PUBLIC SERVICE
COMMISSION

1-28-10

TO: Kentucky P.S.C.

A multi-billion dollar company that has a monopoly on a large part of the country should not be allowed to destroy people's lives.

Already, old people on fixed incomes are paying almost HALF their incomes in the winter, just so they won't freeze to death. This is unacceptable, are we living in a third-world country? Greed and money and power are destroying this country. Which side are you on? If you contribute to this destruction, you will also be destroyed in the end. It's called Karma.

Hoping there's a future left for this state and country.

Paula Michel
