RE: Case No. 2009-00006

The following is in response to Order received April 25, 2009 and dated April 22, 2009. We have endeavored and will attempt to compile a list of potential and suitable alternative locations for the proposed T-Mobile cell tower.

This list of suitable alternative sites for the proposed T-Mobile cell tower are in order of our preference. You will find aerial views, and map also depicting this same order of preference.

1. N 37° 39.047', W 086° 28.029'
2. N 37° 38.885', W 086° 28.040'
3. N 37° 38.857', W 086° 27.994'

We would also like to note that the common property line between ourselves (Henning) and the Gahagan property is the center of an old county roadbed, "Old Monasterys Road". T-Mobile may want to talk with the county officials and property owners about reopening this road. This road would provide access to anyone of these alternative sites. We (Henning) as property owners would not be opposed to this.

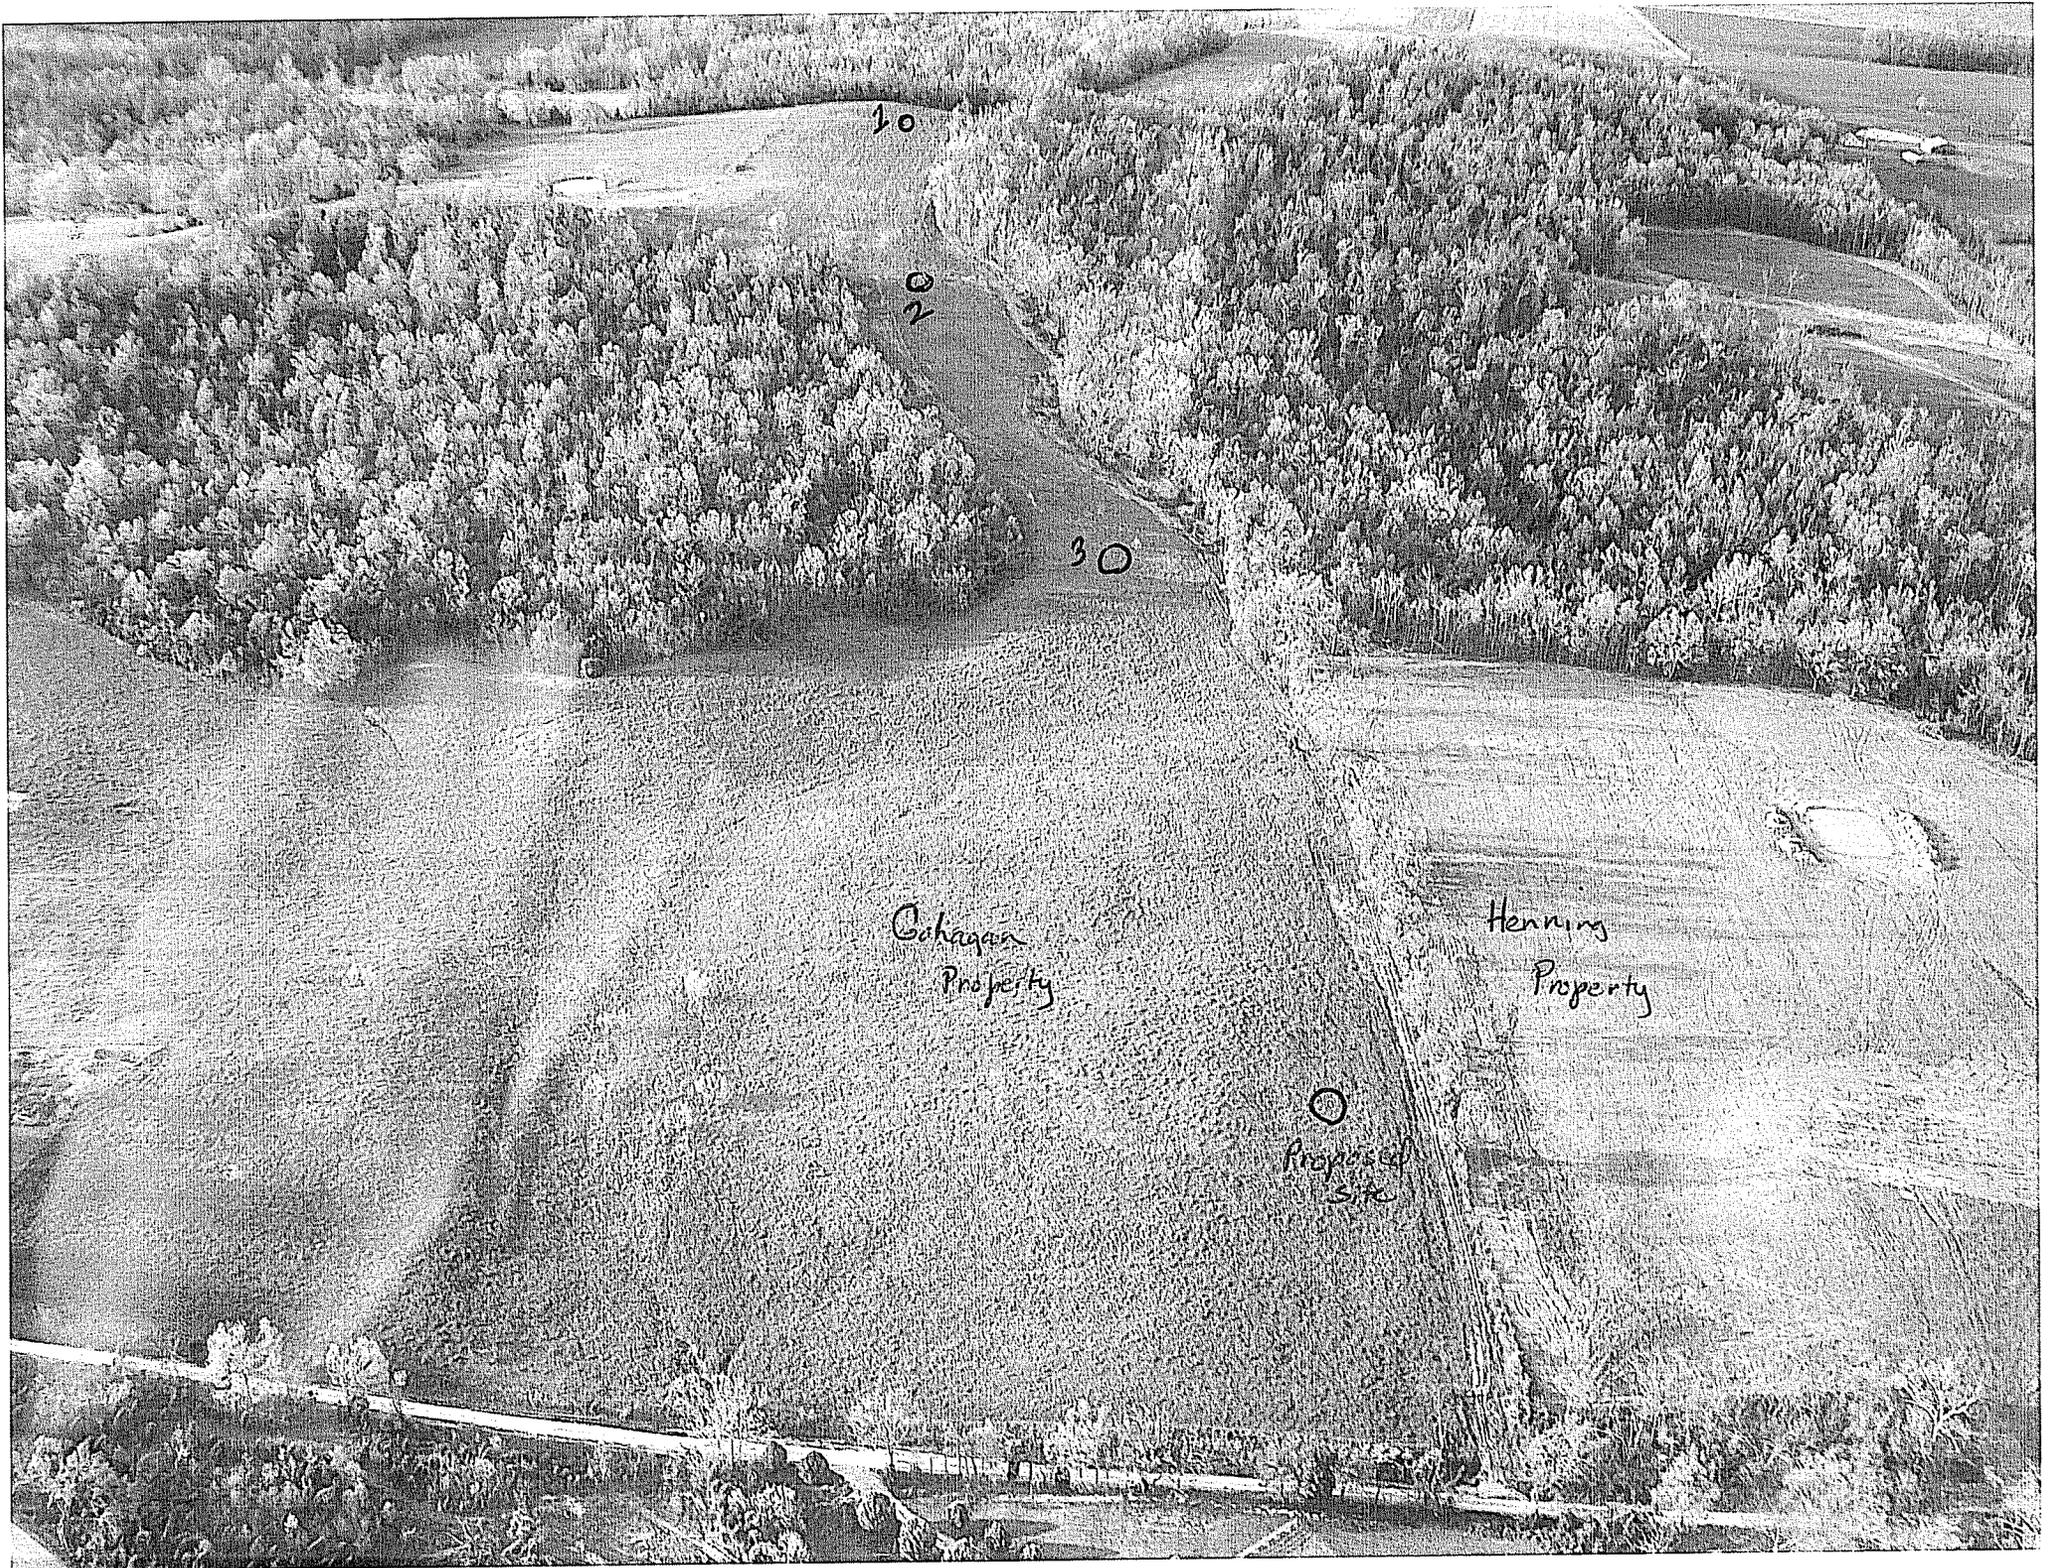

We feel the above alternative sites would have less impact on our property and the plans that we have for our property. We petition you to please take our concerns seriously and we hope that we can all reach an agreeable end to this.

Please note that if there is a formal hearing in this proceeding we do plan to appear.

Sincerely,

James A. and Nancy E. Henning
