RE: Rate increase

Dear Commissioner:

I am aware that the rate increase for Kentucky Utilities has already been approved, but I still wish to express disapproval anyway. It seems inappropriate for KU or any other utility to receive annual rate increases of 11.5% when our economy is in such disarray. It is unacceptable for them to have double digit increases when most residents are losing jobs, getting no raises or cost of living adjustments, or at best getting a raise at the rate of one or two percent. In fact, I know state employees that have not received raises in 5 years of more because of the state budget issues.

As a church treasurer, I have noticed that giving is down but holding steady in comparison to the weak economy.

In short, it would seem time for the utilities to receive rate increases equal to the economy and the salary increases that residents of KY see in their paychecks.

Thank you for your time.

Sincerely,

Steven Dickerson, Treasurer
London Seventh-day Adventist Church
