PUBLIC SERVICE  
COMMISSION

To Whom It May Concern:

I am totally outraged that Kentucky Power has requested a 34 percent increase for customers. My husband and I both work and we have two children. Our daughter is in college and our son is in high school. There is no possible way that we can afford an increase. We can barely pay our electric bill as it is. With today's economy, it is absolutely unheard of, for you to ask for an unprecedented raise. During December, our family went six days without electricity. My electric bill for that month was even higher, and I only had electricity for three weeks. Of course, they said bills were higher to pay for all the manpower that it took to restore the electricity.

There are so many people who will not be able to afford this kind of rate increase. Please take my family's situation into consideration, for it would definitely create a hardship for not only my family, but the whole community.

Sincerely,

Vicki Caudill

Louisa, KY
