

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION  
CASE NO. 2009-00031

**RECEIVED**  
JUL 27 2009  
PUBLIC SERVICE  
COMMISSION

**In The Matter of:**

**REQUEST FOR DEVIATION OF COW CREEK GAS, INC.**

**RESPONSES OF COW CREEK GAS, INC. TO SECOND DATA REQUEST OF  
COMMISSION STAFF DATED JULY 1, 2009**

---

Comes Cow Creek Gas, Inc. ("Cow Creek") and submits herewith its Response to Commission Staff's second data request dated July 1, 2009.

**DATA REQUEST AND RESPONSE**

1. The response to Item 2 of the Commission Staff's First Data Request stated that the original request for deviation was for both Cow Creek Gas systems (one near Allen, Kentucky and the other near Salyersville, Kentucky). Item 10, part c. of the request asked that a system map for each section affected by the deviation request be provided. However, only a map of the "original Cow Creek system," which does not meet the requirements of a system map as outlined in 807 KAR 5:006, Section 22 (shown below) was included in the response. Provide a system map or maps which comply with 807 KAR 5:006, Section 22, for each Cow Creek Gas system.

**807 KAR 5:006.** General rules. Section 22. System Maps and Records.

(1) each utility shall have on file at its principal office located within the state and shall file upon request with the commission a map or maps of suitable scale of the general territory it serves or holds itself ready to serve showing the following:

- (a) Operating districts.
- (b) Rate districts.
- (c) Communities served.

- (d) Location and size of transmission lines, distribution lines and service connections.
  - (e) Location and layout of all principal items of plant.
  - (f) Date of construction of all items of plant by year and month.
- (2) In each division or district office there shall be available information relative to the utility's system that will enable the local representative to furnish necessary information regarding the rendering of service to existing and prospective customers.
- (3) In lieu of showing the above information on maps, a card record or other suitable means may be used. For all construction the records shall also show the date of construction by month and year.

**RESPONSE:**

Enclosed are Exhibits 1, 1a, and 2. Exhibits 1 and 1a are maps of the Cow Creek Gas system located near Salyersville, Kentucky as outlined in 807 KAR 5:0006, Section 22.

Exhibit 2 is a map of the original Cow Creek Gas system located near Allen, Kentucky as outlined in 807 KAR 5:0006, Section 22.

Respectfully submitted this 24<sup>th</sup> day of July, 2009.

This certifies that Michael J. Potter prepared the foregoing Response on behalf of Cow Creek Gas, Inc., and that the Response is true and accurate to the best of his knowledge, information and belief.
