where notice of intent had not been requested, shall be billed at a rate equal to twice the charges that would have been imposed if the attachment had been properly authorized.

Easements and Rights-of-Way

JPEC does not warrant nor assure to the CATV operator any rights-of-way privileges or easements, and if the CATV operator shall at any time be prevented from placing or maintaining its attachments on JPEC's poles, no liability on account thereof shall attach to JPEC. Each party shall be responsible for obtaining its own easements and rights-of-way.

Maintenance of Poles, Attachments and Operations

1. Whenever right-of-way considerations of public regulations make relocation of a pole, or poles, necessary, such relocation shall be made by JPEC at its own expense, except that each party shall bear the cost of transferring its own attachments.
2. Whenever it is necessary to replace or relocate an attachment, JPEC shall, before making such replacement or relocation, give forty-eight (48) hours written notice (except in cases of emergency) to the CATV operator, specifying in said notice the time of such proposed replacement or relocation, and the CATV operator shall, at the time so specified, transfer its attachments to the new or relocated pole. Should the CATV operator fail to transfer its attachments to the new or relocated pole at the time specified for such transfer of attachments, JPEC may elect to do such work and the CATV operator shall pay JPEC the cost thereof. In the event the CATV operator fails to transfer its attachments and JPEC does such work, JPEC shall not be liable for any consequential damages such as loss of service to the CATV operator customers.
3. Any existing attachment of the CATV operator, which does not conform to the specifications set out in this tariff hereof, shall be brought into conformity therewith as soon as practical. Upon receipt of written notification from JPEC of an attachment in nonconformance, the CATV operator shall have forty-eight (48) hours to bring the attachment into conformance. If the CATV operator does not bring the attachment into conformance in this time period, JPEC reserves the right to perform such a correction, and the CATV operator shall pay to JPEC the actual cost (including overhead and less salvage value of materials) of making such a correction. JPEC, because of the importance of its service, reserves the right to inspect each new installation of the CATV operator on its poles and in the vicinity of its lines or appurtenances. Such inspection made or not, shall not operate to relieve the CATV operator of any responsibility, obligation, or liability assumed under the tariff.
4. JPEC reserves to itself, its successor and assigns, the right to maintain its poles and operate its facilities thereon in such manner as will, in its own judgment best enable it to fulfill its own service requirements. JPEC shall not be liable to the CATV operator for any interruption of service

of the CATV operator or for interference with the operation of the cables, wires and appliances of the CATV operator arising in any manner out of the use of JPEC's poles hereunder.

JPEC shall exercise reasonable care to avoid damaging the facilities of the CATV operator, make an immediate report to the CATV operator of the occurrence of any such damage caused by its employees, agents or contractors, and, except for removal for non-payment or for failure to post or maintain the required "Performance Bond", agrees to reimburse the CATV operator for all reasonable cost incurred by the CATV operator for the physical repair of facilities damaged by the negligence of JPEC.

Inspections

- 1. Periodic Inspection: Any unauthorized or unreported attachment by the CATV operator will be billed at a rate of two (2) times the amount equal to the rate that would have been due, had the installation been made the day after the last inspection.
- 2. Make-Ready Inspection: Any "make-ready" inspection or "walk-through" inspection required of JPEC will be paid for by the CATV operator at a rate equal to JPEC's actual expenses, plus appropriate overhead charges.

Insurance or Bond

- 1. The CATV operator agrees to defend, indemnify and save harmless JPEC from any and all damage, loss, claim, demand, suit, liability, penalty or forfeiture of every kind and nature, including but not limited to, costs and expenses of defending against the same and payment of any settlement or judgment therefore, by reason of (a) injuries or death to persons, (b) damages to or destruction of properties, (c) pollutions, contaminations of or other adverse effects on the environment, (d) terrorist attacks, or (e) violations of governmental laws, regulations or orders whether suffered directly by JPEC itself, or indirectly by reason of claims, demands or suits against it by third parties, resulting or alleged to have resulted from acts or omissions of the CATV operator, its employees, agents or other representatives or from their presence on the

- premises of JPEC, either solely or in concurrence with any alleged joint negligence of JPEC. JPEC shall be liable for sole active negligence.
2. The CATV operator will provide coverage from a company authorized to do business in the Commonwealth of Kentucky:
 - A. Protection for its employees to the extent required by Worker’s Compensation Law of Kentucky.
 - B. Public Liability coverage with separate coverage for each town or city in which the CATV operator operates under this contract to a minimum amount of \$500,000.00 for each person and \$1,000,000.00 for each accident or personal injury or death, and \$500,000.00 as to the property of any one person, and \$500,000.00 as to any one accident or property damage.

Before beginning operations under this tariff, the CATV operator shall cause to be furnished to JPEC a certificate for such coverage evidencing the existence of such coverage. Each policy required hereunder shall contain a contractual endorsement written as follows:

“The insurance or bond provided herein shall also be for the benefit of Jackson Purchase Energy Corporation, so as to guarantee, within the coverage limits, the performance by the insured of any indemnity agreement set forth in this tariff. This insurance or bond may not be cancelled for any cause without thirty (30) days advance notice being first given to Jackson Purchase Energy Corporation.”

Change of Use Provision

When JPEC subsequently requires a change in its poles or attachment for reasons unrelated to the CATV operator operations, the CATV operator shall be given forty-eight (48) hours written notice of the proposed change (except in case of emergency). If the CATV operator is unable or unwilling to meet JPEC's time schedule for such changes, JPEC may do the work and charge to the CATV operator its reasonable cost for performing the change of the CATV operator attachments.

Abandonment

1. If JPEC desires at any time to abandon any pole to which the CATV operator has attachments, it shall give the CATV operator notice in writing to that effect at least thirty (30) days prior to the date on which it intends to abandon such pole. If, at the expiration of said period, JPEC shall have no attachments on such pole, but the CATV operator shall not have removed all of its attachments there from, such pole shall thereupon become the property of the CATV operator, and the CATV operator shall save harmless JPEC from all obligation, liability, damages, cost, expenses, or charges incurred thereafter; and shall pay JPEC for such pole an amount equal to JPEC's depreciated cost thereof. JPEC shall further evidence transfer to the CATV operator of title to the pole by means of a bill of sale.
2. The CATV operator may, at any time, abandon the use of the attached pole by giving due notice thereof in writing to JPEC and by removing there from any and all attachments it may have thereon. The CATV operator shall, in such case, pay to JPEC the full rental for said pole for the then current billing period.

Rights of Others

Upon notice from JPEC to the CATV operator that the use of any pole or poles is forbidden by municipal or other public authorities or by property owners, the permit governing the use of such pole or poles shall immediately terminate and the CATV operator shall remove its facilities from the affected pole or poles at once. No refund of any rental will be due on account of any removal resulting from such forbidden use.

Payment of Taxes

Each party shall pay all taxes and assessments lawfully levied on its own property upon said attached poles, and the taxes and the assessments which are levied on said property shall be paid by the owner thereof, but any tax, fee, or charge levied on JPEC's poles solely because of their fee by the CATV operator shall be paid by the CATV operator.

Bond or Depositor Performance

- 1. The CATV operator shall furnish a bond or satisfactory evidence of contractual insurance coverage for the purposes hereinafter specified in the amount of Twenty-Five Thousand Dollars (\$25,000.00) until such time as the CATV operator shall have twenty-five hundred (2500) attachments on poles of JPEC and thereafter the amount thereof shall be increased to increments of One Thousand Dollars (\$1,000.00) for each one hundred (100) attachments of the CATV operator on JPEC's poles, evidence of which shall be presented to JPEC fifteen (15) days prior to beginning construction. Such bond or insurance shall contain the provision that it shall not be terminated prior to six (6) months after receipt by JPEC of written notice of the desire of the Bonding or Insurance Company to terminate such bond or insurance. Upon receipt of such notice, JPEC shall request the CATV operator to immediately remove its cables, wires, and all other facilities from all poles of JPEC.

If the CATV operator should fail to complete the removal of all its facilities from the poles of JPEC within thirty (30) days after receipt of such request from JPEC, then JPEC shall have the right to remove them at the cost and expense of the CATV operator and without being liable for any damage to the CATV operator's wires, cables, fixtures, or appurtenances. Such bond or insurance shall guarantee the payment of any sums which may become due to JPEC for rentals, inspections, or work performed for the benefit of the CATV operator under this tariff, including the removal of attachments upon termination of service by any of its provisions.

CABLE TELEVISION ATTACHMENT TARIFF (CTAT)

- 2. After the CATV operator has been a customer of JPEC and not in default for a period of two years, JPEC shall reduce the bond by 50%, or, at JPEC's option, require a deposit in keeping with 807 KAR 5:006, Section 7.

Use of Anchors

JPEC reserves the right to prohibit the use of any existing anchors by the CATV operator where the strength or conditions of said anchors cannot be readily identified by visual inspection.

Discontinuance of Service

JPEC may refuse or discontinue serving an applicant or customer under the conditions set out in 807 KAR 5:006, Section 14 (1).

SHEET NO. 62

CLASSIFICATION OF SERVICE
BALLARD RURAL TELEPHONE COOPERATIVE CORPORATION (BRTC) TARIFF

Applicability

In all territory of Ballard and McCracken counties jointly served by JPEC and Ballard Rural Telephone.

Availability

To Ballard Rural Telephone Cooperative Corporation, Inc. (BRTC) only.

Rental Charge

The yearly rental charges shall be as follows:

Two-party pole attachment	\$4.84
Three-party pole attachment	\$4.09
Two-party anchor attachment	\$5.88
Three-party anchor attachment (not available)	
Two-party ground attachment	\$0.24
Three-party ground attachment	\$0.16

Billing

Rental charges shall be billed yearly based on the number of pole attachments. The rental charges are net, the gross rate being five percent (5%) higher. In the event the current bill is not paid on or before the date shown on the bill, the gross rates shall apply. Failure of BRTC to receive a bill or a correctly calculated bill shall not relieve BRTC of its obligation to pay for the service it has received.

SHEET NO. 63

CLASSIFICATION OF SERVICE
BALLARD RURAL TELEPHONE COOPERATIVE CORPORATION (BRTC) TARIFF

Specifications

- A. The attachment to poles covered by this tariff shall at all times conform to the requirements of the National Electrical Safety Code, latest edition, and subsequent revisions thereof, except where the lawful requirements of public authorities may be more stringent, in which case the latter will govern.
- B. The strength of poles covered by this agreement shall be sufficient to withstand the transverse and vertical load imposed upon them under the storm loading of the National Electrical Safety Code assumed for the area in which they are located.

Establishing Pole Use

- A. Before BRTC shall make use of any of the poles of JPEC under this tariff, they shall notify JPEC of their intent in writing and shall comply with the procedures established by JPEC. BRTC shall furnish JPEC detailed construction plans and drawings for each pole line, together with necessary maps, indicating specifically the poles of JPEC, with the number and character of the attachments to be placed on such poles, and rearrangements of JPEC's fixtures and equipment necessary for the attachment, any relocation or replacements of existing poles, and any additional poles that BRTC intends to install.

JPEC shall, on the basis of such detailed construction plans and drawings, submit to BRTC a cost estimate (including overhead and less salvage value of materials) of all changes that may be required in each such pole line. Upon written notice by BRTC to JPEC that the cost estimate is approved, JPEC shall proceed with the necessary changes in pole lines covered by the cost estimate. Upon completion of all changes, BRTC shall have the right hereunder to make attachments in accordance with the terms of the application of this tariff. BRTC shall, at its own expense, make attachments in such manner as not to interfere with the service of JPEC.

BALLARD RURAL TELEPHONE COOPERATIVE CORPORATION (BRTC) TARIFF

- B. Upon completion of all changes, BRTC shall pay to JPEC the actual cost (including overhead and less salvage value of materials) of making such changes. The obligations of BRTC hereunder shall not be limited to amounts shown on estimates made by JPEC hereunder. An itemized statement of the actual cost of all such changes shall be submitted by JPEC to BRTC, in a form mutually agreed upon.
- C. Any reclearing of existing rights-of-way and any tree trimming necessary for the establishment of pole line attachments hereunder shall be performed by BRTC.
- D. All poles to which attachments have been made under this tariff shall remain the property of JPEC, and any payments made by BRTC for changes in pole lines under this tariff shall not entitle BRTC to the ownership of any of said poles.
- E. Any charges necessary for correction of substandard installation made by BRTC, where notice of intent had not been requested, shall be billed at a rate equal to twice the charges that would have been imposed if the attachment had been properly authorized.

Easements and Rights-Of-Way

JPEC does not warrant nor assure to BRTC any rights-of-way privileges or easements, and if BRTC shall at any time be prevented from placing or maintaining its attachments on JPEC's poles, no liability on account thereof shall attach to JPEC. Each party shall be responsible for obtaining its own easements and rights-of-way.

Maintenance of Poles, Attachments and Operation

- A. Whenever right-of-way considerations of public regulations make relocation of a pole, or poles, necessary, such relocation shall be made by JPEC at its own expense, except that each party shall bear the cost of transferring its own attachments.
- B. Whenever it is necessary to replace or relocate an attachment, JPEC shall, before making such replacement or relocation, give forty-eight (48) hours written notice (except in cases of emergency)

to BRTC, specifying in said notice the time of such proposed replacement or relocation, and BRTC shall, at the time so specified, transfer its attachments to the new or relocated pole. Should BRTC fail to transfer its attachments to the new or relocated pole at the time specified for such transfer of attachments, JPEC may elect to do such work and BRTC shall pay JPEC the cost thereof. In the event BRTC fails to transfer its attachments and JPEC does such work, JPEC shall not be liable for any consequential damages such as loss of service to BRTC customers.

- C. Any existing attachment of BRTC, which does not conform to the specifications set out in this tariff hereof, shall be brought into conformity therewith as soon as practical. JPEC, because of the importance of its service, reserves the right to inspect each new installation of BRTC on its poles and in the vicinity of its lines or appurtenances. Such inspection, made or not, shall not operate to relieve BRTC of any responsibility, obligation, or liability assumed under the tariff.
- D. JPEC reserves to itself, its successor and assigns, the right to maintain its poles and operate its facilities thereon in such manner as will, in its own judgment best enable it to fulfill its own service requirements. JPEC shall not be liable to BRTC for any interruption of service of BRTC or for interference with the operation of the cables, wires and appliances of BRTC arising in any manner out of the use of JPEC's poles hereunder.

JPEC shall exercise reasonable care to avoid damaging the facilities of BRTC, make an immediate report to BRTC of the occurrence of any such damage caused by its employees, agents or contractors, and, except for removal for non-payment or for failure to post or maintain the required "Performance Bond", agrees to reimburse BRTC for all reasonable cost incurred by BRTC for the physical repair of facilities damaged by the negligence of JPEC.

Inspections

- A. Periodic Inspection: Any unauthorized or unreported attachment by BRTC will be billed at a rate of two (2) times the amount equal to the rate that would have been due, had the installation been made the day after the last inspection.
- B. Make-Ready Inspection: Any "make-ready" inspection or "walk-through" inspection required of JPEC will be paid for by BRTC at a rate equal to JPEC's actual expenses, plus appropriate overhead charges.

Insurance or Bond

- A. BRTC agrees to defend, indemnify and save harmless JPEC from any and all damage, loss, claim, demand, suit, liability, penalty or forfeiture of every kind and nature, including but not limited to, costs and expenses of defending against the same and payment of any settlement or judgment therefore, by reason of (a) injuries or death to persons, (b) damages to or destruction of properties, (c) pollutions, contaminations of or other adverse effects on the environment, or (d) violations of governmental laws, regulations or orders whether suffered directly by JPEC itself, or indirectly by reason of claims, demands or suits against it by third parties, resulting or alleged to have resulted from acts or omissions of BRTC, its employees, agents or other representatives or from their presence on the premises of JPEC, either solely or in concurrence with any alleged joint negligence of JPEC. JPEC shall be liable for sole active negligence.
- B. BRTC will provide coverage from a company authorized to do business in the Commonwealth of Kentucky:
 - 1. Protection for its employees to the extent required by Worker's Compensation Law of Kentucky.
 - 2. Public Liability coverage with separate coverage for each town or city in which BRTC operates under this contract to a minimum amount of \$100,000.00 for each person and \$300,000.00 for

each accident or personal injury or death, and \$25,000.00 as to the property of any one person, and \$100,000.00 as to any one accident or property damage.

Before beginning operations under this tariff, BRTC shall cause to be furnished to JPEC a certificate for such coverage evidencing the existence of such coverage. Each policy required hereunder shall contain a contractual endorsement written as follows:

"The insurance or bond provided herein shall also be for the benefit of Jackson Purchase Energy Corporation, so as to guarantee, within the coverage limits, the performance by the insured of any indemnity agreement set forth in this tariff. This insurance or bond may not be cancelled for any cause without thirty (30) days advance notice being first given to Jackson Purchase Energy Corporation."

Change of Use Provision

When JPEC subsequently requires a change in its poles or attachment for reasons unrelated to BRTC operations, BRTC shall be given forty-eight (48) hours notice of the proposed change (except in case of emergency). If BRTC is unable or unwilling to meet JPEC's time schedule for such changes, JPEC may do the work and charge to BRTC its reasonable cost for performing the change of BRTC attachments.

Abandonment

- A. If JPEC desires at any time to abandon any pole to which BRTC has attachments, it shall give BRTC notice in writing to that effect at least thirty (30) days prior to the date on which it intends to abandon such pole. If, at the expiration of said period, JPEC shall have no attachments on such pole, but BRTC shall not have removed all of its attachments therefrom, such pole shall thereupon become the property of BRTC, and BRTC shall save harmless JPEC from all obligation, liability, damages, cost, expenses, or charges incurred thereafter; and shall pay JPEC for such pole an amount equal to JPEC's depreciated cost thereof. JPEC shall further evidence transfer to BRTC of title to the pole by means of a bill of sale.

- B. BRTC may, at any time, abandon the use of the attached pole by giving due notice thereof in writing to JPEC and by removing therefrom any and all attachments it may have thereon. BRTC shall, in such case, pay to JPEC the full rental for said pole for the then current billing period.

Rights of Others

Upon notice from JPEC to BRTC that the use of any pole or poles is forbidden by municipal or other public authorities or by property owners, the permit governing the use of such pole or poles shall immediately terminate and BRTC shall remove its facilities from the affected pole or poles at once. No refund of any rental will be due on account of any removal resulting from such forbidden use.

Payment of Taxes

Each party shall pay all taxes and assessments lawfully levied on its own property upon said attached poles, and the taxes and the assessments which are levied on said property shall be paid by the owner thereof, but any tax, fee, or charge levied on JPEC's poles solely because of their fee by BRTC shall be paid by BRTC.

Bond or Depositor Performance

- A. BRTC shall furnish a bond or satisfactory evidence of contractual insurance coverage for the purposes hereinafter specified in the amount of Twenty-Five Thousand Dollars (\$25,000.00) until such time as BRTC shall occupy twenty-five hundred (2,500) poles of JPEC and thereafter the amount thereof shall be increased to increments of One Thousand Dollars (\$1,000.00) for each one hundred (100) poles (or fraction thereof) occupied by BRTC, evidence of which shall be presented to JPEC fifteen (15) days prior to beginning construction. Such bond or insurance shall contain the provision that it shall not be terminated prior to six (6) months after receipt by JPEC of written notice of the desire of the Bonding or Insurance Company to terminate such bond or insurance. Upon receipt of such notice, JPEC shall request BRTC to immediately remove its cables, wires, and all other facilities from all poles of JPEC.

RULES AND REGULATIONS
POWER CURTAILMENT PROCEDURE

General

The Kentucky Public Service Commission has required that a Power Curtailment Procedure be established for all electric utilities under its jurisdiction (Administrative Case Number 353).

Objective

This plan provides guidelines for the reduction and conservation of power usage during severe generation shortages, power deficiencies, certain mechanical failures and other emergency situations.

This procedure will define the following priority levels;

Level 1: Essential Health and Safety – to be given special consideration in these procedures shall, insofar as the situation permits, include the following types of use:

- A. "Hospitals", which shall be limited to institutions providing medical care to patients.
- B. "Life Support Equipment", which shall be limited to kidney machines, respirators, and similar equipment used to sustain the life of a person.
- C. "Police Stations and Government Detention Institutions", which shall be limited to essential uses required for police activities and the operation of facilities used for the detention of persons. These uses shall include essential street, highway, and signal lighting services.
- D. "Fire Stations", which shall be limited to facilities housing mobile fire-fighting apparatus.
- E. "Communications Services", which shall be limited to essential uses required for telephone, telegraph, television, radio, and newspaper operations, and operation of state and local emergency services.
- F. "Water and Sewage Services", which shall be limited to essential uses required for the supply of water to a community, flood pumping and sewage disposal.
- G. "Transportation and Defense-related Services", which shall be limited to essential uses required for the operation, guidance control and navigation of air, rail and mass transit systems, including those uses essential to the national defense and operation of state and local emergency services.

POWER CURTAILMENT PROCEDURE

- H. "Other Energy Source Services", which shall be limited to essential uses required for the production, transportation, transmission and distribution -- for fuel -- of natural or manufactured gas, coal, oil or gasoline.
- I. "Perishable Food or Medicine", which shall be limited to the use of refrigeration for the storage and preservation of perishable food or medicine when that use is substantially all of a customer's load.
- J. "Critical Commercial and Industrial", which shall be limited to commercial or industrial operations requiring regimented shutdowns to prevent conditions hazardous to the general population, and to energy utilities and their support facilities critical to the production, transportation, and distribution of service to the general population.

Level 2: Residential

This class will include power consumption essential usage only – limited to homes, apartments, hotels and motels.

Level 3: Non-critical Commercial and Industrial

This class will include all Rate Schedule "C-1", "C-3", "D", "I-E", "L", and "L-E" except for those consumers that are classified in Level 1 or 2.

Level 4: Non-Essential Uses

- A. Outdoor flood and advertising lighting, except for the minimum level to protect life and property, and a single illuminated sign identifying commercial facilities when operating after dark.
- B. General interior lighting levels greater than minimum functional levels.
- C. Show window and display lighting.
- D. Parking lot lighting above minimum functional levels.
- E. Energy use greater than that necessary to maintain a temperature of not less than 78 degrees during operation of cooling equipment and not more than 65 degrees during operation of heating equipment.

- F. Elevator and escalator use in excess of the minimum necessary for off peak hours of use.
- G. Energy use greater than that which is the minimum required for lighting, heating, or cooling of commercial or industrial facilities for maintenance cleaning or business-related activities during non-business hours.

When to Implement this Procedure

This procedure is to be implemented only when a state of emergency exists or a disaster has been declared by governmental authorities that dictate curtailment of power consumption. A state of emergency can also be declared by the President/CEO in the event load exceeds JPEC's system capacity or for other such system disturbances that may occur if internal efforts fail to alleviate the problem.

Curtailment Procedure

The following order of actions should be implemented to curtail the consumption of power use. When the curtailment goal is established, no further action is required unless the goal is updated or additional loads are experienced.

1. Determine the extent of the emergency and estimate the amount of consumption curtailment required. Estimate the kW and kWh system use for the immediate future. Set a goal for the kWh and/or kW curtailment.
2. Notify the news media within the service territory and ask that JPEC Members be notified of the emergency and asked to reduce their consumption until further notice.
3. Curtail Members having their own internal generation capacity. Curtail Members on curtailable agreements and contracts for the maximum hours and load allowable under their agreement or contract.
4. Call all large Members and inform them of the emergency and ask them to curtail all non-essential power consumption.
5. Notify the Kentucky Public Service Commission of the situation.

RULES AND REGULATIONS
POWER CURTAILMENT PROCEDURE

- 6. If the presently established curtailment level is not met, proceed with the following mandatory measures. Establish necessary phone answering stations to answer Member questions and concerns. Notify the media with up-to-date information on the status of the emergency and all future actions to be taken.
- 7. Initiate mandatory curtailments by terminating all Priority Level 4 service. Reduce Priority Level 3 by twenty-five percent (25%) and Priority Level 2 by fifteen percent (15%).
- 8. Implement interruption of distribution circuits on a rotational basis while minimizing interruption of Priority Level 1 Members.

Enforcement

Members who try to use more power consumption than allotted should be given verbal and written warnings. They shall have a maximum of 24 hours to comply. If they do not cooperate, they shall be disconnected until the curtailment is over.

Termination of the Curtailment of Power Consumption

The termination of this procedure will occur when the emergency is over. All services will be restored in reverse order and in a manner that will not create adverse effects on JPEC. If the curtailment goal is reduced, service can be restored to the most essential Members first.

FRANCHISE FEE

Applicability

Entire service territory.

Availability of Service

Available as an option for collection of revenues within governmental jurisdictions which impose on JPEC franchise fees, permitting fees, local taxes or other charges by ordinance, franchise or other governmental directive and not otherwise collected in the charges of JPEC's base rate schedules.

Definitions

Base Year: The twelve (12) month period ending December 31.

Collection Year: The full calendar year following the Base Year.

Base Year Amount:

1. A percentage of revenues, as determined in the franchise agreement, for the Base Year; and
2. License fees, permit fees or other cost specifically borne by JPEC for the purpose of maintaining the franchise as incurred in the Base Year and applicable specifically to JPEC by ordinance or franchise for operation and maintenance of its facilities in the franchise area, including but not limited to costs incurred by JPEC as a result of governmental regulation or directives requiring construction or installation of facilities beyond that normally provided by JPEC in accordance with applicable Rules and Regulations approved by JPEC's Board of Directors and under the direction of the Kentucky Public Service Commission; and
3. Any adjustment for over or under collection of revenues associated with the amounts in (1) or (2).

SHEET NO. 77

RATES AND CHARGES
FRANCHISE FEE

Rates

The franchise percentage will be calculated by dividing the Base Year amount by the total revenues in the Base Year for the franchise area. The franchise percentage will be monitored during the Collection Year and adjusted to recover the Base Year Amount in the Collection Year as closely as possible.

Billing

1. The franchise charge will be applied exclusively to the base rate and all riders of bills of Members receiving service within the franchising governmental jurisdiction, before taxes.
2. The franchise charge will appear as a separate line item on the Member's bill and show the unit of government requiring the franchise.
3. Payment of the collected franchise charges will be made to the governmental franchising body as agreed to in the franchise agreement.

Term of Contract

As agreed to in the franchise agreement. In the event such franchise agreement should lapse but payment of franchise fees, other local taxes or permitting fees paid by JPEC by ordinance franchise or other governmental directive should continue, collection shall continue under this tariff.

Terms and Conditions

Service will be furnished in accordance with the provisions of the franchise agreement insofar as those provisions do not conflict with the Terms and Conditions applicable to JPEC approved by and under the direction of JPEC's Board of Directors and the Kentucky Public Service Commission.

CANCELLING P.S.C. KY NO. 2

SHEET NO. 79

RATES AND CHARGES
SCHEDULE G-1 – RENEWABLE RESOURCE ENERGY SERVICE

Applicable

Applicable in all territory served.

Availability of Service

Renewable Resource Energy service is available in accordance with the terms of this tariff rider to any Member purchasing retail electric service under a schedule listed in Section D of this rider, subject to JPEC’s general rules and regulations on file with the Public Service Commission of Kentucky. For purposes of this renewable resource energy service tariff rider, (i) the term “Renewable Resource Energy” means electric energy generated from solar, wind, ocean, geothermal energy, biomass, or landfill gas, and (ii) the term “biomass: means any organic material that is available on a renewable or recurring basis, including dedicated energy crops, trees grown for energy production, wood waste and wood residues, plants (including aquatic plants, grasses and agricultural crops), residues, fibers, animal wastes and other organic waste materials (but not including unsegregated municipal solid waste (garbage)), and fats and oils.

Conditions of Service

- (1) Renewable Resource Energy service availability is contingent upon the availability from JPEC’s wholesale power supplier of a wholesale supply of Renewable Resource Energy in the quantity and at the quality requested by a Member.
- (2) Subject to the other requirements of this tariff rider, JPEC will make Renewable Resource Energy service available to a Member if the Member signs a Renewable Resource Energy service contract in the form attached to this tariff rider agreeing to purchase a specified number of 100 kWh blocks of Renewable Resource Energy per month for a period of not less than one year, and that contract is accepted by JPEC’s wholesale power supplier. JPEC will have the right, but not the obligation, to terminate a Renewable Resource Energy service contract at the request of the Member before the end of the contract term.

MEMBERS BILL OF RIGHTS

As a residential Member of a regulated public utility in the Commonwealth of Kentucky, you are guaranteed the following rights subject to Kentucky Revised Statutes and the provisions of the Kentucky Public Service Commission Administrative Regulations:

- You have the right to service, provided you (or a Member of your household whose debt was accumulated at your address) are not indebted to JPEC.
- You have the right to inspect and review JPEC's rates and tariffed operating procedures during JPEC's normal office hours.
- You have the right to be present at any routine JPEC inspection of your service conditions.
- You must be provided a separate, distinct disconnect notice alerting you to a possible disconnection of your service, if payment is not received.
- You have the right to dispute the reasons for any announced termination of your service.
- You have the right to negotiate a partial payment plan when your service is threatened by disconnection for non-payment.
- You have the right to participate in near equal, levelized payment plan for your electric service.
- You have the right to maintain your utility service for up to thirty (30) days upon presentation of a medical certificate issued by a health official.
- You have the right to prompt (within 24 hours) restoration of your service when the cause for discontinuance has been corrected.

RULES AND REGULATIONS

(6) AVAILABILITY OF SERVICE TO DELINQUENT MEMBERS

If an application is received by a person residing with a delinquent Member at the premises where power and/or energy was supplied to the delinquent Member, the application will be denied on the grounds that the applicant is applying as the agent of the delinquent Member.

(7) APPLICATION FOR ELECTRIC SERVICE

Each prospective Member and/or spouse desiring electric service will be required to complete the "Application for Membership and Electric Service". Where applicable, the prospective Member must sign an agreement or contract pertaining to their particular service. Also, where applicable, the prospective Member must provide JPEC with all necessary electrical permits and fully executed right of way easements for his/her property, and all necessary load information at the time of application for service. The Member may be required to furnish his/her social security number, federal tax identification number, telephone number(s), date of birth, permanent address, place of employment, name of spouse and other information.

(8) MEMBERSHIP

The Membership fee shall be zero dollars (\$0.00). No Member may hold more than one (1) Membership in JPEC. Discontinuance of service will automatically terminate the Membership, and any Membership fee will be applied against any unpaid bills of the Member and/or refunded. No refund of any membership fee will be distributed unless the membership is terminated. Membership fees are not transferable from one Member to another.

(9) CONTINUITY OF SERVICE

JPEC shall use reasonable diligence to provide a constant and uninterrupted supply of electrical power and energy, but if such a supply shall fail or be interrupted or become defective through an act of God, or the public enemy, terrorist actions, or by accident, strikes or labor troubles, or by actions of the elements, or other regulatory action or for any other cause beyond the reasonable control of JPEC, JPEC shall not be liable.

SHEET NO. 88

RULES AND REGULATIONS

For the purpose of making repairs to or changes in JPEC's facilities, JPEC may without incurring any liability therefore, suspend service for such period as may be required but will not inconvenience the Member unnecessarily. Whenever possible, JPEC will give reasonable notice to the Member prior to such suspension of service.

(10) EASEMENTS

Each Member, together with his/her spouse and all other real estate title owners, shall grant or convey to JPEC, without cost, any permanent easements reasonably required by JPEC to provide electric service to that Member for the installation, maintenance, and operation of JPEC's electrical distribution system, both existing and future, with right of ingress and egress for these purposes over the Member's property, provided such electrical distribution system is located on real estate owned, rented or otherwise controlled by the Member. The failure or refusal to convey easements shall constitute grounds for discontinuing service.

(11) RIGHT OF ACCESS

Each Member shall, at the time of application provide JPEC with permits or shall sign right of way easements if applicable. JPEC shall at all reasonable hours have access to meters, service connections and other property owned by it and located on the Member's premises for purposes of placing, locating, building, constructing, operating, replacing, rebuilding, relocating, repairing, improving, enlarging, extending and maintaining on, over or under such lands and premises or removing there from its electrical distribution system, new or existing lines, wires, poles, anchors and other necessary parts.

(12) NO PREJUDICE OF RIGHTS

Failure by JPEC to enforce any of the terms of these Rules and Regulations shall not be deemed as a waiver of the right to do so.

SHEET NO. 89

RULES AND REGULATIONS

(13) NON-STANDARD SERVICE

The Member shall pay the cost of any special installation necessary to meet his/her requirements for service at other than standard voltage, or for the supply of closer voltage regulation than required by standard practices.

(14) BILLING

A bill for electric service is mailed to all Members each month a few days after the meter is read. Normally, the bill is for approximately 30 days of service, but may vary from 27 to 35 days depending on the number of working days in a month, bad weather or holiday schedules. Electric service is billed as per tariffs and/or special agreements as approved by JPEC's Board of Directors and the Kentucky Public Service Commission. Members may also be required to pay school, sales and/or franchise taxes as required by state and/or local governments.

If JPEC cannot obtain a reading of the Member's meter due to factors beyond JPEC's control, the reading may then be estimated. JPEC will estimate the Member's bill using information available to JPEC. This information may include previous billing information for this Member, billing information from similar services of other Members, weather data, and other applicable information. When the reading is estimated, it will be noted on the bill. After the next actual reading, the bill will be adjusted automatically if the estimated reading was too high or too low. Failure to receive a statement shall not release the Member from payment obligation.

JPEC shall not be responsible for any payment lost in the mail or for any payment made to any person not an employee of JPEC or to anyone who has not been authorized to accept such payments on behalf of JPEC. The gross rates shall apply to any such lost payments if not received by JPEC on or before the due date.

RULES AND REGULATIONS

(15) DEPOSITS

JPEC may require a minimum deposit to secure payment of bills except for Members qualifying for service connection pursuant to 807 KAR 5:006, Section 15, Winter Hardship Reconnection. Service may be refused or discontinued for failure to pay the requested deposit.

The residential deposit amount shall not exceed 2/12's of the average annual residential usage at the current rates. Interest, as prescribed by KRS 278.460, will be paid annually either by refund or credit to the Member's bill, except that no refund or credit will be made if the Member's bill is delinquent on the anniversary date of the deposit.

The residential deposit may be waived upon a Member's showing of satisfactory credit, based on the credit information received from a credit bureau as determined by JPEC at the time the service is requested by the Member. If a deposit has been waived and the Member fails to maintain a satisfactory payment record, a deposit may then be required. JPEC may require a deposit in addition to the initial deposit if the Member's classification of service changes or if there is a substantial change in usage. Upon termination of service, the deposit, any principal amounts and any interest earned and owing, will be credited to the final bill with any remainder refunded to the Member.

The non-residential deposit shall be based on existing load information or information provided by Member. The deposit will be equal to 2/12's of the existing usage or 2/12's of the anticipated usage based upon information provided by Member. JPEC may require a deposit in addition to the initial deposit if the Member's classification of service changes or if there is a substantial change in usage. Interest, as prescribed by KRS 278.460, will be paid annually either by refund or credit to the Member's bill, except that no refund or credit will be made if the Member's bill is delinquent on the anniversary date of the deposit.

If a deposit is held longer than eighteen (18) months, the deposit will be recalculated at the Member's request based on the Member's actual usage. If the deposit for the account differs from the recalculated amount ten percent (10%) for a Member, JPEC may collect any underpayment and shall refund any overpayment by check or credit to the Member's bill. No refund shall be made if the Member's bill is delinquent at the time of the recalculation.

SHEET NO. 91

RULES AND REGULATIONS

(16) LEVELIZED BILLING

JPEC will provide a voluntary levelized billing plan for any residential Member who wishes to reduce variations in monthly electric bills based on the latest twelve (12) months usage. The levelized billing plan will not allow the accumulation of large credit or debit balances on a Member's account. The plan enables members to pay a monthly, levelized amount instead of monthly billings for actual usage. JPEC determines the levelized amount based on the following calculation:

Average Monthly kWh Usage =
$$\frac{\text{Current month's kWh usage} + \text{Previous 11 months' kWh usage}}{12}$$

Average Monthly kWh Charge = Average Monthly kWh Usage X Current Rate

1/12 Previous kWh Charge Balance =
$$\frac{\text{Previous kWh charge balance}}{12}$$

Current Levelized Amount (round to nearest dollar) =
Average Monthly kWh Charge +/- 1/12 Previous kWh Charge Balance + Any Additional Fees Due

All current state, federal, and local taxes that are immediately paid by JPEC, service charges, arrears, and any recurring monthly charges such as security lights are added to the monthly levelized amount in order to calculate the current total levelized payment due.

Payment dates and payment terms remain the same as for normal billing. Participants in levelized billing must pay the full amount of the levelized payment each month by the due date.

Failure to pay the full levelized amount, failure to pay a collection fee, disconnect for nonpayment, illegal use of service, or theft of service will result in removal of the account from the levelized program. Accounts removed from the levelized program are placed on the normal billing program and any levelized balance is applied to the actual current billing.

SHEET NO. 92

RULES AND REGULATIONS

Requirements for levelized billing are: (1) twelve (12) months of service at the location; (2) account is paid up-to-date; (3) satisfactory credit history.

JPEC may, at its discretion, offer this program to Members with less than twelve (12) months of service at the location with appropriate changes made to the formulas.

(17) PARTIAL PAYMENT PLAN

Residential Members who are unable to pay their bills in accordance with JPEC's regular payment terms may come to JPEC's office during normal business hours to make arrangements for a partial payment plan and retention of service. Such arrangements must be made before the scheduled disconnect date as printed on the late notice. The agreement will be mutually agreed upon and be reasonable and in accordance with the provisions set forth in 807 KAR 5:006, Section 14, Refusal or Termination of Service and Section 15, Winter Hardship Reconnection. The agreement shall be in writing and signed by the Member or by verbal agreement as recorded by JPEC equipment. The agreement will state and the Member will be advised that should he/she fail to honor the payment schedule mutually agreed upon, the Member's service may be disconnected without prior additional notice. JPEC shall not be obligated or required to negotiate additional partial payment plans with Members who are currently delinquent under a previous payment plan.

(18) LOCATION OF METERS

Meters shall be easily accessible for reading, testing, making necessary adjustments and repairs and shall be located at a site designated by JPEC personnel.

(19) METER TESTS

JPEC will, at its own expense, make periodic tests and inspections of its meters in order to maintain a high standard of accuracy and to conform with the regulations of the Kentucky Public Service Commission. JPEC will make a test of any meter upon written request of any Member. The Member will be given the opportunity of being present at such a "request test". Should the test made at the Member's request show the meter to be accurate within two percent (2%) slow or fast, no adjustment will be made

to the Member's bill and the Member will be billed in accordance with the non-recurring fees as approved by JPEC's Board of Directors and the Kentucky Public Service Commission to cover the cost of the "request test". Such charge would be subject to the same collection policies as any other amount due and owing JPEC. Should the test show the meter to be in excess of two percent (2%) slow or fast, an adjustment shall be made to the Member's bill as prescribed by 807 KAR 5:006, Section 10 (5). Should the test show the meter to be in excess of two percent (2%) slow or fast, the cost of the meter test shall be borne by JPEC.

(20) SERVICES PERFORMED FOR MEMBERS

JPEC personnel are prohibited from making repairs or performing services to the Member's equipment or property except in cases of emergency or to protect the public or Member's person or property. When such emergency service(s) is/are performed, the Member shall be charged for such service(s) at the rate of time and material(s) used.

(21) RESALE OF POWER BY MEMBERS

All purchased electric power and energy used on the premises of the Member shall be supplied exclusively by JPEC and the Member shall not directly sell, sublet or otherwise dispose of the electric power and energy or any part thereof.

(22) NOTICE OF TROUBLE

Member or Member's representative should notify JPEC immediately should service be unsatisfactory for any reason or should there be any defects, trouble or accidents affecting the supply of electricity.

(23) POINT OF DELIVERY

The point of delivery is the point as designated by JPEC on the Member's premises where electric power and energy is to be delivered to a building or premises, namely, the point of attachment, which is normally the point closest to the utility line. A Member requesting a delivery point different from the one designated by JPEC will be required to pay the additional cost of the special construction. All wiring and

equipment, excluding the metering, beyond this point of delivery shall be supplied and maintained by the Member.

(24) FAILURE OF METER TO REGISTER

In the event a Member's meter should fail to register, the Member shall be billed from the date of such failure at the average consumption of the Member, based on the twelve (12) months period immediately preceding the failure and other information as deemed appropriate.

(25) MEMBER'S WIRING AND INSTALLATION

- A. The electric system of the Member's premises shall be installed to be in compliance with the standards of the most recent edition of NFPA 70, National Electrical Code, Rules and Regulations of JPEC and with the codes and regulations of any government authority having jurisdiction. Any required inspection by any governmental agency shall be secured by the Member. No connection or hookup shall be made until JPEC has received a certificate of inspection or certificate of exemption from the agency having jurisdiction.
- B. All wiring, pole lines, equipment and appliances beyond the metering point or delivery point shall be installed, owned and maintained by the Member. JPEC assumes no duty or liability for any appliances or wiring not installed by JPEC or for any injury to persons or property resulting from appliances or wiring installed by the Member on its side of the meter or delivery point.
- C. JPEC shall have the right, but does not assume the duty, to inspect the Member's entrance equipment installation at any reasonable time. JPEC may refuse to commence or continue service whenever entrance equipment installation could subject any person to imminent harm or result in substantial damage to the property of JPEC or others, but no inspection by JPEC, nor the failure by it to identify deficiencies in the Member's entrance equipment installation shall render JPEC liable or responsible for any loss or damage resulting from defects in installation, wiring or equipment. When a dangerous condition is found to exist on the Applicant/Member's premises, the service shall be refused or discontinued without notice, provided that JPEC notifies the Applicant/Member immediately of the reasons for the refusal or discontinuance and the corrective action to be taken by the Applicant/Member before service can be connected or restored.

(26) FRANCHISE FEE

The franchise fee of any local governmental unit shall be assessed only against Members located within the boundaries of the franchising unit of government and shall be listed as a separate item on the bill of the consumers located within the franchised area with a designation on the bill of the amount of the franchise fee and the unit of government to which the fee is payable.

(27) INSPECTIONS

JPEC shall not connect a new or modified electric service until the required certificate of approval has been issued by a certified electrical inspector, as required by local and/or state laws.

(28) PROTECTION OF JPEC EQUIPMENT

The Member shall protect the equipment of JPEC on his/her premises and shall not interfere with or alter or permit interference with or alteration of JPEC's meter or other property except by duly authorized representatives of JPEC. For any loss or damage to the property of JPEC due to or caused by or arising from carelessness, neglect, vandalism or misuses by the Member or other unauthorized persons, the cost of the necessary replacement and repairs shall be paid by the Member. After proper negotiations with JPEC and if unable to reach an agreement, a court of law having jurisdiction over the parties shall determine the cost.

(29) RELOCATION OF LINES

When JPEC is requested or required to relocate its facilities for any reason, any expense involved will be paid by the Member, firm, person or persons requesting the relocation, unless one or more of the following conditions are met:

- A. The relocation is made for the convenience of JPEC.
- B. The relocation will result in a substantial improvement in JPEC's facilities.
- C. The relocation is associated with other regularly scheduled conversion or construction work and can be completed at the same time.

(30) VOLTAGE FLUCTUATIONS CAUSED BY THE MEMBER

Electric service must not be used in such a manner as to cause unusual fluctuations or disturbances to JPEC's distribution system. JPEC may require the Member, at his/her own expense, to install suitable apparatus which will reasonably limit such fluctuations or disturbances.

(31) REFUSAL OR TERMINATION OF SERVICE

JPEC may refuse or terminate service to a Member under the following conditions, except as provided in 807 KAR 5:006:

- A. For noncompliance with JPEC's tariffed rules or Kentucky Public Service Commission regulations. JPEC may terminate service for failure to comply with applicable tariffed rules or Kentucky Public Service Commission regulations pertaining to that service. However, JPEC shall not terminate or refuse service to any Member for noncompliance with its tariffed rules or commission regulations without first having made a reasonable effort to obtain Member compliance. After such effort by JPEC, service may be terminated or refused only after the Member has been given at least ten (10) days written termination notice pursuant to 807 KAR 5:006.
- B. For dangerous conditions. If a dangerous condition relating to JPEC's service which could subject any person to imminent harm or result in substantial damage to the property of JPEC or others is found to exist on the Member's premises, the service shall be refused or terminated without advance notice. JPEC shall notify the Member immediately in writing and, if possible, orally of the reasons for the termination or refusal. Such notice shall be recorded by JPEC and shall include the corrective action to be taken by the Member or JPEC before service can be restored or provided.
- C. For refusal of access. When a Member refuses or neglects to provide reasonable access to the premises for installation, operation, meter reading, maintenance or removal of JPEC property, JPEC may terminate or refuse service. Such action shall be taken only when corrective action negotiated between JPEC and the Member has failed to resolve the situation and after the Member has been given at least ten (10) days written notice of termination pursuant to 807 KAR 5:006.

CANCELLING P.S.C. KY NO. 2

SHEET NO. 97

RULES AND REGULATIONS

- D. For outstanding indebtedness. Except as provided in 807 KAR 5:006, JPEC shall not be required to furnish new service to any Member who is indebted to JPEC for service furnished or other tariffed charges until that Member has paid his/her indebtedness.
- E. For noncompliance with state, local or other codes. JPEC may refuse or terminate service to a Member if the Member does not comply with state, municipal, local or other codes and rules and regulations applying to such service. JPEC may terminate service pursuant to 807 KAR 5:006 only after ten (10) days written notice is provided, unless ordered to terminate immediately by a governmental official.
- F. For nonpayment of bills. JPEC may terminate service at a point of delivery for nonpayment of charges incurred for JPEC service at that point of delivery; however, JPEC shall not terminate service to any Member for nonpayment of bill for any tariffed charge without first having mailed or otherwise delivered an advance termination notice which complies with the requirements of 807 KAR 5:006.
 - 1. Termination notice requirements for electric service. JPEC shall mail or otherwise deliver the Member ten (10) day written notice of intent to terminate. Under no circumstances shall service be terminated before twenty-seven (27) days after the mailing date of the original unpaid bill unless, prior to discontinuance, a residential Member presents to JPEC a written certificate, signed by a physician, registered nurse, public health officer or other qualified medical provider, that such discontinuance will aggravate an existing illness or infirmity on the affected premises, in which case discontinuance may be effective not less than thirty (30) days from the date JPEC notifies the Member, in writing, of state and federal programs which may be available to aid in payment of bills and the office to contact for such possible assistance. The termination notice to residential Members shall include written notification to the Member of the existence of local, state and federal programs providing for payment of JPEC bill under certain conditions, and the address and telephone number of the Department of Social Insurance of the Cabinet for Human Resources to contact for possible assistance.
 - 2. The termination notice requirements of this subsection shall not apply if termination notice requirements to a particular Member or Members are otherwise dictated by the terms of a special agreement or contract between JPEC and the Member which has been approved by JPEC's Board of Directors and the Kentucky Public Service Commission.

RULES AND REGULATIONS

(33) NEW SERVICE TO BARNES, CAMPS, PUMPS AND MISCELLANEOUS SERVICES NOT CONSIDERED PERMANENT PREMISES

- A. This rule shall apply to services where the amount of consumption and/or the permanency of service cannot be reasonably assured as determined by JPEC.
- B. All wiring shall be in accordance with JPEC's Rules and Regulations and the most recent edition of NFPA 70, National Electrical Code.
- C. A contribution-in-aid of construction shall be required from the Applicant/Member for all facilities installed to provide service under this section. Aid of construction payment shall be estimated and received by JPEC before construction is begun. When construction is completed, the Member shall be billed for the actual cost of construction and credit for advance payment shall be given.
- D. The Member requesting service may clear right-of-way, to JPEC specifications, inspection(s) and approval, for initial installation in order to reduce cost.

(34) DISTRIBUTION LINE EXTENSIONS

- A. A single phase extension to a permanent premises of one thousand (1,000) feet or less shall be made by JPEC to its existing distribution line without charge for a prospective Member who shall apply for and agree to use the service for one year or more and provides guarantee for such service. The "service drop" to the structure from the distribution line at the last power pole shall not be included in the foregoing measurements. This distribution line extension shall be limited to service where the installed transformer capacity does not exceed 25 kVA. Any extensions to a Member who may require polyphase service or whose installed transformer capacity will exceed 25 kVA will be required to pay in advance additional cost of construction which exceeds that for a single phase line where the installed transformer capacity does not exceed 25 kVA.
- B. Other Extensions:
 - 1. When an extension of JPEC's line to serve a Member or a group of Members amounts to more than one thousand (1,000) feet per Member, the total cost of excessive footage over one thousand (1,000) feet per Member shall be deposited by the Member or Members based on the estimated cost of the total extension. When construction is completed, the Member shall be billed for the actual cost of construction based on the

RULES AND REGULATIONS

- G. All mobile homes not on a foundation and/or not connected to sanitary sewer, septic system or disposal field shall be considered in a readily removable condition and will be considered as a temporary service.
- H. Mobile homes which are located in an established Mobile Home park or placed on a permanent foundation, with the transport equipment removed (axel(s) and tongue), and connected to a sanitary sewer system, septic tank or disposal field as required by the Commonwealth of Kentucky, shall be considered as a permanent home.

(36) EXTENSION OF UNDERGROUND SERVICE AND PRIMARY

JPEC will extend underground electric distribution systems for all new Members and subdivisions in accordance with Kentucky Public Service Commission Regulation 807 KAR 5:041, Section 21 and the following conditions and terms:

- A. Right of Way and Easements. Applicant/Member shall furnish suitable right of way and easements for JPEC's underground facilities. Applicant/Member shall perform such services as necessary to facilitate construction and accessibility by JPEC to area, including approximation of final grade.
- B. Land Rights. Suitable land rights shall be granted to JPEC, obligating the applicant and any subsequent property owners to provide continuing access to JPEC for the operations, maintenance and/or replacement of its facilities and to prevent any encroachments upon JPEC's easement or any substantial change in grade or elevation.
- C. Contractual Agreements. Individual contractual agreements may be required with respect to individual service applications, including but not limited to subdivisions, commercial or business services or unusual cases.
- D. Underground Cost Differential Charge. Applicants/Members shall not be required to pay a non-refundable "cost differential charge" for underground services when the terms and conditions specified below are met.
- E. Primary Extensions. Applicant/Member shall install a suitable conduit system for the installation by JPEC of its primary cables. The conduit system may include:
 - 1. Electric grade conduit as specified by JPEC.

SHEET NO. 121

CANCELLING P.S.C. KY NO. 2

SHEET NO. 103

RULES AND REGULATIONS

- 2. Long radius elbows or bends shall be required. The maximum number of bends in any single run of conduit shall be limited to the equivalent of three (3) ninety degree (90°) bends.
 - 3. JPEC furnished equipment, such as vaults or pull boxes.
 - 4. Pull string of sufficient strength to allow JPEC to install the necessary pulling rope.
 - 5. JPEC will provide the riser and any junction or pull vaults. The conduit system shall be installed to meet all applicable codes and regulations and JPEC specifications. JPEC reserves the right to inspect any conduit system during installation and prior to backfilling of trench(es) by Applicant/Member. JPEC shall not accept an Applicant/Member installed conduit system unless inspection was made by JPEC prior to backfilling any trench.
 - 6. Upon acceptance of the conduit system by JPEC, JPEC shall assume ownership, liability, and future maintenance of the conduit system.
- F. Secondary or Service Extensions. Applicant/Member shall install a suitable conduit system for the installation by JPEC of its secondary/service cables. The conduit system may include:
- 1. Electric grade conduit as specified by JPEC.
 - 2. Standard radius elbows and bends shall be required. The maximum number of bends in any single run of conduit shall be limited to the equivalent of three (3) ninety degree (90°) bends.
 - 3. Pull string of sufficient strength to allow JPEC to install the necessary pulling rope.
 - 4. JPEC will provide the riser and any secondary junction or pull vaults or enclosures. The conduit system shall be installed to meet any applicable codes and regulations and JPEC specifications. JPEC reserves the right to inspect any conduit system during installation and prior to backfilling of trench by Applicant/Member. JPEC shall not accept an Applicant/Member installed conduit system unless inspection was made by JPEC prior to backfilling any trench.
 - 5. Upon acceptance of the conduit system by JPEC, JPEC shall assume ownership, liability, and future maintenance of the conduit system.
- G. Subdivisions – Each subdivision will be evaluated to determine the necessary facilities to be installed. The subdivision developer or Member will be required to comply with the Primary Extension and Secondary or Service Extensions requirements as defined above.
- H. Overhead to Underground – When an existing Member requests underground facilities and is currently served with adequate overhead facilities, the entire cost of the requested change from
