Name: Janet Purcell  
 Address: 4320 Dipper Rd. Ashland, Ky. 41102

Case: Ky. Power rate increase

COMMENTS: I attended the meeting in Ashland on April 13<sup>th</sup>. No one mentioned we are dealing with a monopoly. We have no choice but to purchase our electricity from Ky. Power. They answer to no one but their stockholders. When they yell the solution is to raise rates. To manage the business in a responsible way never occurs to them.

We're retired and have lived in an all electric home for 38 yrs. We now have to shut off rooms that aren't absolutely necessary in the winter.

The power company claims the last rate increase was 2005. Why does my electric keep increasing? We are already paying fuel costs and environmental cost. Even with the increase what other costs are they going to attach to my bill?

When it gets really cold, 68 degrees isn't all that comfortable.
