Dear Executive Director,

I became aware of the activity on and near my property. I was concerned because there were "survey pins" located on part of the property which I own. I was relieved when I received your letter for the "proposed cite" for the monopole tower and ground facilities so at least I know what the "activity" was related to.

I have several questions that hopefully you can answer. Should there be a re-survey for the proposed monopole and ground facility and at whose cost? If not and construction continues, how will Cingular Wireless compensate me for the area of my property they want to use? If a new survey shows that they are indeed on my property, does Cingular Wireless want to buy that portion of the property? At what cost?

If you could notify me and provide answers to my questions I would greatly appreciate it.
