To Whom it May Concern:

I just received notice from Kentucky Utilities stating that they are going to request a rate increase. They estimate that this increase would mean an average of \$10 on a monthly bill. That amount may not seem much to people who are working, however, retired people did not get an increase in their monthly check this year nor last year. We also have so many people out of work this hardly seems the appropriate time to increase utility bills. Suppose all utilities requested the same?

Yours truly,
Shirley White
