PUBLIC SERVICE
COMMISSION

To whom it may concern

I live in Clinton, Ky. and am writing
this in protest of a 50.8% rate increase from:

WATER SERVICE CORP. (Utilities, Inc.)

CASE # 2008-00563

The water & sewer bills are high enough.
Half the time they estimate the bill, which
when weather causes a problem in June. But
when you get a \$400.00 bill for one month,
& no one knows why. Do their workers know
how to read a meter, does the office know
what is going on?

My wife keeps getting a bill for a house
we have not lived in for a year after
making repeated phone calls, it doesn't do
any good. What do I need to do, hire a
lawyer?

I cannot afford to go to Frankfort, &
am on unemployment. I believe you need
to come to Clinton & check out what
these people are doing.

Thank you
