Subject: Proposed KU rate increases
Auto forwarded by a Rule

Dear Sir or Madam,

I'm sure that you are aware of the proposal by Kentucky Utilities to raise their rates to all their customers. As a loyal citizen and tax payer I am appalled by this. The way the economy is now and the way it is just now starting to effect Kentuckians, now should not be the time to raise our energy bills. I like I'm sure many other people can barely afford to feed my family and keep us in our home and now they want to make it harder to live.

I understand the concept of business and that you can't "Go Green" and let everyone conserve and lose money at the same time. But I would gladly send all the free light bulbs and other things they send back to keep them from raising our rates.

I would just like you to help all KU customers and also spread forward this message to anyone that will listen that can stop this proposed rate increase.

Maybe when Kentuckians have recovered from this economic crisis then KU can readdress this rate increase.

Thank you for reading this and I hope that I'm not the only one that has reached out to you. I also hope that there is something you can do.

Thanks again
