PUBLIC SERVICE  
COMMISSION

To Whom It May Concern,  
Just writing to let you know me and my husband are very much against such a big increase as 35%. This is outrageous. We are on a fixed income. It is all we can do to survive. I know there are folks in worse shape than us. How do you think people can pay. Our income ~~does~~ not increase. I could probably believe a 5% raise and that still would be hard.

Just wanted to let you know how much I disagree with this.
