In response to above,

I would like to protest the rate increase in my electric bill - Ky. Power Co. had a rate increase last year and shouldn't increase rates again in the economy that is having a very difficult time.

The low average person will not be able to afford to keep

electricity in their homes. Turn of the century, it was oil/gas lighting.

Now this century, electricity - maybe there will be an invention to come up w/ some other way to light our homes.
