To Whom It May Concern

I am writing in regards to a 50% increase in our water rates that Utilities, Inc. are requesting for the City of Clinton, Ky.

We are a small town (approx 1500) in the far western part of Ky. Our city consist of mostly senior citizens, me being one of them. We live on a limited income for most of the citizens. Our unemployment rate is high and for most people in the city, the present rate is too high so if it is increased 50% how are we suppose to be able to pay the increase when it is hard to pay the present rate?

Before you make any decisions, we are asking that you meet with our citizens in our small town of Clinton, Ky. 42031
