PUBLIC SERVICE
COMMISSION

Don't give them a raise and they don't deserve it at all.

They wait till a whole county is without power and then call others in, and these people say Pine County is the worst place they have ever worked as they have everything running so bad it is difficult to work on lines.

Please Consider and don't raise our bills as poor people can't afford that raise.

Robby B + Peggy D. Childers
97 Big Branch Lane
Elkhorn City Ky 41522

Without power Friday Oct 7 until Wednesday
at 5:10 P.M.

Sen off. Fridg 7 until Sat 4 PM.
Nashua Fri 7 until Friday 6:00

By Public Com. Why should the power Company get a 30 to 35% raise They don't keep their lines up. They sit by the road or restaurants all summer and do nothing to update their lines.

People are without power a several time a year over this. We live by a substation and we are on another substation 20 miles away. They have the power running so you don't get good service at all.

We are retired and live on a medium, and we don't get raises so why do they think poor people can pay this amount.
