Dear Sir ;

I am a senior citizen (79) yrs. And living on a out dated pension, with no Cost of living adjustment. This (34.95) hike on my monthly electric bill will put additional hardship on me and my wife, with medical and Dr. bills raising All the time it will make it hard for us to get by , most of us senior citizens Are living at poverty level or close to it. We need your help on this rate hike.

Thank You

*William E. Fyffe*
