PUBLIC SERVICE
COMMISSION

RE: Case Number 2009-00495, New Cingular Wireless PCS, LLC

Dear Mr. Campbell,

New Cingular Wireless PCS, LLC has received a copy of your letter sent to the Kentucky Public Service commission regarding the above application. We understand your concern and assure you that careful consideration of the surrounding environment was emphasized during the site selection process.

Section 706 of the Telecommunications Act of 1996 directed the Federal Communications Commission (FCC) to encourage deployment of advanced telecommunications capability to all Americans on a reasonable and timely basis. The FCC has also furthered the intentions of Congress by repeatedly emphasizing the importance of wireless emergency 911 services for the greater public safety. The daily average of 911 calls made using wireless services has steadily increased with a continuing trend as numbers of wireless subscribers are increasing. Moreover, federal, state and local public safety authorities routinely rely on wireless network infrastructure to deploy wireless communication equipment necessary for essential emergency services and supporting homeland security.

New Cingular Wireless PCS, LLC, as holder of the wireless license in this area, is required by the FCC to adequately provide wireless coverage throughout this license area in a timely

manner. We take this duty seriously and annually spend millions of dollars throughout the Commonwealth of Kentucky in support of this requirement. The selection of the location for our infrastructure is based upon radio frequency analysis of our existing and planned network capabilities and not only includes existing coverage but also capacity within the license area.

Please feel free to contact me with any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Todd R. Briggs". The signature is fluid and cursive, with the first name "Todd" being the most prominent.

Todd R. Briggs

Counsel for New Cingular Wireless PCS, LLC
