Name: William Mace Baker
 Address: 5819 Left Fork Mace's Creek Rd.

Case: _____

COMMENTS: I have a 2500^(+/-) sq ft home in Perry County which was built 3 years ago. It has 2 Trane heat pumps and sits on the north side (dark side) of the mountain. This past winter the electricity was off for (7) seven full days during the Christmas holidays forcing me to purchase a \$800 generator. The following month our electric bill was \$400. It was not a good Christmas. We deserve equal utility services (ie. maintain right of way) just as the best of the people in the state.

William M. Baker
