Kentucky Public Service Commission:

My husband and I are senior citizens 76 and 72 years old, we have never asked for anything except fair treatment as up standing people that has always paid our way. With the economy being in a state that has taken its toll on all of us, a 34.95% purposed rate increase in our electric that is already at a rate we set our thermostat this winter at 64 degrees too get our budget down from a \$340.00 to \$320.00 a month will make it difficult. So, I'm objecting too the purposed increase. I don't feel it necessary to list all the ways the increase will effect most seniors that are on a fixed income, with no increases Social Security.

Thank you,

John T. and Jelema F. Gambill
