RECEIVED

JAN 25 2010

PUBLIC SERVICE
COMMISSION

To Whom It May Concern:

I received a letter today concerning the proposed raise Ky Power has filed with the Ky Public Commission.

This rate change will affect so many people by knocking them down further into poverty.

I oppose to this rate change due to the fact I'm already struggling like so many others barely making ends meet.

My grandmother, mom, dad, and so many friends and neighbors are on fixed incomes; how do you think this

Raise will affect them? It is coming down to the very fact, do we eat or do we pay our power bill.

If this raise is approved then others will follow; the water, gas, and even the groceries will go up.

My bill usually ranges between sixty and seventy dollars and this month my bill tripled in numbers.

I did not put up Christmas lights, I never run my heat above sixty, and I use an outdoor grill to cook on.

My electric was off nearly ten days the week before Christmas plus I stayed away from home afterwards.

Explain to me how my bill went from sixty-two to hundred and eighty-six dollars in one month?

I understand KY Power Co. has a job to do and they need to be paid like any other working

Man or woman; those that makes these proposals should put themselves in my place.

Ask themselves, how it would feel if they had a daughter or son whom was struggling to

Make it in this world due to the high end of things. Would they feel angry too?

People are angry, I'm angry, why? We are suffering and someone needs to listen.

I vote no to the proposal!

Sincerely,

Rebecca Combs
