PUBLIC SERVICE
COMMISSION

Dear Public Service Commission,

This letter is in protest of the Adjustment of Rates Requested from Kentucky Utilities on January 29, 2010 AND AS Communicated to me by A notice in my most current electric bill. I really do not know why I am wasting my time writing to you, AS I have many times before, because it seems that anything a utility company requests the Public Service Commission is glad to impose regardless of the protest of people like myself.

I cannot believe KU is looking for yet another rate increase, seems like they ask for one almost yearly. I am on Social Security AND I did not get an increase this year AND K.U. should not either. The government says there is no inflation so therefore no increase in Social Security, but I can testify that every time I go to the store everything is higher, everytime I go to the gas

Station fuel is higher. My company which I am retired from has dropped my good insurance plan and now I must pay more for prescription drugs, more for health care, more and more and more.

I could go on and on about how much more everything costs, but since you will give KU the Green light anyway, why do I bother. Just wanted you to know that I think it's a sin if you allow an increase, and with all the increase of crooks in this world I think KU is adding their name along with the folks at the oil company, health care and on and on.

Finally I just want to say I strongly oppose any K.U RATE increase and the Public Service Commission is supposed to work for us citizens of Kentucky, not for the utility companies.

Respectfully

Robert Lee Judon

customer, taxpayer, beat down by increases in wealthy companies.
