Dear Sirs:

Being a senior on a fixed income, my electric bill averages 700.00 to 714.00 monthly at present time, due to oxygen that is necessary for my breathing. So, my feeling is that the amount you are planning to raise the current charges are very unfair and exorbitant. Any raise at this time of our economy is unrealistic but 35%! Really, NO.

Please rethink this action not only for us seniors but other citizens and their plight. Thank you.

Loraine Walker
