I am written this letter about my Electric Bill. I got a letter about my Electric Bill is going to raise. A whopping 24.25% that is a "Big Raise". I can't afford to pay my bill already. What is a person going to do to live. You can't pay out more ~~than~~ than what you have.

I have other bills to pay to. Not only this one. Most of all I have a family to feed and cloth on a fix income.

Thank You
