PUBLIC SERVICE  
COMMISSION

To whom it may concern: 2-25-1

I am writing to ask, that please reconsider + don't raise the Kll Electric rate. I am already behind on my current bills. You see I was permanently laid off from my job of 8 years, + only receive unemployment insurance (closed down Sept. 09.) I have, not been as lucky to find another job yet. I have to buy food medication, + pay other bills also, on the very low amount I receive. Please reconsider, don't raise the current rate in an already struggling econ. This will cause an even more hardship on me, when things are already looking bad. Please listen and help, I am poor, and cannot handle a higher bill.  
Sincerely, Audie Knight.
