John,

Attached are the excel sheets you requested for DEK Electric & Common.

John, Mark Knue will be your contact over the next couple of weeks while I am out of the office. Mark has downloaded the information per your request below. Mark will be sending you the data files and will be mailing hard copies of the reports to your office (PO Box 67100). Mark will send this information Thursday.

Mark thanks for finishing this up for me.

JIM

Subject: RE: DEK Rate Case

Jim:

We need some help on the data you sent us for Duke Energy Kentucky.

1) We never received any hard copies of the files.
2) Can you send plant statements similar to the reserve statements, except I need each plant and reserve statement by year not the entire three year period in one file
3) The addition, retirement and transfer files need to be in separate files by year or I need a column that identifies the year each transaction was actually booked. The engineering-in-service works for the vintage.

Thanks

John

Attached are the data files that you requested. I will be mailing the hard copy of the files also.

I have not included one item that you have requested as part of the electric data request....
A list of probable retirements dates in effect from the operations/engineering departments.

Carl, what process have we used to obtain these dates? Is this an email to Barry Pulskamp? Also John did not ask for a demolition study for the Kentucky plants, is one required or needed?

Gas will be sent separately.

Subject: FW: DEK Rate Case

John, looks like Regulatory is now planning for a full case in Kentucky as opposed to just gas. Please let me know if you have any concerns with meeting this timeline given the Carolinas case timeline crunch.

Jim is going to get the data pulled – would be helpful if you could send us the data requirements (like with the Carolinas work), particularly noting how much info you currently have in your database and how far back we need to go. Also, please go ahead and prepare an engagement letter based on the information below.

Mark, what are the plans with respect to Smartgrid deployment in Kentucky? If plans exist we will need to prepare an accelerated rate for the existing installed base of meters to get them fully depreciated over a shorter remaining life.

Subject: DEK Rate Case

Back in November, Lisa Carver let John Spanos know we were planning to file a DEK gas rate case about June 1 of this year. Recently, we started discussing a combined gas and electric filing in Kentucky. The Order and Stipulation in our last DEK electric rate case (Case No. 2006-00172) requires the Company to conduct a new depreciation study for its electric plant to be filed by the earlier of the filing of an application to increase retail electric base rates or January 1, 2014. Considering the possibility of a DEK electric case this summer, you should let John know we will need depreciation studies for gas, electric and common in Kentucky. We will need the revised depreciation accrual rate schedules (Part III, pages 4 thru 6) by April 24th and the final Depreciation Study and John's testimony by May 8th. When a final decision is made on the electric case, I'll let you know. Thank you!

John,

Here is the additional information you requested. I will mail out the hard copies shortly. Please let me know if you need anything else.

Mark & Jim:

I have erred in my request for data on the gas side. I have only requested data from October 1, 2005 but I really need data from October 1, 2004. Could you please prepare the additional plant and reserve data and statements for the twelve months that I am missing? I will need this identified by calendar year.

I apologize for the error.

John

John, Mark Knue will be your contact over the next couple of weeks while I am out of the office. Mark has downloaded the information per your request below. Mark will be sending you the data files and will be mailing hard copies of the reports to your office (PO Box 67100). Mark will send this information Thursday.

Mark thanks for finishing this up for me.

JIM

Subject: RE: DEK Rate Case

Jim:

We need some help on the data you sent us for Duke Energy Kentucky.

1) We never received any hard copies of the files.
2) Can you send plant statements similar to the reserve statements, except I need each plant and reserve statement by year not the entire three year period in one file
3) The addition, retirement and transfer files need to be in separate files by year or I need a column that identifies the year each transaction was actually booked. The engineering-in-service works for the vintage.

Thanks

John

Attached are the data files that you requested. I will be mailing the hard copy of the files also.

I have not included one item that you have requested as part of the electric data request....

A list of probable retirements dates in effect from the operations/engineering departments.

Carl, what process have we used to obtain these dates? Is this an email to Barry Pulskamp? Also John did not ask for a demolition study for the Kentucky plants, is one required or needed?

Gas will be sent separately.

Subject: FW: DEK Rate Case

John, looks like Regulatory is now planning for a full case in Kentucky as opposed to just gas. Please let me know if you have any concerns with meeting this timeline given the Carolinas case timeline crunch.

Jim is going to get the data pulled – would be helpful if you could send us the data requirements (like with the Carolinas work), particularly noting how much info you currently have in your database and how far back we need to go. Also, please go ahead and prepare an engagement letter based on the information below.

Mark, what are the plans with respect to Smartgrid deployment in Kentucky? If plans exist we will need to prepare an accelerated rate for the existing installed base of meters to get them fully depreciated over a shorter remaining life.

Subject: DEK Rate Case

Back in November, Lisa Carver let John Spanos know we were planning to file a DEK gas rate case about June 1 of this year. Recently, we started discussing a combined gas and electric filing in Kentucky. The Order and Stipulation in our last DEK electric rate case (Case No. 2006-00172) requires the Company to conduct a new depreciation study for its electric plant to be filed by the earlier of the filing of an application to increase retail electric base rates or January 1, 2014. Considering the possibility of a DEK electric case this summer, you should let John know we will need depreciation studies for gas, electric and common in Kentucky. We will need the revised depreciation accrual rate schedules (Part III, pages 4 thru 6) by April 24th and the final Depreciation Study and John's testimony by May 8th. When a final decision is made on the electric case, I'll let you know. Thank you!

Duke Energy Kentucky, Inc.
Case No. 2009-00202
First Set Attorney General Data Requests
Date Received: August 17, 2009

AG-DR-01-095

REQUEST:

Please provide copies of all industry statistics available to Mr. Spanos and/or Duke relating to gas or common depreciation rates. Also, identify all industry statistics upon which Mr. Spanos or the Company relied in formulating the depreciation proposals.

RESPONSE:

Please see Attachment AG DR-01-95 on Spanos Data CD. The attached spreadsheets set forth the industry statistics primarily relied upon by Mr. Spanos in formulating the depreciation proposals.

PERSON RESPONSIBLE: John J. Spanos

Duke Energy Kentucky, Inc.
Case No. 2009-00202
First Set Attorney General Data Requests
Date Received: August 17, 2009

AG-DR-01-096

REQUEST:

On an account-by-account basis, which accounting method is reflected in the life studies "location-life" or "cradle-to-grave"? Also, what is the impact of the accounting method used on the lives calculated in the Depreciation Study?

RESPONSE:

All accounts utilized "cradle-to-grave" accounting methodology. Cradle-to-grave methodology generally produce longer service lives than "location-life" lives.

PERSON RESPONSIBLE: John J. Spanos

Duke Energy Kentucky, Inc.
Case No. 2009-00202
First Set Attorney General Data Requests
Date Received: August 17, 2009

AG-DR-01-097 PUBLIC

REQUEST:

Please provide a copy of the Company's current capitalization policy. If the policy has changed at all since 2000, please provide a copy of all prior policies in effect during any portion of that period.

RESPONSE:

CONFIDENTIAL PROPRIETARY TRADE SECRET

This response is being filed with the Commission under a Petition for Confidential Treatment.

PERSON RESPONSIBLE: N/A

AG-DR-01-098

REQUEST:

Please identify and explain all changes since the last depreciation study which might affect depreciation rates.

RESPONSE:

The company continues to replace old distribution mains and services on an accelerated program, Accelerated Main Replacement Program (AMRP).

PERSON RESPONSIBLE: Brenda R. Melendez

AG-DR-01-099

REQUEST:

Please provide the Company's most recent Asset Management Plan or any similar document used to plan for maintaining plant capacity, reliability and efficiency.

RESPONSE:

No such document exists.

PERSON RESPONSIBLE: Gary J. Hebbeler

Duke Energy Kentucky, Inc.
Case No. 2009-00202
First Set Attorney General Data Requests
Date Received: August 17, 2009

AG-DR-01-100

REQUEST:

Please provide a copy of the Company's 2006, 2007 and 2008 annual reports to the KY Public Service Commission. Please reconcile the December 31, 2008 plant shown in the Depreciation Study with the EOY 2008 plant shown in the 2008 Commission Report, and provide a complete explanation for each difference.

RESPONSE:

See response to AG-DR-01-157 for 2006 & 2007 reports.

See Filing Requirement 10(9) (k) for 2008 report.

See response to AG-DR-01-158 for 2008 reconciliation.

PERSON RESPONSIBLE: Brenda R. Melendez
