Re: Notice to Customers from Kentucky Utilities Company on proposed changes in service and cost of service increase.

To whom this may concern,

Under the above mentioned notice, posted July 29th, 2008 and due to take effect September 1, 2008, being a customer of Kentucky Utilities, I understand the stated and requested price increases.

What I challenge are changes to the Late Payment fee.

On average, Kentucky Utility bills are currently received no more than 11 days prior to the due date, which makes it the quickest turnaround of any bill I currently pay.

It is my opinion that Kentucky Utilities is attempting this change for the sole purpose of creating additional non-production revenue through junk fees. Such fees would jeopardize many of the states lower income families.

I would request that the late fee provision be approved only if Kentucky Utilities extends its grace period to match most other businesses at no less than 25 days.

Sincerely,

Kevin Myers, Customer
Kentucky Utilities Comany
