**1. INTRODUCTION**

**Q. Please state your name and business address.**

A. My name is Charles Buechel and my business address is 116 Carrie Ct.,  
Lexington, KY 40515.

**Q. By whom are you employed?**

A. I am the President and sole proprietor of Utility and Economic Consulting,  
Inc. The firm provides consulting services regarding utility regulatory matters.  
The firm’s consulting services are provided to regulatory commissions, utilities  
and customers. My resume is attached as Exhibit CDB-1.

**Q. On whose behalf are you testifying in this case?**

A. I am testifying on behalf of the Kentucky School Boards Association  
(KSBA).

**Q. Please describe the KSBA.**

A. The KSBA is a nonprofit corporation of school boards from each public  
school system in the state. The association, founded in 1936, serves school  
boards and districts in such areas as governmental relations, board member and  
staff training, insurance and risk management, legal, policy, publications and  
community relations. It is governed by a 27-member statewide board of  
directors. With nearly 900 members, KSBA is the largest organization of elected  
officials in Kentucky.

**Q. What is the purpose of your testimony?**

1 A. My testimony's purpose is two-fold. First, I will discuss the potential  
2 impact of LG&E's proposed tariff and rate changes on the many schools that  
3 LG&E serves. Second, I will discuss the importance of the proposed changes in  
4 light of the 2008 legislation passed by the Kentucky Legislature. KRS 160.325 -  
5 Mandatory Participation in Kentucky Energy Efficiency Program - requires each  
6 board to enroll in the Kentucky Energy Efficiency Program at the University of  
7 Louisville to obtain information regarding the potential energy savings for every  
8 board-owned and board-operated facility.

9

10

## 2. IMPACT OF PROPOSED CHANGES

11 **Q. Have you reviewed the rate and tariff changes that LG&E has proposed?**

12 A. Yes I have.

13 **Q. What changes are of particular concern?**

14 A. The large increases that LG&E has proposed for what it now calls the  
15 Basic Service Charge are of particular concern. For General Service - Rate GS  
16 single-phase service, the charge increases from \$10 per meter per month to \$20 -  
17 a 100% increase. For GS three-phase service, the charge increases from \$15 per  
18 meter per month to \$35 - a 133% increase. For Commercial Power Service,  
19 which will now be served under the Power Service Rate PS, the basic service  
20 charges for both secondary and primary are proposed to increase from \$65 per  
21 meter per month to \$90 - a 38% increase. The basic service charge for

1 Commercial Time-of-Day Secondary and Primary Rate is proposed to increase  
2 from \$90 per meter per month to \$200 – a 122% increase.

3 **Q. Why are these changes so disconcerting?**

4 A. Historically, the Commission has implemented cost-based rates in a  
5 gradual fashion. Although the company witnesses have testified that their  
6 implementation approach is gradual, I would disagree. Increases in basic service  
7 charges of 38% to 133% are hardly gradual. For low-energy consumers, these  
8 increases can be devastating.

9 **Q. Are you suggesting that schools are low-energy users?**

10 A. The answer to that question is not as obvious as one might think. The  
11 classroom facilities that the school boards operate are not likely to be low-energy  
12 users. However, school boards operate many other facilities. These facilities  
13 may include sheds, garages, pumps, athletic spaces, etc. Most of these facilities  
14 are metered separately and therefore are served under whichever tariff applies.  
15 They would be confronted with the much higher basic service charge regardless  
16 of usage. With school budgets already stretched to their limits, any increase is  
17 not welcome, but a disproportionate increase is intolerable.

18 **Q. What is your recommendation to the Commission?**

19 A. I recommend that the Commission continue on the course it has followed  
20 for several years. Base rates on costs, but implement strict cost-based rates in a  
21 gradual manner so as to avoid serious financial disruptions for some customers.  
22 I understand the goal of the Company to eliminate inter- and intra-class

1 subsidies but they cannot be eliminated too quickly. The interests of the  
2 ratepayers and the impact on them must also be carefully considered. Finally,  
3 the Commission needs to be mindful that the Company has an interest in  
4 generating as much revenue as it can through basic service charges because it  
5 provides a more certain revenue stream.

6

7

### 3. CONSIDERATION OF KRS 160.325

8 **Q. Could you describe KRS 160.325?**

9 A. Certainly. I have attached a copy of the statute to my testimony as Exhibit  
10 CDB-2. Basically, the legislation requires all of the school boards in Kentucky to  
11 participate in the Kentucky Energy Efficiency Program offered by the Kentucky  
12 Pollution Prevention Center at the University of Louisville. The potential energy  
13 savings for every board-owned and operated facility will be assessed. Beginning  
14 December 1, 2011 and every year thereafter, the Kentucky Pollution Prevention  
15 Center will prepare a report to be filed with the Governor's Office of Energy  
16 Policy and the Legislative Research Commission. The report will provide the  
17 status of the development of energy management plans by the boards of  
18 education and identify the anticipated savings to be obtained from the plans.

19 **Q. How do you expect the boards will proceed with this initiative?**

20 A. My understanding is that one of the first steps will be for each of the  
21 school boards to submit information on each of the facilities that it operates and  
22 sufficient billing information to determine under which tariff service is provided

1 and the typical usage. This will accomplish two goals. First, it will enable the  
2 analysts to determine that the service is being provided under the appropriate  
3 tariff. Based on some recent experience, KSBA has discovered that the  
4 appropriate tariff has not always been utilized. Second, the usage and billing  
5 information will be needed to begin assessing the potential savings from various  
6 energy management plans.

7 **Q. Why is it important that the Commission be aware of this initiative in**  
8 **its consideration of this rate case?**

9 A. In its filing, the Company has proposed to eliminate some tariffs and  
10 move customers served under those tariffs to new tariffs. Although this may  
11 cause some complications and duplication of efforts for the Kentucky Energy  
12 Efficiency Program, I am confident they can sort through these changes. The  
13 larger concern is the large increases proposed for the basic service charges. This  
14 shifting of cost from a variable rate component to a fixed rate component has  
15 clear implications for assessing the potential savings of various energy  
16 management programs. The school boards will not be able to escape the fixed  
17 basic service charge. This will reduce the cost-effectiveness of some energy  
18 management programs and also the potential savings from the plans.

19 **Q. What is your recommendation to the Commission regarding this matter?**

20 A. Again, I recommend that the Commission stay the course with its gradual  
21 approach to implementing cost-based rates, in particular with regard to the  
22 significant increase in basic service charges that the Company has proposed.

1 Q. Does this conclude your testimony?

2 A. Yes it does.

COMMONWEALTH OF KENTUCKY

BEFORE THE PUBLIC SERVICE COMMISSION

In re the Matter of:

APPLICATION OF LOUISVILLE GAS )  
AND ELECTRIC COMPANY FOR AN ) CASE NO. 2009-00549  
ADJUSTMENT OF ITS ELECTRIC )  
AND GAS BASE RATES )

AFFIDAVIT OF CHARLES BUECHEL

Comes the undersigned, Charles D. Buechel, being duly sworn, deposes and states that he is President of Utility and Economic Consulting, Inc., that he has personal knowledge of the matters set forth in the foregoing testimony and exhibits, said testimony was prepared by him and under his direction and supervision, if inquiries were made as to the facts in said testimony he would respond as therein set forth and the answers contained therein are true and correct to the best of his knowledge.

  
Charles D. Buechel

COMMONWEALTH OF KENTUCKY )  
 )  
COUNTY OF FAYETTE )

Subscribed and sworn to me this 21<sup>st</sup> day of April, 2010, by Charles Buechel.

  
Notary Public

My Commission Expires: 11/21/2011

**EXHIBIT CDB-1**

**Chuck Buechel**  
**116 Carrie Ct.**  
**Lexington, KY 40515**  
**859-523-3908 (O)**  
**859-361-0088 (C)**

## **AREAS OF SPECIALIZATION**

Mr. Buechel has worked on numerous consulting assignments for electric, gas, water, and telephone utilities. The primary focus of many of these assignments has been regulatory matters, however, he has consulted on other matters, including corporate and strategic planning, incentive regulation, least-cost planning, workforce management, and competitive bidding.

Prior to consulting, Mr. Buechel spent over nine years on the Staff of the Kentucky Public Service Commission. During his tenure at the Commission, he was public utility economist, Director of Research Division, and Deputy Executive Director. His assignments at the Commission included: the preparation of an integrated resource planning regulation; coordinating a statewide load management committee to investigate time-of-day rates and other load management issues; directing staff in rate cases and special investigations; writing orders as directed by the Commission; establishing a management audit program; and testifying in selected cases.

## **SELECTED CONSULTING EXPERIENCE**

*Lower Colorado River Authority* – Senior consultant for an audit of LCRA’s cost allocation methods for assigning costs to various divisions.

*Connecticut Department of Public Utility Control* – Senior Consultant for a management audit of United Illuminating Company. Reviewed primary planning documents and processes for the development of the documents.

*Big Rivers Electric Corporation* – Regulatory advisor for the presentation of Big Rivers’ Unwind proposal to Kentucky Public Service Commission.

*Kentucky Public Service Commission* – Witness before the Federal Energy Regulatory Commission regarding AEP’s membership in PJM and the KPSC’s role in approving the membership.

*Consolidated Edison Company* – Senior Consultant on an audit of emergency restoration and outage planning capabilities for the New York PSC. Audit followed a number of large and highly public outages. Major recommendations were made to develop new strategies and programs for addressing reliability and outage response.

*Maryland Public Service Commission* – Monitored all RFP solicitations for 2007 and 2008 bid years. This amounted to nine solicitations for all four utilities in Maryland. Provided

## Resume of Mr. Chuck Buechel

oversight on bid day, reviewed applications, provided confidential analysis and briefings to the Commissioners on results.

*North American Stainless* – Witness for NAS in Kentucky Utilities Company Case No. 2003-00434 regarding KU's proposed Non-Conforming Load Tariff.

*Pacific Gas & Electric Co.* – Senior Consultant for affiliated audit for 2001 and 2002 calendar years to verify compliance with California PUC restructuring requirements. Assignment included assessment of company plan and audit of affiliate transactions. Acted as the Lead Consultant on areas that addressed Nondiscrimination Standards, Disclosure and Information Standards, and Competitive Services. Recommendations from these reports addressed means of improving compliance.

*Public Service Electric & Gas Company* – Retained by the New Jersey Board of Public Utilities to assess compliance with all Affiliate Compliance and Code of Conduct Rules enacted as a result of restructuring.

*Delaware Public Service Commission* – Monitored all RFP solicitations for 2006 bid year. Provided oversight on bid day, reviewed applications, provided confidential analysis and briefings to the Commissioners and testified on results.

*Seattle City Light* – Retained by the City Council to perform an audit of the municipally-owned Seattle City Light electric utility. Assigned issue was governance of the municipal utility. The audit yielded recommendations for training the council members to better understand the issues and to add additional resources for oversight of the utility.

*Federal Energy Regulatory Commission* – Senior Consultant for an operational audit of the California Independent System Operator. The audit was performed for FERC. Assigned issues of primary focus were market design, the relationships among the parties and governance of the ISO.

*Arizona Corporation Commission* – Senior Consultant to provide advice and assistance to the Commission regarding the on-going implementation of its industry restructuring initiative.

*Louisville Electric & Gas and Kentucky Utilities* – Actively participated in the development of a comprehensive performance-based regulation mechanism and provided support for development of tariff, preparation of testimony, and witness preparation and worked with attorneys to prepare briefs.

*Public Service Electric & Gas* – Senior Consultant in the evaluation of cost of service studies and unbundling plan for the Restructuring Plan submitted to the New Jersey Board of Public Utilities.

*Entergy* – Consultant in this financial audit of affiliated transactions between Entergy Corporation, Entergy Services, Inc., and subsidiaries responsible for the review of affiliated

### Resume of Mr. Chuck Buechel

transactions, allocation, accounting procedures and control, improper disclosure, and insulation and segregation of regulated and non-regulated affiliates.

*California Public Utilities Commission* - Regulatory Lead Consultant for an assignment to assist with the evaluation of a two-year experiment to implement performance-based ratemaking for San Diego Electric and Gas Company's gas procurement and generation and dispatch functions.

*San Diego Gas & Electric Company* - Consultant responsible for this mid-term evaluation of the Company's Base Rates Performance-Based Ratemaking mechanism which included analysis and assessment in the areas of price and corporate performance.

*Big Rivers Electric Corporation* - Provided support and assisted with the preparation of the Company's regulatory filings before the Kentucky PSC for approval to implement a proposed lease of its generating assets to a subsidiary of LG&E Energy.

*Delta Natural Gas* - Assisted with the preparation of an application to increase rates and modify rate design. Testified on rate design changes for larger commercial and industrial customers as well as other specific charges.

*East Kentucky Power Cooperative, Inc.* - Senior Consultant for a project to audit the fuel procurement function at East Kentucky Power Cooperative. The assignment is being performed for the Fuel and Environmental Committee of the Board of Directors.

*Louisville Gas and Electric Company/Kentucky Utilities Company* - Provided strategic, regulatory and operational advice regarding merger between these two utilities. Assisted with preparation of merger application and provided regulatory strategy regarding synergy savings.

*Kentucky Public Service Commission* - Engagement Director for a project to prepare a joint response for a consortium of four utilities in Kentucky. The response is to the Kentucky Public Service Commission Administrative Case No. 341, An Investigation into the Feasibility of Implementing Demand-Side Management Cost Recovery and Incentive Mechanisms. The response discusses the advantages and disadvantages of various regulatory incentives with regard to DSM and conservation.

*Louisville Gas and Electric Company* - Lead Consultant in the preparation of its application to establish a holding company. The application included proposed guidelines to be used in financial dealings between the subsidiary companies, as well as the allocation of costs between the companies.

*New England Telephone Company* - Consultant for the management audit of its affiliated interests. The audit was performed for the Department of Public Utilities of Massachusetts. Primary responsibilities included providing regulatory advice and consultation to the audit team.

## Resume of Mr. Chuck Buechel

*Kentucky Utilities Company* - Engagement Director for a project to provide advice and consultation with regard to the preparation of an application for a certificate of convenience and necessity to construct additional peaking capacity. The filing was prepared to comply with a comprehensive regulation on integrated resource planning adopted by the Kentucky Public Service Commission. Areas of responsibility included preparing the responses for the sections of the IRP regulation, which were concerned with demand-side management.

*Columbia Gas of Ohio, Inc.* - Consultant for its management and operations audit. The audit was for the Public Utility Commission of Ohio. Areas of responsibility include requirements forecasting and flexible transportation program.

*Pennsylvania Gas & Water Company* - Consultant for a comprehensive management audit. The audit is being performed for the Pennsylvania Public Utilities Commission. Areas of responsibility include requirements forecasting, rates and regulatory relations, and financial management and planning.

*West Texas Utilities Company* - Consultant for a management and operations audit. The audit was performed for the Public Utility Commission of Texas. Areas of responsibility included financial planning, economic analysis, and system planning.

*East Kentucky Power Cooperative, Inc.* - Engagement Director for the performance of an audit of evaluation of competitive bids it received for providing generating capacity to meet its needs. The purpose of the audit was to provide assurance to EKPC's management that each of the proposals is provided fair and consistent treatment. The audit was needed because the company had also provided a bid.

*Big Rivers Electric Corporation* - Engagement Director for an assignment to implement a comprehensive planning process. The process is centered on an annual planning cycle, which incorporates the corporate and strategic plans with the divisional plans and budgets.

*Kentucky Public Service Commission* - Witness testifying on behalf of GTE Products Corporation in Kentucky Public Service Commission Case No. 10498, a request by Columbia Gas of Kentucky, Inc. to raise its rates. The testimony supported the continuation of a flexible rate for the transportation of natural gas to industrial customers with alternative fuel capability.

*Henderson County Water District* - Lead Consultant for a comprehensive operations review. The study was sponsored by the district's Board of Directors. Areas of responsibilities included operations planning, organization and staffing, system management, and customer service.

*Lexington Fayette Urban County Government* - Principal Investigator for a report regarding the feasibility of regulating landfill operations at the Kentucky Public Service Commission.

*Kentucky-American Water Company* - Lead Consultant for a project to review and comment on drafts of testimony and a consultant's report on the need to expand its water treatment capacity. The testimony and report was the subject of a mock hearing.

## Resume of Mr. Chuck Buechel

*Kentucky Public Service Commission* - Witness testifying on behalf of AT&T Communications in Kentucky Public Service Commission Administrative Case No. 323, an investigation into permitting intraLATA toll competition. The testimony related to the validity of a customer survey submitted by AT&T in the proceeding.

*East Kentucky Power Cooperative, Inc.* - Engagement Director for a project which reviewed its load research program, made conclusions regarding the statistical validity of its previous efforts, and provided recommendations for future studies.

### **OTHER BUSINESS AND PROFESSIONAL EXPERIENCE**

*President, Utility and Economic Consulting, Inc.*, February 1989-Present. The company provides utility, regulatory, management, and economic consulting services. The consulting engagements described above were performed since the formation of UEC.

*Deputy Executive Director* for the Public Service Commission of Kentucky, 1986-January 1989. Primary responsibilities include the following.

- Managing staff, through their directors, to ensure that cases were processed according to operating procedures and in a timely fashion.
- Working directly with the staff to develop regulatory policy positions for presentation to the Commissioners. One of the key policies developed involved a revised regulatory scheme to promote a more competitive environment for the delivery of natural gas.
- Preparation of a proposed comprehensive planning regulation for the Commission. The regulation, which is applicable to the state's electric utilities, specified filing requirements for the reporting of load forecasts and resource information including demand-side management and supply-side options.

*Director*, Division of Research, for the Public Service Commission of Kentucky, 1983-1986. Primary responsibilities include the following.

- Managing and providing direction for the economic research staff. The staff provided economic advice to the Commission concerning regulatory issues arising in the electric, telephone, gas, and water industries. This included making case assignments, reviewing the economists' work, preparing budgets, as well as other administrative duties.
- Participating in cases before the Commission. This involved working with other staff personnel, reviewing utility filings, preparing data requests and cross-examination of witnesses, advising the Commission, and preparing orders as instructed by the Commission.

### Resume of Mr. Chuck Buechel

- Load Management Coordinator. This position required coordinating, leading discussions, and making presentations to two statewide load management committees - a steering and a technical committee. The committees were composed of Commission staff, utility executives, and consumer representatives. The committees met quarterly to discuss and review the implementation of time-of-day rates for large commercial and industrial customers. Various other load management techniques were also reviewed and considered.
- Project Coordinator, Case No. 8666 - An Investigation Into Alternative Load Forecasting Methods and Planning Considerations for the Efficient Provision of Electric Generation and Transmission Facilities. In this docket, the Commission hired the services of a consultant to perform the following tasks: review the forecasting methods of the state's electric utilities; provide alternative forecasts; examine the potential benefits of conservation; evaluate alternative construction scenarios assuming the formation of a statewide power pool; and estimate the financial impact of the alternative scenarios. Primary duties were to be the intermediary between the consultants, Commission, the utilities, and other parties; to conduct review sessions on the consultant's work; and to evaluate the draft and final reports produced by the consultant.
- Project Officer for comprehensive management audits of Kentucky Utilities Company and South Central Bell Telephone Company. The Commission instituted a management audit program, which involved hiring consultants to review the management practices of all the State's major utility companies. The role of the project officer was to ensure satisfactory and timely performance of the proposed work; to attend selected interviews; and to critically review and evaluate analytical results.

*Public Utility Economist* for the Public Service Commission of Kentucky, 1979-1983. Primary responsibilities included:

- assisting the Commission in implementing procedures and policies to meet the federal mandates of the Public Utility Regulatory Policies Act (PURPA). This involved performing cost-of-service studies, developing alternative rate design proposals, and testifying on the ratemaking standards in Section 111 of PURPA;
- developing the Commission's regulations pertaining to cogeneration.

*Assistant Professor*, Department of Economics, for Morehead State University, 1976-1979. Primary teaching responsibilities were investments, introduction to economics, and intermediate macroeconomics. Other teaching responsibilities included managerial economics and computer programming in BASIC. Committee work included membership on the Southern Association Self-Study and the Committee on Student Life.

**Resume of Mr. Chuck Buechel****EDUCATION**

B.S. in Economics with Honors, University of Kentucky.

M.A. in Economics, University of Kentucky.

Ph.D. Candidate, University of Kentucky

**EXHIBIT CDB-2**

KRS § 160.325

Baldwin's Kentucky Revised Statutes Annotated Currentness

Title XIII. Education

↳ Chapter 160. School Districts (Refs & Annos)

↳ Boards of Education

⇒ **160.325 Mandatory participation in Kentucky Energy Efficiency Program**

- (1) In an effort to reduce the rising energy costs that are straining school budgets, on or before January 1, 2010, each board of education shall enroll in the Kentucky Energy Efficiency Program that is offered by the Kentucky Pollution Prevention Center at the University of Louisville in order to obtain information regarding the potential energy savings for every board-owned and board-operated facility.
- (2) The Kentucky Pollution Prevention Center may prioritize the provision of assistance and development of energy management plans based upon available resources.
- (3) On or before December 1, 2011, and on or before December 1 of each year thereafter, the Kentucky Pollution Prevention Center shall file a report for the preceding fiscal year with the Governor's Office of Energy Policy and the Legislative Research Commission. The report shall include:
  - (a) The number of boards of education enrolled in the Kentucky Energy Efficiency Program;
  - (b) The status of the development of energy management plans by those boards of education and anticipated savings to be obtained by those plans; and
  - (c) The amount and disposition of grants provided by the Governor's Office of Energy Policy and any state appropriations for support of the Kentucky Energy Efficiency Program.
