O R D E R

On September 23, 2009, Kentucky Utilities Company ("KU") filed with the Commission its application seeking Certificates of Public Convenience and Necessity to qualify it to bid on franchises for electric service offered by the cities of Somerset, Sturgis, and LaCenter, Kentucky. Under the provisions of KRS 278.020(4), no utility may apply for a franchise from any governmental agency until it has obtained a Certificate of Public Convenience and Necessity from this Commission, based on our finding that there is a need and demand for the service sought to be rendered.

In light of the ordinances of the cities of Somerset, Sturgis, and LaCenter creating electric distribution franchises, the Commission determines that there is evidence of a need and demand for electric service in the above-mentioned cities. Since the Commission's authority in such matters is limited by statute to finding only whether there is a need and demand for the service sought to be rendered, no finding or determination is made as to the qualifications of the bidder, the validity of any of the provisions of the franchises offered by said cities, or the manner in which any franchise fee is to be treated for rate purposes.

IT IS THEREFORE ORDERED that:

1. KU is granted Certificates of Public Convenience and Necessity that authorize it to bid on franchises for electric service offered by the above-mentioned cities.

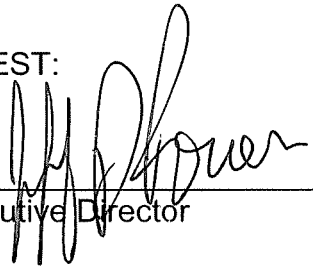

2. KU, if it becomes the successful bidder, shall file with this Commission two copies of each franchise agreement.

3. This Order shall not be construed as granting Certificates of Public Convenience and Necessity to construct utility facilities in said cities.

RE: Application of Kentucky Utilities Company for a Certificate of Public Convenience and Necessity Authorizing KU to Bid on Franchises Established by the Cities of Somerset, Sturgis, and LaCenter, Kentucky

Dear Mr. DeRouen:

Enclosed please find an original and 10 copies of an Application for Certificates of Public Convenience and Necessity ("CCN"), to enable Kentucky Utilities Company (the "Company") to apply for electric franchises with the Cities of Somerset, Sturgis, and LaCenter, Kentucky (collectively, the "Cities") pursuant to KRS 278.020(4). In a regular session held on June 22, 2009, the City Council of Somerset, Kentucky passed Ordinance No. 09-10, which directed the advertising for bids and selling of an electric franchise in the City. In a regular session held on September 14, 2009, the City Council of Sturgis, Kentucky passed Ordinance No. 09-09-14, which directed the advertising for bids and selling of an electric franchise in the City. In a regular session held on September 8, 2009, the City Council of LaCenter, Kentucky passed Ordinance No. 112, which directed the advertising for bids and selling of an electric franchise in the City. We respectfully ask for an order granting the CCN by October 12, 2009 to enable KU to bid on the franchises by the earliest of the sale dates of October 12, 2009.

For many years, the Company has been the owner of separate franchises granted by the Cities to erect facilities for providing electric service to the City and the inhabitants thereof. The franchises to be obtained will replace the previous franchises.

If you have any questions, please do not hesitate to contact me.

Very truly yours,

Allyson K. Sturgeon

KCTCS Graduates Eligible For College

High school students who graduate from any of the Office of Career and Technical Education's Kentucky Tech secondary schools may be able to receive college credit under a new agreement between the Kentucky Education and Workforce Development Cabinet and the Kentucky Community and Technical College System (KCTCS).

Education and Workforce Development Cabinet Secretary Helen W. Mountjoy said the agreement can offer a seamless path from secondary to postsecondary education for these students.

"This partnership helps us promote postsecondary educational opportunities for Kentucky students while rewarding them for taking initiative during high school. These agreements benefit our students and the state by encouraging them to explore technical careers and further their education," said Mountjoy.

While the educational sys-

tems have worked together for many years, the recently signed dual credit and articulation agreements will allow a graduate from any of the 54 Kentucky Tech schools, commonly known as area technology centers (ATC), the opportunity to receive college credit for some classes. The articulation agreement will allow any student who has taken an eligible course at an ATC to transfer that course to the KCTCS within three years, while the dual-credit agreement will let students receive college credit while they are still in high school.

"These agreements will allow most of the 21,000 students enrolled in KY Tech programs to have access to what can honestly be called AP technical credit," said OCTE Executive Director John Marks. "To ensure a seamless transition from secondary to postsecondary institutions, a dual credit agreement template has been developed by OCTE and KCTCS system offices for use between each local KCTCS campus and ATC. The KY Tech system of schools is nationally accredited, industry certified and prepared to help students transition into postsecondary education and the re-
