PUBLIC SERVICE  
COMMISSION

Dear Kentucky Public Commission:

This letter is to complain about the recent request by LG&E to increase its electric and gas rates by 12.19% for my personal residence.

As a Louisville home owner I have received an increase in the past six (6) months in my Louisville Water Company bill, Insight Communications bill and Waste Management bill.

The only thing that isn't increasing for me, and many others, are wages. I feel that it is unfair of LG&E to ask to increase their rates by such a steep percentage rate, particularly because I have no other alternative for my gas and electric services, and for this reason I respectfully wish that you deny their request.

Sincerely,

Chelsea Adams
