The Madison County Utilities District Board of Directors has approved the replacement of existing water meters with new tested and calibrated Automated Meter Reading (AMR) meters over a 5-year period.

The Madison County Utilities District is requesting an approval of deviation from Administrative Regulation 807 KAR 5:066, Section 16, Periodic Tests to avoid redundant costs to its customers for meters that are about to be replaced.

We propose to implement the replacement of all small meters, approximately 11,000 with the new tested and calibrated AMR meters beginning in 2009 and completing in 2014.

We calculate the additional cost to the utility to replace all small meters with non AMR meters between 2009 and 2014 would be approximately \$385,000.

We look forward to your response to our request for this deviation.

Sincerely,

John C. Clark  
Manager
