Reference: Lou. Gas & Elec. Companies
desire to raise Rates on their Customers,

Case no: 2009-00549-LG&E

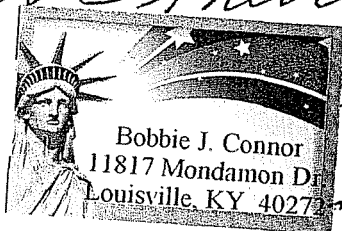

I disapprove of the requested
rate hike by such a large
and profitable company.

Based on my Jan, 2010 bill the
rate increase would be \$59.10
above the posted \$52.77 charged for
usage and would raise my customer's
charge by \$10.00 which would be \$15.00
rather than \$5.00 now charged.

As for Gas usage the charge
they are asking for would cost
my gas bill to go from \$83.29 for
this month to an increase it would
be \$31.79 more with the change in
distribution charge.

I Request the Commission not
approve their Request.
