2009-00452

Dear Mr. Derouen:

The Wood Creek Water District Wastewater Division respectfully requests that the Commission allow us to make an adjustment in our rates in accordance with 807 KAR 5:067 Purchased Water Adjustment Clause.

Our District currently has approximately 1,050 wastewater customers. We pump the wastewater to the City of London for treatment. The previous rate paid to the City is \$2.63 per 1,000 gallons. The rate has been increased to \$2.74 per 1,000 gallons.

During the 12 month period ending October 2009, we paid the City of London \$134,072.32 for treatment of 48,931,500 gallons. Our wastewater billing during that period was \$275,347.42 based on water usage of 50,925,125 gallons. The difference between the old cost and new cost to treat would be \$5,382.47 and the adjustment factor would be .1060 per 1,000 gallons. We propose to add \$0.11 to each block of our current wastewater rates.

The following documents are enclosed:

- Exhibit A. Purchased Rate Adjustment calculations
- Exhibit B. Statement of amount paid for treatment
- Exhibit C. Statement of gallons and amount charged to wastewater customers
- Exhibit D. Copy of notice received from wholesale supplier
- Exhibit E. Tariff Sheet
- Exhibit F. Notice to Customers

If you have any questions, please contact Dewayne Lewis at (606) 877-9414, as he is handling this matter. Thank you very much for your help.

Yours truly,

Glenn Williams, Chairman  
Wood Creek Water District
