PUBLIC SERVICE
COMMISSION

Gentlemen:

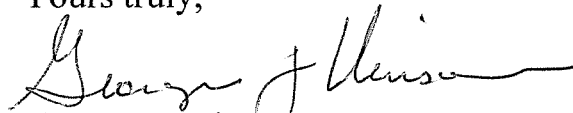

I wish to strongly protest the rate increase requested by Ky. Power Co. because of what my wife and I, along with our neighbors witnessed during the power outage in December 2009.

Numerous instances of power company trucks, vehicles and personnel at fast food restaurants and other locations were witnessed at inappropriate times. One instance occurred at 10 AM at a fast food restaurant and the power people told locals that they had been at work for 3 hours and still hadn't been given a job. They didn't care though because they were on double time.

I don't know if this and other instances were deliberate but it certainly was mismanagement.

If you approve this increase, copies of the letter and other information will be sent to the Governor, Courier Journal, Herald Leader and Ashland Daily.

Yours truly,

George J. Vinson
