I think LGE asking for another increase in rates, is a slap in the face for working people, please consider that the country is in a recession. We are now paying higher fee's for just about everything and most people are having a hard time just meeting payments. If the Commission approves LGE's rate increase most people will not be able to pay these bills. Also please consider each time a public meeting is scheduled, it always schedule around 5: 00 at night, please consider that most people are either at work or coming home from work. I'm sure you would have quite a turn out if public meetings could be scheduled at some other time.
