PUBLIC SERVICE
COMMISSION

2/19/10

Please! I am on a fixed income.
I have cut corners as much as possible
I have done without things I use to enjoy.
I got no cost of living raise this year
and probably won't for more years to come!
But I'm sure that doesn't bother you!

I must have food and my medicines
to live. I can do without clothes. So
what do I do when you add a 35% raise
on my power bill? I hope your mother
is better off than I am. It seems like
my age group are the only ones who aren't
getting a raise or a break any where,
anyway or anytime!

Hope you have a good day and sleep
well at night. I will have this be-
cause I know the one who is in control
of all things.

I'll say a prayer for you and
your company, you need it more than
I do.

Treva J Stapleton 75 yrs old.
