Volume	Tab	Filing Requirement	Description	Sponsoring Witness(es)
1	1	807 KAR 5:001 Section 10(1)(b)(1)	A statement of the reason the adjustment is required.	Robert M. Marshall David G. Eames
I	2	807 KAR 5:001 Section 10(1)(b)(2)	A statement that the utility's annual reports, including the annual report for the most recent calendar year, are on file with the commission in accordance with 807 KAR 5:006, Section 3(1).	Ann F. Wood
I	3	807 KAR 5:001 Section 10(1) (b)(3) and (5)	If the utility is incorporated, a certified copy of the utility's articles of incorporation and all amendments thereto or out of state documents of similar import. If the utility's articles of incorporation and amendments have already been filed with the Commission in a prior proceeding, the application may state this fact making reference to the style and case number of the prior proceeding <u>and a</u> certificate of good standing or certificate of authorization dated within sixty (60) days of the date the application is filed.	Ann F. Wood
ł	4	807 KAR 5:001 Section 10(1)(b)(4) and (5)	If applicant is a limited partnership, a certified copy of the limited partnership agreement <u>or</u> if the agreement was filed with the PSC in a prior proceeding, a reference to the style and case number of the prior proceeding <u>and</u> a certificate of good standing or certificate of authorization dated within sixty (60) days of the date the application is filed.	Ann F. Wood
1	5	807 KAR 5:001 Section 10(1)(b)(6)	A certified copy of a certificate of assumed name as required by KRS 365.015 or a statement that such a certificate is not necessary.	Ann F. Wood
1	6	807 KAR 5:001 Section 10(1)(b)(7)	The proposed tariff in form complying with 807 KAR 5:011 with an effective date not less than thirty (30) days from the date the application is filed.	Ann F. Wood
I	7	807 KAR 5:001 Section 10(1)(b)(8)	Proposed tariff changes shown either by providing present and proposed tariffs in comparative form or indicating additions by italicized inserts or underscoring and striking over deletions in a copy of the current tariff.	Ann F. Wood
ł	8	807 KAR 5:001 Section 10(1)(b)(9)	Statement that notice given, see subsections (3) and (4) of 807 KAR 5:001, Section 10 with copy.	Ann F. Wood
l	9	807 KAR 5:001 Section 10(2)	If gross annual revenues exceed \$1,000,000 written notice of intent filed at least four (4) weeks prior to application. Notice shall state whether the application will be supported by historical or a fully forecasted test period.	Ann F. Wood
l	10	807 KAR 5:001 Section 10 (3)	 Form of notice to customers. Every utility filing an application pursuant to this section shall notify all affected customers in the manner prescribed herein. The notice shall include the following information: (a) Amount of change requested in dollar amounts and percentage for each customer classification to which change will apply. 	Ann F. Wood MSSION

East Kentucky Pour Cooperative, Inc.

Volume	Tab	Filing Requirement	Description	Sponsoring Witness(es)
, onume			 (b) Present and proposed rates for each customer class to which change would apply. (c) Electric, gas, water and sewer utilities - the effect upon average bill for each customer class to which change will apply. (d) Local exchange companies - include effect upon average bill for each customer class for change in basic local service. (e) A statement that the rates contained in this notice are the rates proposed by (name of utility); however, the Public Service Commission may order rates to be charged that differ from the proposed rates contained in this notice; (f) A Statement that any corporation, association, or person with a substantial interest in the matter may, by written request, within thirty (30) days after publication or mailing of this notice of the proposed rate changes request to intervene; Intervention may be granted beyond the thirty (30) day period for good cause shown. (g) A statement that any person who has been granted intervention by the commission may obtain copies of the rate application and any other filings made by the utility by contacting the utility through a name and address and phone number stated in this notice; (h) A statement that any person may examine the rate application and any other filings made by the utility at the main office of the utility or at the commission's office indicating the addresses and telephone numbers of both the utility and the commission; and (i) The commission may grant a utility with annual gross revenues greater than \$1,000,000, upon written request, permission to use an abbreviated form of published notice of the proposed rates provided the notice includes a coupon which may be used to obtain all of the information required 	
1	11	807 KAR 5:001 Section 10(4)(a)	herein. Manner of notification. Sewer utilities shall give the required typewritten notice by mail to all of their customers pursuant to KRS 278.185.	Ann F. Wood
ĺ	12	807 KAR 5:001 Section 10(4)(b)	Manner of notification. Applicant has 20 customers or less, written notice of proposed rate changes and estimated amount of increase per customer class shall be mailed to each customer no later than date of application.	Ann F. Wood
1	13	807 KAR 5:001 Section 10(4)(c)	Except for sewer utilities, applicants with more than twenty (20) customers affected by the proposed general rate adjustment shall give the required notice by	Ann F. Wood

East Kentucky Power Cooperative, Inc. Case No. 2008-00409 Fully Forecasted Test Period Volume 5, Tab 36

Filing Requirement 807 KAR 5:001 Section 10(9)(n) Sponsoring Witness: Ann F. Wood

Description of Filing Requirement:

Latest 12 months of the monthly managerial reports providing financial results of operations in comparison to forecast,

Response:

The monthly managerial reports for September 2007 through August 2008 are included on pages 2 through 25 of this response.

East Kentucky Power Cooperative, Inc. Case No. 2008-00409 Fully Forecasted Test Period Volume 5, Tab 37

Filing Requirement 807 KAR 5:001 Section 10(9)(0) Sponsoring Witness: Frank J. Oliva

Description of Filing Requirement:

Complete monthly budget variance reports, with narrative explanations, for the 12 months prior to base period, each month of base period, and subsequent months, as available;

Response:

Complete monthly budget variance reports, with narrative explanations, for the 12 months prior to base period through August 2008, the most recent month available are included on pages 2 through 20 of this response.

EKPC explained all variances greater than \$1,000,000.

REPORT OF INDEPENDENT AUDITORS

To the Audit Committee East Kentucky Power Cooperative, Inc. and Subsidiary

We have audited the accompanying consolidated balance sheets of East Kentucky Power Cooperative, Inc. and Subsidiary (the Cooperative) as of December 31, 2007 and 2006, and the related consolidated statements of revenue and expenses, changes in members' equities, and cash flows for the years then ended. These financial statements are the responsibility of the Cooperative's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of East Kentucky Power Cooperative, Inc. and Subsidiary as of December 31, 2007 and 2006, and the results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 19, 2008 on our consideration of East Kentucky Power Cooperative, Inc. and Subsidiary's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of the testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

In 2007, the Cooperative adopted Statement of Financial Accounting Standards No. 158, Employers' Accounting for Defined Benefit and Other Postretirement Plans, as discussed in Note 6.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

<u>Nature of Operations</u>: The Cooperative is engaged in generating and transmitting electrical power primarily to its sixteen member cooperatives throughout central and eastern Kentucky. The financial statements are prepared in accordance with policies prescribed or permitted by the Kentucky Public Service Commission (PSC) and the United States Department of Agriculture, Rural Utilities Service (RUS), which conform with accounting principles generally accepted in the United States of America as applied to regulated enterprises.

<u>Principles of Consolidation</u>: The consolidated financial statements include the accounts of East Kentucky Power Cooperative, Inc. and its subsidiary, Charleston Bottoms Rural Electric Cooperative Corporation (CBRECC). All significant intercompany accounts and transactions have been eliminated.

<u>Estimates in the Financial Statements</u>: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

<u>Electric Plant</u>: Electric plant is stated at original cost, which is the cost when first dedicated to public service, including applicable labor and overhead cost and an allowance for interest on borrowed funds used during construction.

The cost of maintenance and repairs, including renewals of minor items of property, is charged to operating expense. The cost of replacement of depreciable property units, as distinguished from minor items, is charged to utility plant. The cost of units replaced or retired, including cost of removal, net of any salvage value, is charged to accumulated depreciation.

Provision for depreciation has been made on the basis of estimated useful lives at straight-line composite rates or end dates generally as follows:

Production plant	years 2019 - 2045
Transmission and distribution plant	0.71% - 3.42%
General plant	2.00% - 20.00%

<u>Long-Term Assets</u>: Electric plant and other long-term assets are reviewed for impairment when events indicate their carrying amount may not be recoverable from future undiscounted cash flows. If impaired, the assets are recorded at fair value. No impairment has been recognized on long-term assets for the years ended December 31, 2007 or 2006.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>Allowance for Interest on Borrowed Funds Used During Construction</u>: In accordance with practices permitted by the prescribed system of accounts, the Cooperative provides an allowance for interest on borrowed funds used during construction. The allowance represents the calculated net interest cost of funds borrowed for construction of major projects which take longer than one year and cost in excess of \$100,000.

<u>Investment Securities</u>: Investment securities are classified as held to maturity and carried at amortized cost when management has the positive intent and ability to hold them to maturity. Investment securities are classified as available for sale when they might be sold before maturity. Investment securities available for sale are carried at fair value, with unrealized holding gains and losses reported in other comprehensive income. Trading securities are carried at fair value, with changes in unrealized holding gains and losses included in income.

Interest income includes amortization of purchase premium or discount. Gains and losses on sales are based on the amortized cost of the security sold. Investment securities are written down to fair value when a decline in fair value is not temporary.

<u>Revenue and Fuel Costs</u>: Revenue is recorded monthly based on meter readings made at monthend.

The PSC has adopted a uniform fuel adjustment clause for all electric utilities within its jurisdiction. Under this clause, fuel cost above or below a stated amount per kWh is charged or credited to the member cooperatives for all energy sales.

The PSC has an environmental cost recovery mechanism that allows utilities to recover certain costs incurred in complying with the Federal Clean Air Act. This environmental surcharge is being billed on a percentage of revenue basis.

The PSC granted an interim increase in base rates of \$19 million on an annualized basis for service rendered on and after April 1, 2007. The PSC made this interim increase permanent in December 2007.

The Cooperative's sales are primarily to its member cooperatives and amounted to approximately \$732,348,000 and \$645,476,000 for 2007 and 2006, respectively. Accounts receivable at December 31, 2007 and 2006 were primarily from billings to member cooperatives.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

At December 31, 2007 and 2006, individual account balances that exceeded 10 percent of total accounts receivable are as follows:

	2007	<u>2006</u>
Owen Electric Cooperative	\$ 9,354,000	\$ 8,748,000
South Kentucky RECC	-	6,408,000
Blue Grass Energy Cooperative	-	6,304,000

<u>Cash and Cash Equivalents</u>: For purposes of the consolidated financial statements, the Cooperative considers temporary investments having a maturity of three months or less when purchased to be cash equivalents.

At December 31, 2007 and 2006, respectively, the Cooperative had \$589,690 and \$1,205,394 of cash on deposit at one bank, which is in excess of federally insured limits.

<u>Fuel and Materials and Supplies</u>: Inventories of fuels and materials and supplies are stated at average cost.

<u>Emission Allowances</u>: Title IV of the Clean Air Act Amendments of 1990 provides for the issuance of allowances as a means to limit the emissions of certain airborne pollutants. Allowances are stated at cost. Issuances of allowances are recognized using a monthly weighted-average method of cost determination. Gains and losses are recorded upon the disposition of allowances.

<u>Members' Equities</u>: Memberships represent contributions to the Cooperative made by members. Should the Cooperative cease business, these amounts, if available, will be returned to the members. In addition, any available capital credits will also be allocated to members on a contribution-to-gross margins basis.

A provision in the Cooperative's bylaws prohibits the return of capital contributed by patrons unless, after any proposed retirement, the total capital of the Cooperative equals or exceeds 40 percent of total assets. In addition, provisions of certain loan agreements prohibit the retirement of capital until stipulated requirements as to liquid assets (cash and U.S. Government obligations) are met. Accordingly, at December 31, 2007, no patronage capital was available for refunds or retirement.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>Comprehensive Income</u>: Comprehensive income includes both net margin (deficit) and other comprehensive income. Other comprehensive income represents the change in unrealized gains and losses on securities available for sale.

<u>Income Taxes</u>: The Cooperative is exempt under section 501(c)(12) of the Internal Revenue Code from federal income tax for any year in which at least 85 percent of its gross income is derived from members but is responsible for income taxes on certain unrelated business income.

<u>Reclassifications</u>: Certain 2006 amounts have been reclassified in these consolidated financial statements to conform to the 2007 presentation. Such reclassifications had no effect on net margin or members' equities as previously presented.

NOTE 2 - ELECTRIC PLANT

Electric plant in-service consisted of the following at December 31:

	<u>2007</u>	<u>2006</u>
	(in the	ousands)
Production plant	\$ 1,566,397	\$ 1,558,660
Transmission plant	479,090	432,580
General plant	69,223	68,517
Completed construction, not classified and other	42,424	20,175
Electric plant in service	<u>\$ 2,157,134</u>	<u>\$_2,079,932</u>

Depreciation expense was \$40,563,000 and \$39,384,000 for 2007 and 2006, respectively.

NOTE 3 - LONG-TERM ACCOUNTS RECEIVABLE

Long-term receivables include modifications to Spurlock Power Station in order to provide steam to a paper mill that recycles container board. The paper mill is reimbursing the Cooperative for the cost of the modifications through a monthly facilities charge over the 20year life of the contract. Long-term receivables also include interest-bearing notes from joint ventures owned by the Cooperative and four of the Cooperative's member systems for the buyout of a propane company. The joint ventures of the member systems are making principal and interest (prime rate minus one-half of one percent, adjust annually) payments. The notes are payable in full in 2015.

NOTE 4 - INVESTMENT SECURITIES

Amortized cost and estimated fair value of investment securities available for sale at December 31 are as follows (in thousands):

<u>2007</u>	Gross Amortized Unrealized <u>Cost Gains</u>		Gross Unrealized <u>Losses</u>	Fair <u>Value</u>
National Rural Utilities Cooperative Finance Corporation Promissory Note U.S. Treasury bill Zero Coupon Bond Other	\$ 24 41,660 3,320 1,061	\$	\$	\$ 24 41,744 3,706 1,077
	<u>\$ 46,065</u>	<u>\$ 486</u>	<u>\$</u>	<u>\$_46,551</u>
<u>2006</u>

	<u>\$ 43,520</u>	<u>\$436</u>	<u>\$</u>	<u>\$ 43,956</u>

NOTE 4 - INVESTMENT SECURITIES (Continued)

Proceeds from maturities and calls of securities were \$10,000 and \$19,611,000 in 2007 and 2006, respectively. There were no realized gains or losses on those calls.

Amortized cost and estimated fair value of investment securities held to maturity at December 31 are as follows (in thousands):

<u>2007</u>	Amortized <u>Cost</u>				Unr	Gross ealized Gain <u>s</u>	Un	Gross realized . <u>osses</u>		Fair ⁷ alue
National Rural Utilities Cooperative Finance Corporation 3-5% capital term certificates 6.5875% subordinated term	\$	7,655	\$	-	\$	(103)	\$	7,552		
certificate 0% subordinated term certificate		440 100		103		- (21)		543 79		
<u>2006</u>	<u>\$</u>	8,195	<u>\$</u>	103	<u>\$</u>	<u>(124)</u>	<u>\$</u>	8,174		
National Rural Utilities Cooperative Finance Corporation 3-5% capital term certificates 6.5875% subordinated term	\$	7,655	69	-	\$	(459)	\$	7,196		
6.5875% subordinated term certificate 0% subordinated term certificate	44444444	455 106		87		<u>(26)</u>		542 <u>80</u>		
	<u>\$</u>	<u>8,216</u>	<u>\$</u>		<u>\$</u>	(485)	<u>\$</u>	7,818		

NOTE 4 - INVESTMENT SECURITIES (Continued)

Investment securities held to maturity with unrealized losses at December 31 not recognized in net margin are as follows (in thousands):

	Unrealized Loss					Unrealized Loss			
	Les	<u>s than 1</u>	<u>2 month</u>	<u>15</u>	12 Months or More				
	Fa	air	Unrea	lized		Fair	Unreali		
	<u>Va</u>	lue	Lo	SS	7	/alue	<u>I</u>	. <u>085</u>	
<u>2007</u> 3-5% capital term certificates 0% subordinated term certificate	\$	-	\$	-	\$	7,552 79	\$	(103) <u>(21</u>)	
	<u>\$</u>		<u>\$</u>		<u>\$</u>	7,631	<u>\$</u>	<u>(124</u>)	
<u>2006</u> 3-5% capital term certificates 0% subordinated term certificate	\$	-	\$		\$	7,196 <u>80</u>	\$	(459) <u>(26</u>)	
	<u>\$</u>		\$	-	<u>\$</u>	<u>7,276</u>	<u>\$</u>	(485)	

The maturity dates on the above securities range from 2019 to 2080 and have no available trading market. However, it is management's intent to hold these securities until maturity, at which time management expects to recover full value.

The amortized cost and fair value of securities at December 31, 2007, by contractual maturity, are shown below. Expected maturities may differ from contractual maturities because certain borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

•	Amortized <u>Cost</u> (in thou	Fair <u>Value</u> sands)

NOTE 5 - LONG-TERM DEBT

Long-term debt outstanding at December 31, 2007 and 2006 (in thousands):	consisted of	the following
	2007	2006
First mortgage notes: 4.199% - 10.657%, payable quarterly to Federal		
Financing Bank (FFB) in varying amounts through 2040	\$ 1,457,086	\$ 1,108,580
2%, 5%, and 5.125% payable quarterly to RUS in varying amounts through 2024	44,311	49,507
3.8%, payable quarterly to CFC in varying amounts through 2024	19,059	20,440
Fixed rate loan, 7.7%, payable semiannually in varying amounts to National Cooperative Services Corporation through 2012	7,200	8,400
Promissory notes: 5.70% - 6.33% variable rate note payable to CFC in 2010	390,000	405,000
Pollution control bonds: Series 1984B, variable rate bonds, due October 15, 2014, 3.49% at December 31, 2007 and 4.03% at December 31, 2006	74,950	82,100
Series 1984J, variable rate bonds, due October 15, 2011, 3.50% at December 31, 2007 and 3.55% at December 31, 2006	15,070	18,260
Solid waste disposal revenue bonds, Series 1993B, variable rate bonds, due August 15, 2023, interest rate 3.75% at December 31, 2007 and 3.68% at December		
31, 2006	<u> </u>	<u>8,800</u> 1,701,087
Less current portion of long-term debt	61,137	57,782
	<u>\$ 1,955,039</u>	<u>\$ 1,643,305</u>

NOTE 5 - LONG-TERM DEBT (Continued)

In September 2002, RUS approved a loan application in the amount of \$223,500,000 for the design, purchase, and installation of NOx reduction equipment and electrostatic precipitators, including plant modifications and related expenditures on Spurlock Power Station Units No. 1 and 2. Advances on these loans are subject to certain conditions outlined by RUS, and the non-governmental portions of such loans are subject to authorization from the PSC. At December 31, 2007, \$15,200,000 of these amounts remained to be advanced.

In September 2003, RUS approved a loan application in the amount of \$433,863,000 for the construction of the Gilbert Unit at the Spurlock Power Station, including engineering services, preliminary structural design, and related transmission facilities. Advances on these loans are subject to certain conditions outlined by RUS and the non-governmental portions of such loans are subject to authorization from the PSC. At December 31, 2007, \$3,612,000 of these amounts remained to be advanced.

In September 2003, RUS approved a loan application in the amount of \$27,645,000 for the construction of five landfill gas to energy generating units including engineering services, preliminary structural design, and related transmission facilities. Advances on these loans are subject to certain conditions outlined by RUS and the non-governmental portions of such loans are subject to authorization from the PSC. As of December 31, 2007, \$14,453,000 of these amounts remained to be advanced.

In May 2005, RUS approved a loan application in the amount of \$55,240,000 for the construction of two additional combustion turbines at the J.K. Smith site, including engineering services, preliminary structural design, and related transmission facilities. Advances on these loans are subject to certain conditions outlined by RUS and the non-governmental portions of such loans are subject to authorization from the PSC. As of December 31, 2007, \$2,240,000 of these amounts remained to be advanced.

In May 2005, EKPC submitted to RUS a loan application in the amount of \$906,973,000 for the construction of the Smith #1 Unit and the construction of five additional combustion turbines at the J.K. Smith site, including engineering services, preliminary structural design, and related transmission facilities. In June 2007, EKPC re-submitted this same loan application for the Smith #1 Unit, along with the construction of only two combustion turbines and related transmission facilities for a revised loan amount of \$943,932,000. This loan has not been approved by RUS.

In August 2005, RUS approved a loan application in the amount of \$64,240,000 for the construction of various transmission projects. Advances on these loans are subject to certain conditions outlined by RUS and the non-governmental portions of such loans are subject to authorization from the KPSC. As of December 31, 2007, \$39,240,000 of these amounts remained to be advanced.

NOTE 5 -- LONG-TERM DEBT (Continued)

In September 2005, the Cooperative entered into an unsecured credit facility syndicate with the co-arrangers of CFC and the Bank of Tokyo-Mitsubishi. This loan was approved for a total of \$650,000,000 for general operating expenses and capital construction projects. As of December 31, 2007, \$260,000,000 of this amount remained to be advanced.

In March 2006, RUS approved a loan application in the amount of \$481,388,000 for the construction of the Unit #4 at the Spurlock Power Station, including engineering services, preliminary structural design, and related transmission facilities. Advances on these loans are subject to certain conditions outlined by RUS and the non-governmental portions of such loans are subject to authorization from the KPSC. As of December 31, 2007, \$231,388,000 of these amounts remained to be advanced.

In May 2007, EKPC submitted to RUS a loan application in the amount of \$457,510,000 for the engineering and construction of a new scrubber on the Spurlock Unit #1 and the replacement of the existing scrubber on the Spurlock Unit #2. This loan has not been approved by RUS.

In accordance with the Rural Electrification Act of 1936 (RE Act), as amended, the RUS established a cushion of credit program. Under this program, RUS borrowers may make voluntary deposits into a special cushion of credit account. This cushion of credit account balance accrues interest at a rate of 5 percent per annum. The amounts in the cushion of credit account (deposits and earned interest) can only be used to make scheduled payments on loans made or guaranteed under the RE Act. As of December 31, 2007 and 2006, the Cooperative's cushion of credit account balance was \$0 and \$75,875,000, respectively.

The interest rate on the Series 1984B Pollution Control Bonds is subject to change weekly and the interest rate on the Series 1984J Pollution Control Bonds and the Series 1993B Solid Waste Disposal Revenue Bonds are subject to change semiannually. The interest rate adjustment period on any series of the above-mentioned variable rate bonds may be converted to a weekly, semiannual, annual or three-year basis or to a fixed-rate basis, at the option of the Cooperative.

Long-term pollution control and solid waste disposal revenue bonds require that debt service reserve funds be on deposit with a trustee throughout the term of the bonds. Debt service reserve requirements are as follows: Series 1984B - \$12,717,000; Series 1984J - \$5,368,500; and Series 1993B - \$1,062,000. In addition, mandatory sinking fund payments are required for each series as follows: Series 1984B - payments range from \$7,950,000 in 2008 to \$13,150,000 in 2013; Series 1984J - payments range from \$3,535,000 in 2008 to \$4,325,000 in 2010; and Series 1993B - payments range from \$400,000 in 2008 to \$700,000 in 2023. Debt service reserve and construction funds are held by trustees and are invested primarily in U.S. Government securities and CFC promissory notes. These funds are included in investment securities available for sale and have a fair value of approximately \$21,599,000 at December 31, 2007.

NOTE 5 - LONG-TERM DEBT (Continued)

Estimated maturities of long-term debt for the five years subsequent to December 31, 2007 are as follows: 2008 - \$61,137,000; 2009 - \$67,248,000; 2010 - \$461,605,000; 2011 - \$75,178,000; 2012 - \$70,901,000; and thereafter - \$1,280,107.

Under the terms of the loan agreements with RUS, CFC and institutional investors, the Cooperative is required to maintain certain levels of members' equities, interest coverage, and debt service coverage, all of which were met at December 31, 2007.

Substantially all assets are pledged as collateral for first mortgage notes payable to the United States of America (RUS and FFB) and CFC.

NOTE 6 – RETIREMENT BENEFITS

<u>Pension Plan</u>: Pension benefits for substantially all employees are provided through participation in the National Rural Electric Cooperative Association's Retirement and Security Program, a multi-employer defined benefit plan. The Cooperative's required contributions were approximately \$8,968,000 and \$7,883,000 for 2007 and 2006, respectively. The Cooperative expects to contribute approximately \$6,809,000 to the plan in 2008.

Effective January 1, 2008, the Cooperative revised its defined benefit plan by reducing the benefit level from 2.0% with a cost of living adjustment to 1.8% without a cost of living adjustment. This revision will apply to all employees currently participating in the defined benefit plan. This action will apply to service beginning January 1, 2008.

<u>Retirement Savings Plan</u>: The Cooperative has a Retirement Savings Plan for all employees who are eligible to participate in the Cooperative's benefit programs. The plan allows participants to make contributions by salary reduction, pursuant to Section 401(k) of the Internal Revenue Code. The Cooperative makes matching contributions to the account of each participant up to 2 percent of the participant's compensation. The Cooperative contributed approximately \$790,000 and \$775,000 to the plan in 2007 and 2006, respectively. Employees vest immediately in their contributions and the contributions of the Cooperative. The Cooperative expects to contribute approximately \$722,000 to the plan in 2008.

<u>Supplemental Death Benefit Plan</u>: The Cooperative provides a Supplemental Death Benefit Plan to all employees eligible to participate in the pension plan. The supplemental death benefit is payable to a deceased employee's beneficiary if the lump sum value of a 100% survivor benefit under the pension plan exceeds the pension plan benefits plus the Cooperative's group life insurance proceeds. Management believes that any liability related to this plan will not have a material effect on the consolidated financial statements.
EAST KENTUCKY POWER COOPERATIVE, INC. Page 22 of 54 AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS December 31, 2007 and 2006

NOTE 6 - RETIREMENT BENEFITS (Continued)

<u>Postretirement Medical Benefits</u>: The Cooperative sponsors a defined benefit plan that provides medical and life insurance coverage to retirees and their dependents. Participating retirees and dependents contribute 50 percent of the projected cost of coverage. For purposes of the liability estimates, the substantive plan is assumed to be the same as the extant written plan. The plan is not funded.

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 158 (SFAS 158). SFAS 158 requires an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability on its balance sheet, beginning with year end 2007, and to recognize changes in that funded status in the year in which the changes occur through comprehensive income beginning in calendar year 2008. Adoption of SFAS 158 had the following effect on the individual line items in the 2007 balance sheet (dollars in thousands):

	Before Applicatic	n	After Application
	of SFAS 158	<u>Adjustments</u>	of SFAS 158
Accrued postretirement benefit cost Accumulated other comprehensive income	\$ 51,053 \$ 486	\$ (12,136) \$ 12,136	\$

Information about plan assets, obligations and contributions follows: The following table sets forth the plan's status reconciled with the amount shown in the Cooperative's balance sheets at December 31, 2007 and 2006 (dollars in thousands):

	2007	<u>2006</u>
Accrued benefit cost at beginning of period Net periodic cost Contributions credited Accrued benefit cost at end of period Accumulated other comprehensive income	\$ 48,663 3,028 (638) 51,053 (12,136)	\$ 46,604 2,547 (488) 48,663
Funded status	<u>\$ 38,917</u>	<u>\$ 48,663</u>

The discount rate used in determining the accumulated postretirement benefit obligation for 2007 and 2006 was 6.25% and 6.00%, respectively.

The Cooperative expects to contribute approximately \$927,000 to the plan in 2008.

EAST KENTUCKY POWER COOPERATIVE, INC. Page 23 of 54 AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS December 31, 2007 and 2006

NOTE 6 - RETIREMENT BENEFITS (Continued)

The following expected benefit payments from the plan, which reflect anticipated future service, are (dollars in thousands):

2008	\$ 927
2009	1,038
2010	1,164
2011	1,297
2012	1,461
2013 - 2017	<u> </u>
Total	<u>\$ 15,833</u>

For measurement purposes, a 10 percent annual rate of increase in the per capita cost of covered health care benefits was used for the year ended December 31, 2007. The rate is assumed to decline to 5 percent after five years.

The health care cost trend rate assumption has a significant effect on the amounts reported.

		<u>2007</u>	:	2006
Effect on total of service cost and interest cost components (dollars in thousands) 1-percentage-point increase 1-percentage-point decrease	\$	759 (587)	\$	697 (540)
Effect on postretirement benefit obligation (dollars in thousands)	\$	7.231	\$	6,776
1-percentage-point increase 1-percentage-point decrease	ιþ	(5,771)	ψ	(5,381)

EAST KENTUCKY POWER COOPERATIVE, INC. Page 24 of 54 AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS December 31, 2007 and 2006

NOTE 7 - COMMITMENTS, EXPENDITURES AND CONTINGENCIES

The Cooperative has entered into long-term power purchase agreements having minimum payment obligations for the one year subsequent to December 31, 2007 as follows (dollars in thousands):

2008

\$ 37,484

The Cooperative is committed to purchase coal for its generating plants under long-term contracts having minimum purchase obligations as follows (dollars in thousands):

2008	\$ 134,108
2009	128,771
2010	96,993
2011	73,958
2012	59,461

The minimum cost of the coal purchases, based on the latest contractual prices, is subject to escalation clauses that are generally based on government-published indices and market price reopeners.

There are pending civil claims in litigation against the Cooperative. Under the Cooperative's general liability insurance program, it is responsible for a deductible amount up to \$1,000,000 for each occurrence. Neither the probable outcome nor ultimate liability resulting from any claims and litigation can be readily determined at this time. Accruals have been made when appropriate and management believes that any liability for such matters will, in any case, not have a material effect on the consolidated financial statements.

During 2007, the Cooperative settled two lawsuits with the U.S. Environmental Protection Agency (EPA) resulting in the execution of two Consent Decrees discussed below.

On January 28, 2004, the EPA sued the Cooperative alleging that physical or operating changes to three coal-fired generators resulted in simultaneous violations of the Prevention of Significant Deterioration provision of the Clean Air Act; the New Source Performance Standards of the Clean Air Act; and the State Implementation Plan for Kentucky, as approved by EPA.

The parties executed a Consent Decree ("NSR Consent Decree"), which was lodged of record in U.S. District Court on July 5, 2007. The United States Department of Justice received public comments on the NSR Consent Decree for 30 days from July 5, 2007. The Federal Judge for the Eastern District of Kentucky entered the NSR Consent Decree on September 24, 2007.

(Continued)

EAST KENTUCKY POWER COOPERATIVE, INC. Page 25 of 54 AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS December 31, 2007 and 2006

NOTE 7 - COMMITMENTS, EXPENDITURES AND CONTINGENCIES (Continued)

Under the terms of the NSR Consent Decree, the Cooperative paid \$750,000 in civil penalties to the EPA, agreed to install certain emissions monitoring equipment and controls, and agreed to report emissions. In the event the Cooperative does not comply with the provisions of the NSR Consent Decree, the EPA may assess certain penalties. The Cooperative has complied with the NSR Consent Decree; no additional accruals are required relating to this matter.

On January 17, 2006, the Cooperative received a Notice of Violation (NOV) from the EPA alleging violations of the Federal Clean Air Act's Acid Rain Program and NOx SIP Call Allowance Trading Program at Dale Units 1 and 2. At issue was EPA's allegation that the Cooperative incorrectly reported the turbine, rather than the generator, nameplate ratings, thus placing the Units under the Acid Rain Program. On February 10, 2006, the Cooperative received an NOV from the Kentucky Environmental and Public Protection Cabinet regarding the same matter. The NOV's covered the years 2000 through 2004.

The parties executed a Consent Decree ("Acid Rain Consent Decree") which the United States Department of Justice lodged on September 20, 2007, and subsequently entered after the 30-day public comment period on November 30, 2007.

Under the terms of the Acid Rain Consent Decree, the Cooperative must make six annual payments of \$1,900,000 ("Fixed Penalty Payment"), totaling \$11,400,000 The Cooperative made the first installment of this fixed penalty payment in December 2007. In addition to the Fixed Penalty Payment, the Cooperative is subject to a Contingent Penalty Payment for a period of five years, based on audited financial statements for the years 2008 through 2012. The Cooperative will be subject to the Contingent Penalty Payment if certain financial ratios are achieved. The Cooperative has reserved \$11,700,000 for such contingent penalty payments. In December 2007, based on the terms of the Acid Rain Consent Decree, the Cooperative surrendered 4,107 NOx allowances and 15,311 SO2 allowances. Liabilities and margin impacts relating to complying with this Acid Rain Consent Decree are included in the consolidated financial statements.

The Cooperative has certain generating plants that contain asbestos, which is required by law to be removed or contained if the plants are renovated or demolished. The Cooperative has no plans to retire any of its generating plants at this time. Because there is an indeterminate settlement date for the asset retirement obligation, the range of time over which the Cooperative may settle the obligation is unknown. Therefore, a fair value determination of an asset retirement obligation cannot be reasonably estimated.

In September 2004, the Board approved the construction of a 278-megawatt circulating fluidized bed baseload unit at Spurlock Station. The cost of construction of the generating unit, including related interconnection facilities, will approximate \$556 million.

(Continued)

EAST KENTUCKY POWER COOPERATIVE, INC. Pag AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS December 31, 2007 and 2006

NOTE 7 - COMMITMENTS, EXPENDITURES AND CONTINGENCIES (Continued)

In November 2004, the Board approved the construction of a 278-megawatt circulating fluidized bed baseload unit at the J.K. Smith Station. The cost of construction of the generating unit, including related interconnection facilities, will approximate \$664 million.

In December 2004, the Board approved the construction of five gas-fired combustion turbines to be located at the Cooperative's J.K. Smith Power Station. Construction of three of the combustion turbines has been deferred until after 2009. The first two combustion turbines are expected to cost approximately \$155 million and are scheduled to become operational in 2009.

In September 2005, the Board approved construction of a new limestone scrubber with a wet precipitator for Spurlock Unit 2 at a cost of approximately \$207 million.

In January 2006, the Board approved the construction of a new limestone scrubber with a wet precipitator for Spurlock Unit 1 at a cost of approximately \$173 million.

The construction projects mentioned above are subject to PSC approval.

In December 2006, Warren Rural Electric Cooperative Corporation ("Warren") decided not to become a member of the Cooperative. In the summer of 2007, the Cooperative reached a settlement with Warren. This settlement resulted in a \$3.2 million write-off that is included in the consolidated financial statements.

NOTE 8 - FAIR VALUE OF FINANCIAL INSTRUMENTS

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

<u>Cash and Cash Equivalents</u>: The carrying amount approximates fair value because of the short maturity of these instruments.

<u>Accounts Receivable and Accounts Payable</u>: The fair values of accounts receivable and payable are based on carrying value due to the short-term nature of the instruments.

<u>Investment Securities</u>: The fair values of investment securities are estimated based on quoted market prices for the same or similar investments.

<u>Long-Term Accounts Receivable</u>: The fair values of long-term accounts receivable are estimated based on quoted interest rates for similar maturities.

(Continued)

EAST KENTUCKY POWER COOPERATIVE, INC. Page 27 of 54 AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS December 31, 2007 and 2006

NOTE 8 - FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

<u>Notes Payable</u>: The carrying amount approximates fair value because of the variable rate and payable on demand terms of the financial instrument.

<u>Long-Term Debt</u>: The fair value of the Cooperative's long-term debt that is practicable to estimate, is estimated based on the quoted market prices for the same or similar issues or on the current rates available to the Cooperative for debt of the same remaining maturities, including the appropriate redemption premium, if any.

The estimated fair values of the Cooperative's financial instruments are as follows (in thousands):

		<u>2007</u>	2	2006
	Carrying	Fair	Carrying	Fair
	<u>Amount</u>	<u>Value</u>	<u>Amount</u>	<u>Value</u>

REPORT OF INDEPENDENT AUDITORS

To the Audit Committee East Kentucky Power Cooperative, Inc. and Subsidiary

Our report on the audits of the consolidated financial statements of East Kentucky Power Cooperative, Inc. and Subsidiary as of December 31, 2007 and 2006 and for the years then ended appears on page 1. Our audits were conducted for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The consolidating information is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations, and cash flows of the individual companies. The supplementary consolidating information has been subjected to the auditing procedures applied in the audit of the basic consolidated financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic consolidated financial statements taken as a whole.

Crowe Chizek and Company LLC Member Horwath International

Audit Committee East Kentucky Power Cooperative, Inc. Winchester, Kentucky

Professional standards require that we communicate matters related to our audit of the consolidated financial statements of East Kentucky Power Cooperative, Inc. ("the Cooperative") that we consider significant and relevant to the responsibilities of Those Charged with Governance in overseeing the financial reporting process. Those Charged with Governance includes the person(s) with responsibility for overseeing the strategic direction of and obligations related to the accountability of the Cooperative. We cover such matters below.

AUDITOR'S RESPONSIBILITY UNDER AUDITING STANDARDS GENERALLY ACCEPTED IN THE UNITED STATES OF AMERICA

Those Charged with Governance should understand that the auditor is responsible for forming and expressing an opinion about whether the consolidated financial statements that have been prepared by management with the oversight of Those Charged with Governance are presented fairly, in all material respects, in conformity with accounting principles generally accepted in the United States of America and that the audit of the consolidated financial statements does not relieve management or Those Charged with Governance of their responsibilities. Refer to our engagement letter with the Cooperative for further information on the responsibilities of management and Crowe.

AUDITOR'S RESPONSIBILITY UNDER GOVERNMENT AUDITING STANDARDS

As part of obtaining reasonable assurance about whether the Cooperative's consolidated financial statements are free of material misstatement, we performed tests of the Cooperative's compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts or disclosures. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

PLANNED SCOPE AND TIMING OF THE AUDIT

We are to communicate with Those Charged with Governance an overview of the planned scope and timing of the audit. Accordingly, the following matters were discussed during our meeting with Those Charged with Governance, as applicable.

- How we propose to address the significant risks of material misstatement, whether due to fraud or error.
- Our approach to internal control relevant to the audit.
- The concept of materiality in planning and executing the audit, focusing on the factors considered rather than on specific thresholds or amounts.
- The views and knowledge of Those Charged with Governance about matters they consider to warrant our attention during the audit, as well as their views on:
 - o The allocation of responsibilities between Those Charged with Governance and management.
 - The entity's objectives and strategies, and the related business risks that may result in material misstatements.
 - o Significant communications with regulators.
 - Other matters Those Charged with Governance believe are relevant to the audit of the consolidated financial statements.

SIGNIFICANT ACCOUNTING POLICIES AND MANAGEMENT JUDGEMENTS AND ACCOUNTING ESTIMATES

<u>Significant Accounting Policies</u>: Those Charged with Governance should also be informed of the initial selection of and changes in significant accounting policies or their application. Also, Those Charged with Governance should be aware of methods used to account for significant unusual transactions and the effect of significant accounting policies in controversial or emerging areas where there is a lack of authoritative consensus. We believe management has the primary responsibility to inform Those Charged with Governance about such matters. To assist you in your oversight role, we also provide the following.

Accounting Standard	Impact of Adoption
FASB Statement 158, Employers'	Upon adoption of this Statement, the
Accounting for Defined Benefit Pension	Cooperative recorded a reduction in
and Other Postretirement Plans – an	liabilities and increase in accumulated other
amendment of FASB Statements No. 87, 88,	comprehensive income of \$12,317,113.
106, and 132(R). Statement 158 requires that	
the overfunded or underfunded status of	
postretirement benefit obligations, including	
pensions be recorded on an entity's	
consolidated financial statements and	
measured as the difference between the fair	
value of plan assets and the benefit	
obligation, defined to be the projected benefit	
obligation (PBO) for pensions and the	
accumulated postretirement benefit	
obligation (APBO) for other postretirement	
benefits as of the end of the fiscal year.	

<u>Management Judgments And Accounting Estimates</u>: Further, accounting estimates are an integral part of the consolidated financial statements prepared by management and are based upon management's current judgments. These judgments are based upon knowledge and experience about past and current events and assumptions about future events. Certain estimates are particularly sensitive because of their significance and because of the possibility that future events affecting them may differ markedly from management's current judgments and may be subject to significant change in the near term.

The process used by management in formulating particularly sensitive accounting estimates and the primary basis for our conclusions regarding the reasonableness of those estimates primarily involved the following areas for this year:

Area / Accounting Policy	Judgments and Estimates		
Pension and Postretirement Obligations	Management determines the actuarial assumptions used in determining the postretirement liability in accordance with Statement of Financial Accounting Standards No. 106, "Employers' Accounting for Postretirement Benefits Other than Pensions." Under accounting principles generally accepted in the United States of America, changes to these assumptions are required in response to changes in market conditions. We have reviewed the underlying rationale and support for the assumptions and have concluded that they are reasonable.		

**

Classification and Fair Value of Investment Securities	When securities are purchased, management classifies the securities as held-to-maturity, available-for-sale, or trading. At December 31, 2007, management classified securities into two categories. Held-to-maturity securities are those which the Cooperative has the positive intent and ability to hold to maturity, and are reported at amortized cost. Available-for-sale securities are those which the Cooperative may decide to sell if needed for liquidity, asset-liability management, or other reasons. Available-for-sale securities are reported at fair value, with unrealized gains or losses included as a separate component of members' equities. We reviewed the documentation maintained by management and performed procedures to determine the reasonableness of management's judgments and accounting estimates related to securities classified as held-to-maturity, available-for-sale and trading.
Useful Lives of Fixed Assets	Management estimates the provision for depreciation of plant assets based on the estimated useful lives using straight-line depreciation and composite rates. The provision for depreciation incorporates the results of a 2006 depreciation study, which was approved by the PSC and RUS. We tested a sample of assets and agreed rates used to the depreciation study.
Accrued Losses	During 2007, the Cooperative settled the lawsuit with the EPA relating to the January 2006 Notice of Violation alleging violations of the Federal Clean Air Act's Acid Rain Program and NOX SIF Call Allowance Trading Program at Dale Units 1 and 2. Under the terms of the Acid Rain Consent Decree, the Cooperative must make six annual payments of \$1,900,000 ("Fixed Penalty Payment"), totalling \$11,400,000. The Cooperative made the first installment of this fixed penalty payment in December 2007. Ir addition to the Fixed Penalty Payment, the Cooperative is subject to a Contingency Penalty Payment for a period of five years based on audited financial statements for the years 2008 through 2012. The Cooperative will be subject to the Contingent Penalty Payment if certain financial ratios are achieved. In December 2007, based on the terms of the Acid Rain Consent Decree, the Cooperative surrendered 4,107 NOx allowances and 15,311 SO2 allowances. The impacts of complying with this Acid Rain Consent Decree are included in these consolidated financial statements. We have reviewed these estimates and the underlying assumptions and concluded that these are reasonable.

AUDITOR'S JUDGMENTS ABOUT QUALITATIVE ASPECTS OF SIGNIFICANT ACCOUNTING PRACTICES

We are to discuss with Those Charged with Governance our comments about the following matters related to the Cooperative's accounting policies and financial statement disclosures.

- The appropriateness of the accounting policies to the particular circumstances of the entity, considering the need to balance the cost of providing information with the likely benefit to users of the entity's consolidated financial statements.
- The overall neutrality, consistency, and clarity of the disclosures in the consolidated financial statements.
- The effect of the timing of transactions in relation to the period in which they are recorded.
- The potential effect on the consolidated financial statements of significant risks and exposures, and uncertainties that are disclosed in the consolidated financial statements.
- The extent to which the consolidated financial statements are affected by unusual transactions including nonrecurring amounts recognized during the period, and the extent to which such transactions are separately disclosed in the consolidated financial statements.
- The issues involved, and related judgments made, in formulating particularly sensitive financial statement disclosures.
- The factors affecting asset and liability carrying values, including the entity's bases for determining useful lives assigned to tangible and intangible assets.
- The selective correction of misstatements, for example, correcting misstatements with the effect of increasing reported earnings, but not those that have the effect of decreasing reported earnings.

CORRECTED AND UNCORRECTED MISSTATEMENTS

<u>Corrected Misstatements</u>: We are to inform Those Charged with Governance of material corrected misstatements that were brought to the attention of management as a result of our audit procedures.

There were no such adjustments.

<u>Uncorrected Misstatements</u>: We are to inform Those Charged with Governance of uncorrected misstatements that were aggregated by us during the current engagement and pertaining to the latest and prior period(s) presented that were determined by management to be immaterial, both individually and in the aggregate, to the consolidated financial statements taken as a whole. For your consideration, we have distinguished misstatements between known misstatements and likely misstatements.

There were no such adjustments.

COMMUNICATIONS REGARDING OUR INDEPENDENCE FROM THE COOPERATIVE

Auditing standards generally accepted in the United States of America require independence for all audits and we confirm that we are independent auditors with respect to the Cooperative under the independence requirements established by the American Institute of Certified Public Accountants.

However, we wish to communicate certain relationships that we have with the Cooperative other than that of independent auditor that do not impair our independence but which, in our professional judgment, may reasonably be thought to bear on our independence and that we gave significant consideration to in reaching the conclusion that our independence has not been impaired.

We have no relationships with the Cooperative other than that of independent auditor.

OTHER COMMUNICATIONS

Communication Item	Results
Those Charged with Governance often consider information prepared by	Accordingly, we will read East Kentucky Power Cooperative, Inc. and Subsidiary's 2007 annual report and compare the information therein to the consolidated financial statements.
Significant Difficulties Encountered During the Audit We are to inform Those Charged with Governance of any significant difficulties encountered in dealing with management related to the performance of the audit.	There were no significant difficulties encountered in dealing with management related to the performance of the audit.
Disagreements With Management We are to discuss with Those Charged with Governance any disagreements with management, whether or not satisfactorily resolved, about matters that individually or in the aggregate could be significant to the Cooperative's consolidated financial statements or the auditor's report.	

Communication Item	Results
Consultations With Other Accountants If management consulted with other accountants about auditing and accounting matters, we are to inform Those Charged with Governance of such consultation, if we are aware of it, and provide our views on the significant matters that were the subject of such consultation.	We are not aware of any instances where management consulted with other accountants about auditing or accounting matters since no other accountants contacted us, which they are required to do by Statement on Auditing Standards No. 50, before they provide written or oral advice.
Representations The Auditor Is Requesting From Management We are to provide Those Charged With Governance with a copy of management's requested written representations to us.	We direct your attention to a copy of the letter of management's representation to us provided separately.

INDEPENDENT AUDITORS' MANAGEMENT LETTER

807 KAR 5:001 Section 10(9)(q) Page 43 of 54

Crowe Chizek and Company LLC Member Horwath International

Audit Committee East Kentucky Power Cooperative, Inc. Winchester, Kentucky

We have audited the consolidated financial statements of East Kentucky Power Cooperative, Inc. and Subsidiary (the Cooperative) for the year ended December 31, 2007, and have issued our report thereon dated March 19, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States of America, and 7 CFR Part 1773, Policy on Audits of Rural Utilities Service (RUS) Borrowers. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

In planning and performing our audit of the consolidated financial statements of East Kentucky Power Cooperative, Inc. and Subsidiary as of and for the year ended December 31, 2007, in accordance with auditing standards generally accepted in the United States of America, we considered the Cooperative's internal control over financial reporting ("internal control") as a basis for designing our auditing procedures for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Cooperative's internal control. Accordingly, we do not express an opinion on the effectiveness of the Cooperative's internal control.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's consolidated financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the consolidated financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control that we consider to be material weaknesses, as defined above.

Section 1773.33 requires comments on specific aspects of the internal control over financial reporting, compliance with specific RUS loan and security instrument provisions, and other additional matters. We have grouped our comments accordingly. In addition to obtaining reasonable assurance about whether the consolidated financial statements are free from material misstatements, at your request, we performed tests of specific aspects of the internal control over financial reporting, of compliance with specific RUS loan and security instrument provisions, and of additional matters. The specific aspects of the internal control over financial reporting, compliance with specific RUS loan and security instrument provisions, and additional matters tested include, among other things, the accounting procedures and records, materials control, compliance with specific RUS loan and security instrument provisions set forth in 7 CFR 1773.33(e)(1), related party transactions, depreciation rates, and a schedule of deferred debits and credits, and a schedule of investments, upon which (the two aforementioned schedules) we express an opinion. In addition, our audit of the consolidated financial statements also included the procedures specified in 7 CFR 1773.38-.45. Our objective was not to provide an opinion on these specific aspects of the internal control over financial reporting, compliance with specific RUS loan and security instrument provisions, or additional matters other than the two aforementioned schedules, and accordingly, we express no opinion thereon

No reports other than our Report of Independent Auditors and our Report of Independent Auditors on Compliance and on Internal Control Over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*, all dated March 19, 2008 or summary of recommendations related to our audit have been furnished to management.

Our comments on specific aspects of the internal control over financial reporting, compliance with specific RUS loan and security instrument provisions, and other additional matters as required by 7 CFR Part 1773.33 are presented below.

COMMENTS ON CERTAIN SPECIFIC ASPECTS OF THE INTERNAL CONTROL OVER FINANCIAL REPORTING

We noted no matters regarding East Kentucky Power Cooperative, Inc.'s internal control over financial reporting and its operation that we consider to be a material weakness as previously defined with respect to:

- the accounting procedures and records;
- the process for accumulating and recording labor, material, and overhead costs, and the distribution of these costs to construction, retirement, and maintenance or other expense accounts; and,
- the materials control.

COMMENTS ON COMPLIANCE WITH SPECIFIC RUS LOAN AND SECURITY INSTRUMENT PROVISIONS

Management's responsibility for compliance with laws, regulations, contracts, and grants is set forth in our Report of Independent Auditors on Compliance and on Internal Control over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* dated March 19, 2008 and should be read in conjunction with this report. At your request we have performed the procedures enumerated below with respect to the Cooperative's compliance with certain provisions of laws, regulations, contracts, and grants. The procedures we performed and our findings are summarized as follows:

• Procedures performed with respect to the requirement for a borrower to obtain written approval of the mortgagee to enter into any contract for the operation or maintenance of property, or for the use of mortgaged property by others as defined in 1773.33(e)(1)(i) for the year ended December 31, 2007:

We reviewed Board of Director minutes, read the provisions of 1773.33(e)(1)(i), and inquired of management and determined that the Cooperative did not enter into any of these contracts for the year ended December 31, 2007.

• Procedure performed with respect to the requirement as defined in 1773.33(e)(1)(ii) that the Cooperative submit RUS Form 12 to the RUS and the Form 12, Financial and Statistical Report, as of December 31, 2007, is in agreement with Cooperative's audited records in all material respects:

We agreed amounts reported in Form 12 to the Cooperative's records.

The results of our tests indicate that, with respect to the items tested, the Cooperative complied, in all material respects, with the specific RUS loan and security instrument provisions referred to above. No exceptions were noted related to these provisions.

COMMENTS ON OTHER ADDITIONAL MATTERS

In connection with our audit of the consolidated financial statements of East Kentucky Power Cooperative, Inc. and Subsidiary, nothing came to our attention that caused us to believe that the Cooperative failed to comply with respect to:

• The reconciliation of continuing property records to the controlling general ledger plant accounts addressed at 7 CFR Part 1773.33(c)(1);

- The clearing of the construction accounts and the accrual of depreciation on completed construction addressed at 7 CFR Part 1773.33(c)(2);
- The retirement of plant addressed at 7 CFR Part 1773.33(c)(3) and (4);
- Approval of the sale, lease or transfer of capital assets and disposition of proceeds for the sale or lease of plant, material, or scrap addressed at 7 CFR Part 1773.33(c)(5);
- The disclosure of material related party transactions, in accordance with Statement of Financial Accounting Standards No. 57, *Related Party Transactions*, for the year ended December 31, 2007, in the financial statements referenced in the first paragraph of this report addressed at 7 Part CFR 1773.33(f);
- The depreciation rates addressed at 7 CFR Part 1773.33(g);
- The detailed schedule of deferred debits and deferred credits; and
- The detailed schedule of investments.

Other Deferred Credits -

Our audit was made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The detailed schedule of deferred debits and deferred credits required by 7 CFR Part 1773.33(h), and the detailed schedule of investments required by 7 CFR 1773.33(i), and provided below, are presented for purposes of additional analysis and are not a required part of the basic consolidated financial statements. This information has been subjected to the auditing procedures applied in the audit of the basic consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic consolidated financial statements taken as a whole.

COMMENTS FOR MANAGEMENT

In planning and performing our audit of the financial statements of the Cooperative, we considered the Cooperative's internal control over financial reporting ("internal control") as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Cooperative's internal control. Accordingly, we do not express an opinion on the effectiveness of the Cooperative's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain matters that we are required to or wish to communicate to you. Matters communicated in this letter are classified as follows.

• Deficiency – A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis.

<u>Deficiency</u>: During our inquiry with management, we identified the Cooperative does not have segregation of duties on the Power Billing and Coal Accounting applications between the programmer and the person promoting code in the different programming environments (including the production environment). The programmer is performing the modifications to the source code and implementing the modified code to the different programming environments. Further, the PeopleSoft database administrator is promoting the source code to the different programming environments and also has the capability to modify the source code. This creates the potential risk of unauthorized and/or fraudulent changes made to these applications.

<u>Management Response</u>: The EKPC programmer does not make changes to source code in Power Billing. Only the software vendor, Itron, makes source code changes. The programmer does make changes to reports that come from Power Billing. Requests for changes are initiated by the Finance user. Changes are made and tested in a development system prior to moving to production and the user verifies and approves the changes by comparing the new reports to the expected results in production. All previous versions of reports are kept for reference. In Coal Accounting all changes are initiated by the Finance user. The changes are first completed and tested in a development system. Changes are then verified and approved in production by the end user requesting the change. A backup copy of the production code is made before the requested change is migrated into production so that comparisons can be made should there be any questions later.

<u>Deficiency</u>: Strong internal controls provide assurance that balances reported on the general ledger are accurate and appropriate. These controls should also pertain to timely reconciliations of general ledger accounts that include sign off by the preparer and reviewer.

During our procedures, we noted that reconciliations over numerous areas were not signed off by the reviewer and/or preparer including:

- Investments
- Debt
- Accrued payroll accounts
- Form 20

We recommend that management review its policies and procedures to incorporate preparer and reviewer sign offs on all reconciliations.

<u>Management Response:</u> Although EKPC management is currently reviewing numerous reconciliations electronically, beginning February 2008, EKPC will maintain a hard copy file of reconciliations which will include sign-offs.

<u>Deficiency</u>: Cooperative management has not yet undertaken the full development of a fraud risk assessment program. Statement on Audit Standard 99 has increased not-for-profit and governmental organizations' awareness of the prevalence of fraud. Many organizations count on their auditors to uncover any internal fraud, but audits, even those of the highest quality, provide limited protection against fraud. The audit process may be one part of the organization's fight against fraud, but it should not be the only part. The focus should be on management's responsibility for establishing a continuous fraud prevention, deterrence, and detection plan. Management must take responsibility for protecting their organizations from fraud, particularly those leaders with a fiduciary duty to act as a steward of the organization's resources. They should be actively involved in designing controls and tests to be used in the prevention and detection of fraud.

General risk factors for fraud include motive, opportunity, and rationalization. Unique risk factors in not-for-profit and governmental organizations include dependence on volunteers and board members and focus on their mission and programs can divert their attention from fraud detection.

The Association of Certified Fraud Examiners has developed a "Fraud Prevention Checkup" to help not-for-profits assess an organizations' vulnerability to fraud. The checkup focuses on:

Fraud risk oversight—the organization's process for oversight of fraud risks by the board of directors or others in governance (e.g., the Audit Committee)

Fraud risk assessment—the ongoing process for regular identification of the organization's significant fraud risks

Fraud risk tolerance and risk management policy—identification and board approval of levels of tolerance for different types of fraud risks

Process-level fraud controls/re-engineering—implementation of measures (e.g., segregation of duties) to eliminate or reduce through process re-engineering each of the organization's significant fraud risks, as well as process-level measures designed to prevent, deter, and detect each of the significant risks identified in the risk assessment

Proactive fraud detection – development of a process to detect, investigate, and resolve potentially significant fraud

The American Institute of Certified Public Accountants notes that fraud detection can be difficult and costly. It advises organizations to instead focus on fraud prevention. A formal fraud prevention and deterrence program can go a long way in minimizing the costs of fraud.

<u>Management Response</u>: Fraud encompasses an array of irregularities and illegal acts (e.g., embezzlement, fraudulent financial reporting, conflicts of interest, improper payments) characterized by intentional deception. It can be perpetrated for the benefit of or to the detriment of the organization.

For a fraud to be perpetrated, three conditions must be present—pressure (or motive), opportunity, and rationalization. To eliminate or alleviate pressures of perpetrators (e.g., high personal debt, drug problems, excessive gambling habits), EKPC has an employee assistance program ("EAP"), can check criminal backgrounds on employees and vendors (in accordance with laws and contracts), can get a credit history for applicants in high exposure positions, does drug testing, pays adequately, and recognizes good job performance.

To eliminate opportunities, EKPC has a good system of internal controls, including accounting controls, that provides reasonable assurance that assets are safeguarded against loss from unauthorized use or disposition and that financial records are reliable for use in preparing financial statements. Internal Auditing is a managerial control that functions by measuring and evaluating the effectiveness of other controls.

To eliminate rationalizations (e.g., everybody does it, I'm only temporarily borrowing it), EKPC has a Code of Ethics and the following board and administrative policies and procedures, which typically comprise a clearly defined code of conduct:

- No. 109 Nepotism
- No. 116 Conflict of Interest
- No. 507 Employee Travel and Out-Of-Pocket Expenses
- No. 510 Acceptance of Fees and Honoraria
- No. 514 Harassment Free Workplace
- No. 601 Political and Legislative Activity
- No. A002 Vendor Relations
- No. A008 Political Activities
- No. A013 Personal Conduct
- No. A015 Drug Free Workplace
- No. A023 Confidentiality of EKPC Business Information

Fraudulent acts, including those for the benefit of the Cooperative, are specifically covered in the Personal Conduct policy. Ethics and fraud awareness training is periodically conducted for managers, supervisors, and purchasing agents. Vendors are made aware of our purchasing guidelines.

In 1993, an internal audit was conducted of procurement fraud deterrence. The report included six recommendations for improvement. The first recommendation was to develop and implement a fraud policy. To address this recommendation, an ethics task force was formed with representatives from human resources, supply chain, legal, risk management, internal auditing, fuel procurement, and public affairs. The task force drafted a Fraud Policy, borrowing heavily from a sample fraud policy developed by the Association of Certified Fraud Examiners. The draft was presented to the executive staff for its review and approval. Legal had several issues with the policy and it was ultimately abandoned. We did, however, incorporate fraudulent acts in the Personal Conduct policy, as mentioned above.

To address this recommendation, we plan to re-establish an Ethics and Fraud Awareness task force. Since the National Consulting Group recommended that Legal "Strengthen and enforce a code of ethics throughout the organization," Legal will take a more proactive role in this process. Among other undertakings, the task force will revisit the fraud policy.

<u>Deficiency</u>: During our cash procedures, we noted that reconciliations prepared for the flexible spending account were not reconciled to general ledger. This could lead to inaccurate reporting and untimely resolution of reconciling issues. We recommend that all reconciliations agree to the general ledger and are appropriately signed off by both the preparer and reviewer.

<u>Management Response</u>: The flexible spending account reconciliation will be transitioned from HR to Plant Accounting and reconciliation to the general ledger will be performed monthly. This transition will happen in February 2008.

<u>Deficiency</u>: The Cooperative does not have a current maintenance or support agreement with the vendor of PeopleSoft accounting software and has not received a system update in over three years. This creates a potential risk that the Cooperative will not receive an appropriate upgrade or support when necessary. We recommend that the Cooperative consider purchasing a new license agreement with Oracle in order to receive the most recent version of PeopleSoft.

<u>Management Response</u>: East Kentucky is contemplating negotiating a settlement with PeopleSoft for a possible upgrade in 2009. We believe by purchasing a database and having two separate databases, one for Human Resources and one for Financials, there should be no critical issues with our current release of PeopleSoft Financials until possible implementation of the newest version available in 2009.

<u>Deficiency</u>: During our procedures, we noted that the Cooperative is not performing annual reviews of user access levels on financially significant applications. Our testing found that one terminated individual still had access to the PeopleSoft system and access forms for two newly hired individuals could not be located. Unauthorized access to sensitive information may occur without detection if user access levels are not reviewed periodically. Management should implement a formal procedure to review user access levels periodically in order to confirm that user access levels are not excessive as it relates to their job function. Once this review process is established, the annual review should be documented to include the user reviewed, their current access level, initials of the reviewer, reviewer's comments, and date of when the review was complete.

<u>Management Response</u>: We will look into producing meaningful reports of user access levels for a formal review and signoff by management. Although the rights to PeopleSoft for one terminated employee were still in place, that person did not have physical access to a computer on the network, did not have network login access, nor did they have Citrix login access (which is required to get to PeopleSoft). The terminated employee's access to PeopleSoft was limited to doing their expense report.

<u>Deficiency</u>: Our inquiry with management concerning Oracle database password configurations revealed that management has not enforced password controls to access this database creating the potential risk of authentication with the Oracle database. Management should enforce password controls to access the Oracle database.

<u>Management Response</u>: Getting into the Oracle database does require a password. However, complex passwords are not required. We will look into the feasibility of enforcing complex passwords for accessing the Oracle database

* * * *

The Cooperative's responses to the findings identified in our audit are described above. We did not audit the Cooperative's responses and, accordingly, express no opinion on them.

This report is intended solely for the information and use of the audit committee, board of directors, management, and the Rural Utilities Service and supplemental lenders and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited. We were pleased to serve your Cooperative as its independent auditors. We provide the above information to assist you in performing your oversight responsibilities, and would be pleased to discuss this letter or any matters further, should you desire.

REPORT OF INDEPENDENT AUDITORS ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF CONSOLIDATED FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Audit Committee East Kentucky Power Cooperative, Inc. Winchester, Kentucky

We have audited the consolidated financial statements of East Kentucky Power Cooperative, Inc. and Subsidiary (the "Cooperative") as of and for the years ended December 31, 2007 and 2006, and have issued our report thereon dated March 19, 2008. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Cooperative's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing an opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Cooperative's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Cooperative's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's consolidated financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the consolidated financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we noted other matters involving the internal control over financial reporting and its operation that might be of interest to you and we have reported these to the management of the Cooperative in a separate letter dated March 19, 2008.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Cooperative's consolidated financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the audit committee, board of directors, management, and the Rural Utilities Service and supplemental lenders and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

East Kentucky Power Cooperative, Inc. Case No. 2008-00409 Fully Forecasted Test Period Volume 5, Tab 41

Filing Requirement 807 KAR 5:001 Section 10(9)(s) Sponsoring Witness: Ann F. Wood

Description of Filing Requirement:

Summary of latest depreciation study with schedules itemized by major plant accounts, except that telecommunications utilities adopting PSC's average depreciation rates shall identify current and base period depreciation rates used by major plant accounts. If information has been filed in another PSC case, refer to that case's number and style.

Response:

A summary of the latest depreciation study with schedules itemized by major plant accounts, as filed as part of Commission Case No. 2006-00236, is included on pages 2 through 5 of this response.

`
Filing Requirement 807 KAR 5:001 Section 10(9)(t) Sponsoring Witness: Ann F. Wood

Description of Filing Requirement:

List all commercial or in-house computer software, programs, and models used to develop schedules and work papers associated with application. Include each software, program, or model; its use; identify the supplier of each; briefly describe software, program, or model; specifications for computer hardware and operating system required to run program.

Response:

A detailed listing, with descriptions, of all commercial and in-house computer software, programs and models used to develop schedules and workpapers associated with this application, is included on pages 2 through 4 of this response.

EAST KENTUCKY POWER COOPERATIVE

CASE NO. 2008-00409

Software used in the development of East Kentucky Power Cooperative's application for a rate increase of wholesale rates are listed below:

<u>Microsoft Windows XP</u>	The primary client desktop software used is
	Windows 2000 and Windows XP operating
	systems.
	Hardware requirements – PC with 300
	megahertz or higher clock speed; 233 MHz
	minimum required; Intel Pentium/Celeron
	family, or AMD K6/Athion/Duron family
	or compatible. 128 MB of RAM or higher
	recommended. 1.5 GB of available hard
	disk space. Super VGA or higher
	resolution video adapter and monitor. CD-
	ROM or DVD drive. Keyboard and
	Microsoft Mouse or compatible pointing device.
	Provides comprehensive asset life cycle
IBM Maximo Version 5.2 Asset	and maintenance management for power
Management	production assets.
	- Client: Same hardware requirements as
	Microsoft Windows XP.
	- Web server: Web services running on
	Windows 2000 Server. Minimum
	hardware requirements are the same as
	Microsoft Windows XP.
	- Database server: Oracle database
	environment (RDBMS) on Windows
	2000 Server. Minimum hardware
	requirements are the same as Microsoft
	Windows XP.
Microsoft Excel	Used to create and format spreadsheets,
	and analyze and share information to make
	informed decisions. Same hardware
	requirements as Microsoft Windows XP.
Microsoft Word	Used to create and share documents by
	combining a comprehensive set of writing
	tools with an easy to use interface. Same
	hardware requirements as Microsoft
	Windows XP.
• <u>MV90</u>	Software program used for translation of
	meter reading data.
	- Client: Same hardware requirements as
	Microsoft Windows XP.
	- Database server: Pervasive SQL
	database environment (RDBMS)
	running on Windows 2000 Server.

	Minimum hardware requirements are
	the same as Microsoft Windows XP.
	<u></u>
• <u>PeopleSoft</u> -7.5	PeopleSoft Financials is an enterprise
	system that includes Accounts Payable,
	Accounts Receivable, General Ledger,
	Asset Management, Projects, and
	Purchasing. The software integrates the
	above financial modules.
	- Client: Same hardware requirements as
	Microsoft Windows XP.
	- Citrix Server: Remote access services
	providing connection to PeopleSoft
	environment. Minimum hardware
	requirements are the same as Microsoft Windows XP.
	- Batch Processing: Task and report
	processing server. Same hardware
	requirements as Microsoft Windows
	XP.
	- Database server: Informix database
	environment (RDBMS) on IBM AIX
	Server, Minimum hardware
	requirements are IBM RISC processor
	server with 512MB of RAM and 4GB
	of hard drive space
Adobe	Adobe® software enables business
	professionals to reliably create, combine,
	and control Adobe PDF documents for
	easy, more secure distribution,
	collaboration, and data collection. Same
	hardware requirements as Microsoft
	Windows XP.
MetrixND – Windows capabilities	Forecasting tool used for developing
- internation in indows oupdomnies	forecasts for customers, monthly sales,
	long-term energy demand, and short-term
	hourly loads. Same hardware requirements
	as Microsoft Windows XP.
MetrixLT-	Specialized tool for developing hourly load
	forecasts. Same hardware requirements as
	Microsoft Windows XP.
\$242 •	Statistical software package used to
• <u>SAS®</u>	validate the final forecast with respect to
	peak days and time. Same hardware
	requirements as Microsoft Windows XP.
• <u>RTSIM</u>	Production cost model simulating
	chronological operating conditions, unit
	commitment, Monte Carlo forced outages,
	unit ramp rates, and unit startup
	characteristics. Same hardware
	requirements as Microsoft Windows XP.

• <u>Power Billing System</u>	 Provided by ITRON; used for monthly billings. Client: Same hardware requirements as Microsoft Windows XP. Database server: Oracle database environment (RDBMS) on Windows 2000 Server. Minimum hardware requirements are the same as Microsoft Windows XP.
 <u>Financial Risk & Strategy Tool -</u> <u>FRST™</u> 	Developed by MCR Performance Solutions, Inc.; Excel-based financial forecasting tool customized to EKPC's needs. Same hardware requirements as Microsoft Windows XP.
• @RISK	Add-on product for statistical modeling within Microsoft Excel. Same hardware requirements as Microsoft Windows XP.

Filing Requirement 807 KAR 5:001 Section 10(9)(u) Sponsoring Witness: Ann F. Wood

Description of Filing Requirement:

If the utility had any amounts charged or allocated to it by an affiliate or general or home office or paid any monies to an affiliate or general or home office during the base period or during the previous three (3) calendar years, the utility shall file:

- 1. Detailed description of method of calculation and amounts allocated or charged to utility by affiliate or general or home office for each allocation or payment;
- 2. Method and amounts allocated during base period and method and estimated amounts to be allocated during forecasted test period;
- 3. Explain how allocator for both base and forecasted test period was determined; and
- 4. All facts relied upon, including other regulatory approval, to demonstrate that each amount charged, allocated or paid during base period is reasonable.

Response:

This filing requirement is not applicable to EKPC.

Filing Requirement 807 KAR 5:001 Section 10(9)(v) Sponsoring Witness: William Steven Seelye

Description of Filing Requirement:

If gas, electric or water utility with annual gross revenues greater than \$5,000,000, cost of service study based on methodology generally accepted in industry and based on current and reliable data from single time period

Response:

The cost of service study is included with Mr. Seelye's testimony in Tab 23.

Filing Requirement 807 KAR 5:001 Section 10(9)(w) Sponsoring Witness: Ann F. Wood

Description of Filing Requirement:

Local exchange carriers with fewer than 50,000 access lines need not file cost of service studies, except as specifically

directed by PSC. Local exchange carriers with more than 50,000 access lines shall file:

- 1. Jurisdictional separations study consistent with Part 36 of the FCC's rules and regulations; and
- 2. Service specific cost studies supporting pricing of services generating annual revenue greater than \$1,000,000 except local exchange access:
 - a Based on current and reliable data from single timeperiod; and
 - b. Using generally recognized fully allocated, embedded, or incremental cost principles.

Response:

This filing requirement is not applicable to EKPC.

Filing Requirement 807 KAR 5:001 Section 10(10)(a) Sponsoring Witness: David G. Eames and William Steven Seelye

Description of Filing Requirement:

Jurisdictional financial summary for both base and forecasted periods detailing how utility derived amount of requested revenue increase;

Response:

The financial summaries for both the base period and the forecasted test period are included under Tab 26. The financial summary for the forecasted test period is included as Eames Exhibit 1 included in Mr. Eames' testimony (Tab 23.) The detail of how EKPC derived the amount of the requested revenue increase is included as Seelye Exhibit 2 in Mr. Seelye's testimony (Tab 23.)

Filing Requirement 807 KAR 5:001 Section 10(10)(b) Sponsoring Witness: William Steven Seelye

Description of Filing Requirement:

Jurisdictional rate base summary for both base and forecasted periods with supporting schedules which include detailed analyses of each component of the rate base,

Response:

The rate base summaries for the base period and forecasted period, which include details of the components each rate base, are included on page 2 through 5 of this response.

Filing Requirement 807 KAR 5:001 Section 10(10)(c) Sponsoring Witness: Ann F. Wood

Description of Filing Requirement:

Jurisdictional operating income summary for both base and forecasted periods with supporting schedules which provide breakdowns by major account group and by individual account;

Response:

EKPC's operating income summary for the base period is included under Tab 26. Base year supporting schedules, which provide breakdowns by major account group and by individual account, are on pages 2 through 6 of this response.

EKPC's operating income summary for the forecasted period is included under Tab 26. Forecasted year supporting schedules, which provide breakdowns by major account group and by individual account, are on pages 7 through 11 of this response.

Filing Requirement 807 KAR 5:001 Section 10(10)(e) Sponsoring Witness: Ann F. Wood

Description of Filing Requirement:

Jurisdictional federal and state income tax summary for both base and forecasted periods with all supporting schedules of the various components of jurisdictional income taxes,

Response:

EKPC is tax exempt under Internal Revenue Code Section 501 (c) (12.) Therefore, this filing requirement is not applicable to EKPC.

, i.
Filing Requirement 807 KAR 5:001 Section 10(10)(f) Sponsoring Witness: Ann F. Wood

Description of Filing Requirement:

Summary schedules for both base and forecasted periods (utility may also provide summary segregating items it proposes to recover in rates) of organization membership dues; initiation fees; expenditures for country club; charitable contributions; marketing, sales, and advertising; professional services; civic and political activities; employee parties and outings; employee gifts; and rate cases;

Response:

Summary schedules for both base and forecasted periods for the following are included on pages 2 through 10 of this response: organization membership dues; charitable contributions; marketing, sales, and advertising; professional services; civic and political activities; employee parties and outings; and rate cases.

Expenditures relating to initiation fees, country club and employee gifts are not applicable to EKPC.

Filing Requirement 807 KAR 5:001 Section 10(10)(g) Sponsoring Witness: Ann F. Wood

Description of Filing Requirement:

Analyses of payroll costs including schedules for wages and salaries, employees benefits, payroll taxes straight time and overtime hours, and executive compensation by title;

Response:

Analyses of base year and forecasted test year payroll costs, including schedules for wages and salaries, employee benefits, and payroll taxes, are included on pages 2 and 3 of this response, respectively. Note that straight-time and overtime hours are not budgeted.

An analysis of executive compensation by title is included on page 4 of this response.

Filing Requirement 807 KAR 5:001 Section 10(10)(h) Sponsoring Witness: William Steven Seelye

Description of Filing Requirement:

Computation of gross revenue conversion factor for forecasted period,

Response:

Although it would be appropriate to gross up the revenue increase for the PSC assessment fees, EKPC did not utilize a revenue conversion factor to determine the revenue deficiency in this proceeding. Therefore, this filing requirement is not applicable for EKPC.

Filing Requirement 807 KAR 5:001 Section 10(10)(i) Sponsoring Witness: Ann F. Wood, James C. Lamb, Jr. and Frank J. Oliva

Description of Filing Requirement:

Comparative income statements (exclusive of dividends per share or earnings per share), revenue statistics and sales statistics for 5 calendar years prior to application filing date, base period, forecasted period, and 2 calendar years beyond forecast period;

Response:

Comparative income statements and sales and revenue statistics for the 5 calendar years prior to this application, the base year and the forecasted year are shown on page 2 of this response.

Income statements and sales and revenue statistics for 2011 and 2012, two calendar years beyond the forecast period, are included on pages 3 and 4 of this response.

Filing Requirement 807 KAR 5:001 Section 10(10)(j) Sponsoring Witness: David G. Eames

Description of Filing Requirement:

Cost of capital summary for both base and forecasted periods with supporting schedules providing details on each component of the capital structure.

Response:

A cost of capital summary for both the base and forecasted periods, which detail the components of capital structure, is included on page 2 of this response.

~

Filing Requirement 807 KAR 5:001 Section 10(10)(l) Sponsoring Witness: William Steven Seelye

Description of Filing Requirement:

Narrative description and explanation of all proposed tariff changes;

Response:

Narrative description and explanation of all proposed tariff changes are included in the testimony of Mr: Seelye in Tab 23.

Filing Requirement 807 KAR 5:001 Section 10(10)(m) Sponsoring Witness: William Steven Seelye

Description of Filing Requirement:

Revenue summary for both base and forecasted periods with supporting schedules which provide detailed billing analyses for all customer classes; and

Response:

The base period Phase I and Phase II revenue summaries, which include detailed billing analyses for all customer classes, are included on pages 2 through 6 of this response.

The forecasted period Phase I and Phase II revenue summaries, which include detailed billing analyses for all customer classes, are included as Exhibit 9 and Exhibit 10, respectively, to Mr. Seelye's testimony under Tab 23.
