Dear Commissioner:

I know your office is to make a decision today on the request from Louisville Gas & Electric to raise their rates. PLEASE PUT THE WELFARE OF THE CONSUMERS FIRST AND STOP LETTING THE UTILITY COMPANIES PASS ALL OF THEIR RATE INCREASES TO US. The fuel charge on my bill this month was \$45 and the EPA charge was \$15. WHY? The price of gas has gone down, yet our bills do not reflect this. The average consumers are barely making ends meet now, with the high price of utilities, food, gasoline, medicine, and insurance. Yet the CEOs of these companies continue to live the rich lifestyle they are used to. It is about time that your office said NO to the companies that continue to pass all of their increases on to the consumers. Let the CEOs take a pay cut or lower bonus!

I would appreciate a response from your office to this letter, but I doubt very seriously if I will get one.

Thank you for your consideration in this matter.

Yours truly,  
Teresa Canary
