Dear Sir,

With a \$350⁰⁰ + electric
bill the last 2 months
we cannot afford a increase
of any percent. We
are retired and on a
fixed income and were
not even given a cost of
living raise this year. We
also must eat and buy
medicine. We have always
paid our bills but may
not be able to in the
future. Our account #

Kentucky Utilities

Sincerely,
Thomas E. Under
