

Case No: 2009-00459

This letter is about the cost of living the bills that didn't raise this year. After getting a letter about no raise on my check. I got a letter about my Electric bill is going to raise. I can't afford to pay my bill already. What is a person going to do to live. you can't pay out more than what you draw a month. A 24.25% is a big raise.

Thank you,

Gallie Finson
