Dear Public Service Commission,

I am writing in regards of the 12.19% increase for electricity and the 8.75% increase for gas. I feel as if I am being robbed.

I know the shareholders are important. This economy is slow, a rate increase of this magnitude would hurt. I feel as though I'm paying enough as is.

Storms, yes, we have had a few, but that should be included in your budget. How about letting the rates remain the same?

Respectfully Submitted,
