Subject: L&T E Rate Case 2009-00549

I am a Senior Citizen on a small
Security Check with no raise promised.
I have already lowered my thermostat
to save energy.

With a customer charge increase rate
would be a hardship as there is no
way to cut energy cost Plus Bullitt Co.
adds a school tax.

Please say NO to this increase.

If they need money, raise usage
rate and we can wear more clothes.
