Case: AEP's Proposed Rate Increase

COMMENTS: AEP is no different than
the auto & banking industries. This
CEO's salary is NOT fair, just nor reasonable
especially when it comes to passing the
expense onto consumers when it is clearly
mismanagement - why reward mismanagement?

Once again, the taxpayer is being dumped on.
Not only will we pay this increase in the
form of our monthly electric bills but we
will also be paying that cost when handed
down to the consumer of EVERY
business it affects whether its
increased water bills or grocery bills
we will get it many times.

It is unfair -- there is nothing
just or reasonable about this
raise.

They deserve 2-3% & learn
how to manage a budget like
we do.
