COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF CENTRAL STATES TOWER)
HOLDINGS, LLC FOR ISSUANCE OF A)
CERTIFICATE OF PUBLIC CONVENIENCE AND) CASE NO.
NECESSITY TO CONSTRUCT A CELL SITE (KY-00-) 2008-00262
8016A STUMPS RUN) IN GRAYSON, KENTUCKY)

O R D E R

On October 30, 2008, Central States Tower Holdings, LLC and New Cingular Wireless PCS, LLC ("Applicants") filed an application seeking a Certificate of Public Convenience and Necessity to construct and operate a wireless telecommunications facility.¹ The proposed facility consists of a self-supporting antenna tower not to exceed 300 feet in height, with attached antenna, to be located at 220 Kees Branch, Grayson, Carter County, Kentucky. The coordinates for the proposed facility are North Latitude 38° 23' 48.27" by West Longitude 83° 1' 9.2".

The Applicants have provided information regarding the structure of the tower, safety measures, and antenna design criteria for the proposed facility. Based upon the application, the design of the tower and foundation conforms to applicable nationally recognized building standards, and a Licensed Professional Engineer has certified the plans.

Pursuant to 807 KAR 5:063, the Applicants have notified the County Judge/Executive of the proposed construction. The Applicants have filed applications with the Federal Aviation Administration and the Kentucky Airport Zoning Commission

¹ The original application was received on August 4, 2008. The application was supplemented and deemed filed on October 30, 2008.

seeking approval for the construction and operation of the proposed facility. Both applications have been approved.

The Applicants have filed evidence of the appropriate notices provided pursuant to 807 KAR 5:063. The notices solicited comments and informed the recipients of their right to request intervention. On September 22, 2008, the Commission received a letter requesting information regarding the proposed construction from Bill Huffman. The Commission responded to Mr. Huffman's request by letter on September 23, 2008. The Commission has received no further correspondence from Mr. Huffman.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that the Applicants have demonstrated that a facility is necessary to provide adequate utility service and that, therefore, a Certificate of Public Convenience and Necessity to construct the proposed facility should be granted.

Pursuant to KRS 278.280, the Commission is required to determine proper practices to be observed when it finds, upon complaint or on its own motion, that the facilities of any utility subject to its jurisdiction are unreasonable, unsafe, improper, or insufficient. To assist the Commission in its efforts to comply with this mandate, the Applicants should notify the Commission if they do not use this antenna tower to provide service in the manner set out in their application and this Order. Upon receipt of such notice, the Commission may, on its own motion, institute proceedings to consider the proper practices, including removal of the unused antenna tower, which should be observed by the Applicants.

IT IS THEREFORE ORDERED that:

1. The Applicants are granted a Certificate of Public Convenience and Necessity to construct a wireless telecommunications facility. The proposed facility consists of a self-supporting antenna tower not to exceed 300 feet in height, with attached antenna, and is to be located at 220 Kees Branch, Grayson, Carter County, Kentucky. The coordinates for the proposed facility are North Latitude 38° 23' 48.27" by West Longitude 83° 1' 9.2".

2. The Applicants shall immediately notify the Commission in writing if, after the antenna tower is built and utility service is commenced, the tower is not used for a period of 3 months in the manner authorized by this Order.

3. The Applicants shall also notify the Commission in writing, within 20 days of completion, that they have finished construction of the tower and the date upon which said construction was complete.

Done at Frankfort, Kentucky, this 26th day of November, 2008.

By the Commission

ATTEST:

Executive Director
