Ref. LG+E case number  
2009-00549

Dear Sir:

Just a few comments about LG+E and their rate hike proposals.

I would like to ask them this. If my house burns down, and I don't have insurance will they come and rebuild it for me? I don't think so. So why don't they carry insurance to cover those storm damages??

In addition if they need to build another generating in Fremble County, let them build it and pay for it. I know we are not going to realize any of the profits they make. Another subject: The Louisville Water Co and MSD.

MSD is at it again. Each and every year 6 1/2 % or 7% raise increases. They ask the Water Board for the raise, they rubber stamp it, and thats it. Someone should insist that they be governed and held responsible to the public.
