**RE: CONSIDERATION OF THE NEW FEDERAL STANDARDS OF  
THE ENERGY INDEPENDENCE AND SECURITY ACT OF 2007  
Administrative Case No. 2008-00408**

Dear Mr. DeRouen:

Please be advised that Kentucky Utilities Company (“KU”) and Louisville Gas and Electric Company (“LG&E”) (jointly the “Companies”) are satisfied that the record is complete in the above-referenced proceeding. Specifically, the Companies’ recommendations regarding the implementation of any of the standards of the Energy Independence and Security Act of 2007 (“EISA 2007”) have been made known in their responses to data requests and submission of testimony in this proceeding. Therefore, the Companies request the Commission to issue an order on the issues based upon the record and without a hearing.

KU and LG&E believe the effort to address the issues set forth in the document titled “Commission Staff Smart Meter and Smart Grid Guidance” attached to the February 19, 2010 letter is separate from the EISA 2007 implementation issues and should be the primary area of focus for this proceeding going forward.

Should you have any questions, please contact me at your convenience.

Sincerely,

Rick E. Lovekamp
