Case: K.U. Rate Increase

COMMENTS: With the economy the way it is with everything else raising in price except for people's wages how can KU justify the large of a rate increase? People on fixed incomes which is probably the majority in Harlan County how are they to survive? It is coming to the point of deciding whether to eat, pay bills, or medical costs such as prescriptions. A smaller increase of 3-5% would be more in line with all other increases
